Bergren,Lisa Tawn Bergren,1993-12 **Romantic Notions** Day Leclair,Roz Denny,1993 *Key Concepts in Romantic Literature* Jane Moore,John Strachan,2010-09-10 *Key Concepts in Romantic Literature* is an accessible and easy to use scholarly guide to the literature criticism and history of the culturally rich and politically turbulent Romantic era 1789 1832 The book offers a comprehensive and critically up to date account of the fascinating poetry novels and drama which characterized the Romantic period alongside an historically informed account of the important social political and aesthetic contexts which shaped that body of writing The epochal poetry of William Wordsworth William Blake Mary Robinson S T Coleridge Charlotte Smith P B Shelley Lord Byron John Keats Felicia Hemans and Letitia Elizabeth Landon the drama of Joanna Baillie and Charles Robert Maturin the novels of Jane Austen and Mary Shelley all of these figures and many more are insightfully discussed here together with clear and helpful accounts of the key contexts of the age s literature including the French Revolution slavery industrialisation empire and the rise of feminism as well as accounts of perhaps less familiar aspects of late Georgian culture such as visionary spirituality atheism gambling fashion music and sport This is the broadest guide available to late eighteenth and early 19th century British and Irish literature history and culture **No Other Name** Robert Beatty,2020-11-08 Samuel Martin is not afflicted with the wanderlust that teenage boys growing into young men in isolated areas in isolated times so often are Samuel has no desire to break out of the isolation of the remote rural farm town he was born into and see the world He wants nothing more than to be the third generation patriarch on the farm of his ancestors living on the land he loves in company with the family he loves He is just facing the problem of finding the one girl he wants to share his love and life with He thinks he has found that girl in the form of the beautiful enigmatic young prostitute girl who hides her early life and hides herself behind the flowery contrived name of Clarinda The girl shares her body with him but never shares her real name Neither does she share the love she is incapable of returning Samuel loves the girl recklessly and beyond the point of caution In the process he learns that loving recklessly and beyond caution can invert and disrupt your life the way following any passion recklessly can He also

learns that life is what happens to you when you had other plans Sava Hassan,2005-10-01 In the first part of my book I examined men and women s perception of every essential aspect of a relationship and how they deal with it in an attempt to open a forum of discussion between the two genders It was clear that women have been trying extremely hard to accommodate their self absorbed men Men on the other hand have been conditioned to behave in a shameful manner toward their ladies I do believe that both men and women must work together to acquire the courage to break all the walls of suspicion and mistrust that they have been building for generations In the second part of my book I am sharing my experience in China During my stay in China I was awed as well as bewildered by the aspects of the daily life I discovered that the land of my dream is a harmonious blend of positive and negative elements I attempted to be objective and out of character for a writer honest in stating my views aspiring that my observations may help my hosts the Chinese to see themselves through the eyes of an admiring foreigner Creating Romantic Obsession Kathleen Béres Rogers,2019-03-29 Most of us have at one time been obsessed with something but how did obsession become a mental illness This book examines literary medical and philosophical texts to argue that what we call obsession became a disease in the Romantic era and reflects the era s anxieties Using a number of literary texts some well known like Mary Shelley s 1818 *Frankenstein* and Edgar Allan Poe s 1843 *The Tell Tale Heart* and some not like Charlotte Dacre s 1811 *The Passions* and Charles Brockden Brown s 1787 *Edgar Huntly* the book looks at *vigilia* an overly intense curiosity intellectual monomania an obsession with study nymphomania and erotomania gendered forms of desire *revolutiana* an obsession with sublime violence and military service and ideality an obsession with an idea The coda argues that traces of these Romantic constructs can be seen in popular accounts of obsession today *Romantic Vacancy* Kate Singer,2019-08-01 Examines the concept of a poetics of vacancy in Romantic era literature *Romantic Vacancy* argues that at the cult of sensibility s height Romantic writers found alternative tropes of affect to express movement beyond sensation and the body *Grappling with sensibility* s claims that sensation could be translated into ideas and emotions poets of vacancy rewrote core empiricist philosophies that trapped women and men in sensitive bodies and more detrimentally in ideological narratives about emotional response that gendered subjects bodies and minds Kate Singer contends that affect s genesis occurs instead through a series of figurative responses and movements that loop together human and nonhuman movements of mind body and nature into a posthuman affect This book discovers a new form of Romantic affect that is dynamically linguistic and material It seeks to end the long tradition of holding women and men writers of the Romantic period as separate and largely unequal It places women writers at the forefront of speculative thinking repositions questions of gender at the vanguard of Romantic era thought revises how we have long thought of gender in the period and rewrites our notions of Romantic affect Finally it answers pivotal questions facing both affect studies and Romanticism about interrelations among language affect and materiality Readers will learn more about the deep history of how poetic language can help us move beyond binary gender and its limiting intellectual and

