*Russia and Iran in the Great Game* Elena Andreeva,2007-06-11 This book examines the Russian explorers and officials in the nineteenth and early twentieth century who came into contact with Iran as a part of the Great Game It demonstrates the development of Russia's own form of Orientalism a phenomenon that has previously been thought to be exclusive to the West

*Romanticism in Its Modern Aspects* Virgil Nemoianu,1998      **Intellectual Politics and Cultural Conflict in the Romantic Period** Alex Benchimol,2016-05-23 Intellectual Politics and Cultural Conflict in the Romantic Period maps the intellectual formation of English plebeian radicalism and Scottish philosophic Whiggism over the long eighteenth century and examines their associated strategies of critical engagement with the cultural social and political crises of the early nineteenth century It is a story of the making of a wider British public sphere out of the agendas and discourses of the radical and liberal publics that both shaped and responded to them When juxtaposed these competing intellectual formations illustrate two important expressions of cultural politics in the Romantic period as well as the peculiar overlapping of national cultural histories that contributed to the ideological conflict over the public meaning of Britain's industrial modernity Alex Benchimol's study provides an original contribution to recent scholarship in Romantic period studies centred around the public sphere recovering the contemporary debates and national cultural histories that together made up a significant part of the ideological landscape of the British public sphere in the early nineteenth century      **Escape and Return** Anne

Paolucci,2008      The Early Roman Expansion into Italy Nicola Terrenato,2019-05-02 Argues that Roman expansion in Italy was accomplished more by means of negotiation among local elites than through military conquest      **Palestrina and the**

**German Romantic Imagination** James Garratt,2002-07-18 Focusing on the reception of Palestrina this bold interdisciplinary study explains how and why the works of a sixteenth century composer came to be viewed as a paradigm for modern church music It explores the diverse ways in which later composers responded to his works and style and expounds a provocative model for interpreting compositional historicism In addition to presenting insights into the works of Bruckner Mendelssohn and Liszt the book offers fresh perspectives on the institutional aesthetic and ideological frameworks sustaining the cultivation of choral music in this period This publication provides an overview and analysis of the relation between the Palestrina revival and nineteenth century composition and it demonstrates that the Palestrina revival was just as significant for nineteenth century culture as parallel movements in the other arts such as the Gothic revival      **Romantic Love in**

**Cultural Contexts** Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal

emotion experienced by a majority of people in various historical eras and in all the world's cultures. Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel, think, and behave in romantic relationships. This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field. Divided into three parts, the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context. Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history. Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world, focusing particularly on the development of romantic love as a cultural ideal of the modern cultures. Finally, the book concludes by summarizing the major achievements in this field of study and predicts future development. A timely and thoughtful addition to the literature, *Romantic Love in Cultural Contexts* delivers thought-provoking insights to researchers in relationship scholarship, sociology, anthropology, and cultural studies, and all those interested in the universal human concept of love. Overall, I find Dr. Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross-cultural research and of anthropology. In our increasingly connected world, *Romantic Love in Cultural Contexts* updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures. Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years. The topic of this project concerns the deepest of our sentiments and pervades life from birth to death. This book contributes to better knowledge of this phenomenon across generations.

*Enlightening Romanticism, Romancing the Enlightenment*  
Professor Miriam L. Wallace, 2013-04-28

As eighteenth-century scholarship expands its range and disciplinary boundaries, such as Enlightenment and Romanticism, are challenged. Novels published during the rich period from 1750 to 1832 have become a contested site of critical overlap. In this volume, scholars who typically write under the rubric of either the long eighteenth century or Romanticism examine novels often claimed by both scholarly periods. This shared enterprise opens new and rich discussions of novels and novelistic concerns by creating dialogue across scholarly boundaries. Dominant narratives, critical approaches, and methodological assumptions differ in important ways, but these differences reveal a productive tension. Among the issues engaged are the eighteenth-century novel's development of emotional interiority, including theories of melancholia; the troubling heritage of the epistolary novel; for the 1790s, radical novel tensions between rationality and romantic affect; issues of aesthetics and politics; and constructions of gender, genre, and race. Rather than positing a simple opposition between an eighteenth-century Enlightenment of rationality, propriety, and progress and a Romantic Period of inspiration, heroic individualism, and sublime emotionality, these essays trace the putatively Romantic in the early 1700s as