affective ideologies Romantic Vacancy is a formidable text for our time Providing a nuanced and original account of Romanticism s reconfiguration of affect Singer not only opens up new ways of thinking about literature of the past her detailed argument for complex poetic explorations of what it means to be a self create challenges for the present especially through the intimate relation between text and affect This book is essential for anyone working in literary Romanticism but will also be valuable for those interested in the complex literary history of affect Claire Colebrook Pennsylvania State University Praise for Romantic Vacancy For some time now there has been what we might call a movement that attends in Romantic writing to affects and states of being we had previously neglected or simply missed altogether A generation of scholars junior and senior is mapping out this uncharted territory in the most original manner along the way teaching us how to be with Romanticism and how Romanticism has always been with us in ways that are teaching all of us in turn how to be with the present We can put Kate Singer s Romantic Vacancy smart insightful beautifully argued at the vanguard of this movement proof of the fact that any rumours of the death of our field are not only highly exaggerated but just plain wrong Joel Faflak author of Romantic Psychoanalysis The Burden of the Mystery Romantic Vacancy offers compelling close readings of Romantic women poets and two canonical male poets Shelley and Wordsworth After reading this book Romantic era scholars will no longer be able to read these poets in the same way again I think this book will be a game changer for scholars working on women poets This is a very fine work that should have a significant influence on the field Daniela Garofalo author of Women Love and Commodity Culture in British Romanticism **School for Cool** Eitan Y.

Wilf,2014-05-05 Jazz was born on the streets grew up in the clubs and will die so some fear at the university Facing dwindling commercial demand and the gradual disappearance of venues many aspiring jazz musicians today learn their craft and find their careers in one of the many academic programs that now offer jazz degrees School for Cool is their story Going inside the halls of two of the most prestigious jazz schools around at Berklee College of Music in Boston and the New School for Jazz and Contemporary Music in New York Eitan Y Wilf tackles a formidable question at the heart of jazz today can creativity survive institutionalization Few art forms epitomize the anti institutional image more than jazz but it s precisely at the academy where jazz is now flourishing This shift has introduced numerous challenges and contradictions to the music s practitioners Solos are transcribed technique is standardized and the whole endeavor is plastered with the label high art a far cry from its freewheeling days Wilf shows how students educators and administrators have attempted to meet these challenges with an inventive spirit and a robust drive to preserve and foster what they consider to be jazz s central attributes its charisma and unexpectedness He also highlights the unintended consequences of their efforts to do so Ultimately he argues the gap between creative practice and institutionalized schooling although real is often the product of our efforts to close it Posthumanist and New Materialist Methodologies Claudia Diaz-Diaz,Paulina Semenec,2020-03-13 This book features interviews with 19 scholars who do research with children in a variety of contexts It examines how these key

scholars address research after the child by exploring the opportunities and challenges of drawing on posthumanist and materialist methodologies that unsettle humanist research practices The book reflects on how posthumanist and materialist approaches have informed research in relation to de centering the child re thinking methodological concepts of voice agency data analysis and representation It also explores what the future of research after the child might entail and offers suggestions to new and emerging scholars involved in research with children Reviewing how posthumanist and materialist approaches have informed authors thinking about children research and knowledge production the book will appeal to graduate students and emerging scholars in the field of childhood studies who wish to experiment with posthumanist methodologies and materialist approaches

Romantic Encounters Melissa Frazier, 2007 Romantic Encounters focuses on literary periodicals of the 1830s to describe the destabilization of readerly and writerly identities which occurs when Romantic irony meets an apparently rising literary marketplace

International Disputes and Cultural Ideas in the Canadian Arctic Danita Catherine Burke, 2017-08-22 This book explores the Canadian relationship with its portion of the Arctic region which revolves around the dramatic split between the appearance of absent minded governance bordering on indifference toward the region and the raging nationalism during moments of actual and perceived challenge toward the sovereignty of the imagined Canadian Arctic region Canada s nationalistic relationship with the Arctic region is often discussed as a reactionary phenomenon to the Americanization of Canada and the product of government propaganda As this book illustrates however the complexity and evolution of the Canadian relationship with the Arctic region and its implication for Canada s approach toward international relations requires a more in depth exploration Please be aware than an error has been noted for Table 1 1 on page 71 In this table the sub category Inuit is mislabelled It should read Native Indians and Inuit as the data presented represents this Canadian census sub category which calculated all indigenous peoples and Inuit peoples together

European Shakespeares. Translating Shakespeare in the Romantic Age Dirk Delabastita, Lieven D[un]hulst, 1993-03-04 Where when and why did European Romantics take to Shakespeare How about Shakespeare s reception in enduring Neoclassical or in popular traditions And above all which Shakespeare did these various groups promote This collection of essays leaves behind the time honoured commonplaces about Shakespearean translation the translatability of Shakespeare s forms and meanings the issue of loss and gain in translation the distinction between translation and adaptation translation as an art etc and joins modern Shakespearean scholarship in its attempt to lay bare the cultural mechanisms endowing Shakespeare s texts with their supposedly inherent meanings The book presents a fresh approach to the subject by its radically descriptive stance by its search for an adequate underlying theory along interdisciplinary lines and not in the least by its truly European scope It traces common trends and local features not just in France and Germany but also in Hungary Italy the Netherlands Portugal Russia Scandinavia and the West Slavic cultures

Locating the Romantic Subject Gail M. Newman, 1997 Gail Newman s extensive introduction locates Novalis in the sociohistorical and

philosophical context of the late eighteenth century focusing on the theory of the subject that emerged at that time She outlines the relationship of psychoanalytic and literary interpretation from the Freudian to the French to her own Winnicottian perspective In the body of the text she provides a detailed and thorough analysis of Novalis s principal narrative text the novel Heinrich von Ofterdingen 1801 **Carla Bley** Amy C. Beal,2011-10-01 This is the first comprehensive treatment of the remarkable music and influence of Carla Bley a highly innovative American jazz composer pianist organist band leader and activist With fastidious attention to Bley s diverse compositions over the last fifty years spanning critical moments in jazz and experimental music history Amy C Beal tenders a long overdue representation of a major figure in American music Best known for her jazz opera Escalator over the Hill her role in the Free Jazz movement of the 1960s and her collaborations with artists such as Jack Bruce Don Cherry Robert Wyatt and Pink Floyd drummer Nick Mason Bley has successfully maneuvered the field of jazz from highly accessible tradition based contexts to commercially unviable avant garde works Beal details the staggering variety in Bley s work as well as her use of parody quotations and contradictions examining the vocabulary Bley has developed throughout her career and highlighting the compositional and cultural significance of her experimentalism Beal also points to Bley s professional and managerial work as a pioneer in the development of artist owned record labels the cofounder and manager of WATT Records and the cofounder of New Music Distribution Service Showing her to be not just an artist but an activist who has maintained musical independence and professional control amid the profit driven corporation dominated world of commercial jazz Beal s straightforward discussion of Bley s life and career will stimulate deeper examinations of her work Romantic Revelations Chris Washington,2019-08-22 Romantic Revelations shows that the nonhuman is fundamental to Romanticism s political responses to climatic catastrophes Exploring what he calls post apocalyptic Romanticism Chris Washington intervenes in the critical conversation that has long defined Romanticism as an apocalyptic field Apocalypse means the revelation of a perfected world which sees Romanticism s back to nature environmentalism as a return to paradise and peace on earth Romantic Revelations however demonstrates that the destructive climate change events of 1816 the year without a summer changed Romantic thinking about the environment and the end of the world Their post apocalyptic visions correlate to the beginning of the Anthropocene the time when humans initiated the possible extinction of their own species and potentially the earth Rather than constructing paradises where humans are reborn or human existence ends the later Romantics are interested in how to survive in the ashes after great social and climatic global disasters Romantic Revelations argues that Percy Shelley Mary Shelley Lord Byron John Clare and Jane Austen sketch out a post apocalyptic world that in contrast to the sunnier Romantic narratives is paradoxically the vision that offers us hope In thinking through life after disaster Washington contends that these authors craft an optimistic vision of the future that leads to a new politics Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens,2013-05-28 Taking an original approach to Robert Browning s poetics Britta Martens

focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference

The Romance of Crossing Borders Neriko Musha Doerr, Hannah Davis Taïeb, 2017-01-01 What draws people to study abroad or volunteer in far off communities Often the answer is romance the romance of landscapes people languages the very sense of border crossing and longing for liberation attraction to the unknown yearning to make a difference This volume explores the complicated and often fraught desires to study and volunteer abroad In doing so the book sheds light on how affect is managed by educators and mobilized by students and volunteers themselves and how these structures of feeling relate to broader social and economic forces

Romantic Drama Gerald Ernest Paul Gillespie, 1994 It does not treat Romanticism as a limited period dominated by some construed singular master ethos or dialectic rather it follows the literary patterns and dynamics of Romanticism as a flow of interactive currents across geocultural frontiers