well as the long legacy of Enlightenment values and ideas well into the nineteenth century The volume concludes with responses from Patricia Meyer Spacks and Stephen C Behrendt who situate the essays and elaborate on the stakes *The Relevance of Romanticism* Dalia Nassar, 2014-03-03 Since the early 1990s there has been a resurgence of interest in philosophy between Kant and Hegel and in early German romanticism in particular Philosophers have come to recognize that in spite of significant differences between the contemporary and romantic contexts romanticism continues to persist and the questions which the romantics raised remain relevant today *The Relevance of Romanticism Essays on Early German Romantic Philosophy* is the first collection of essays that offers an in depth analysis of the reasons why philosophers are and should be concerned with romanticism Through historical and systematic reconstructions the collection offers a deeper understanding and more encompassing picture of romanticism as a philosophical movement than has been presented thus far and explicates the role that romanticism plays or can play in contemporary philosophical debates The volume includes essays by a number of preeminent international scholars and philosophers Karl Ameriks Frederick Beiser Richard Eldridge Michael Forster Manfred Frank Jane Kneller and Paul Redding who discuss the nature of philosophical romanticism and its potential to address contemporary questions and concerns Through contributions from established and emerging philosophers discussing key romantic themes and concerns the volume highlights the diversity both within romantic thought and its contemporary reception Part One consists of the first published encounter between Manfred Frank and Frederick Beiser in which the two major scholars directly discuss their vastly differing interpretations of philosophical romanticism Part Two draws significant connections between romantic conceptions of history sociability hermeneutics and education and explores the ways in which these views can illuminate pressing questions in contemporary social political philosophy and theories of interpretation Part Three consists in some of the most innovative takes on romantic aesthetics which seek to bring romantic thought into dialogue with for instance contemporary Analytic aesthetics and theories of cognition mind The final part offers one of the few rigorous engagements with romantic conceptions science and demonstrates ways in which the romantic views of nature scientific experimentation and mathematics need not be relegated to historical curiosities *The Cambridge History of European Romantic Literature* Patrick Vincent, 2023-11-09 This wide ranging new history of European Romantic Literature presents a pan European phenomenon which transcended national borders and contributed to a new sense of European cultural identity across the continent Conceived in the same spirit as Madame de Sta l s cultural and political agenda at a time when her generous idea of Europe is being challenged on all sides the volume pays close attention to the period s circulation of people ideas and texts It proposes to rethink the period comparatively focusing on various forms of cultural mediation and transfer and on productive tensions synchronicities and interactions within and across borders Organized chronologically its twenty chapters address over five hundred works proposing a coherent historical narrative without completely erasing individual nations specificities By showcasing in particular the place of Britain within continental

culture the volume hopes to reactivate critical examinations of Romanticism from a historicised European perspective

*Women, Epic, and Transition in British Romanticism* Elisa Beshero-Bondar, 2011-05-31 *Women Epic and Transition in British Romanticism* argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women's importance in moments of historical crisis While Romantic epics did not all engage in radical questioning or undermining of authority this study calls attention to some of the more provocative poems in their approach to gender culture and history This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth century At their most innovative Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women's experiences in entirely new ways to reflect on defeat loss and inevitable transition For the first time the epic became an attractive genre for ambitious women poets The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history gender and genre and women's studies Published by University of Delaware Press Distributed worldwide by Rutgers University Press

Raber, 2016-04-29 The essays in this volume interrogate the unique and often problematic relationship between early modern cultural studies and ecocriticism providing theoretical insights and models for a future practice that successfully wed the two disciplines *Ecological Economics* Gareth Edwards-Jones, Ben Davies, Salman S. **Gender, Surveillance, and Literature in the Romantic Period** Lucy E. Thompson,2021-12-30 Romantic era literature offers a key message surveillance in all its forms was experienced distinctly and differently by women than men Gender Surveillance and Literature in the Romantic Period examines how familiar and neglected texts internalise and interrogate the ways in which targeted asymmetric and often isolating surveillance made women increasingly and uncomfortably visible in a way that still resonates today The book combines the insights of modern surveillance studies with Romantic scholarship It provides readers with a new context in which to understand Romantic period texts and looks critically at emerging paradigms of surveillance directed at marginal groups as well as resistance to such monitoring Works by writers such as Jane Austen Charlotte Smith and Joanna Baillie as well as Lord Byron and Thomas De Quincey give a new perspective on the age that produced the Panopticon This book is designed to appeal to a wide readership and is aimed at students and scholars of surveillance literature Romanticism and gender politics as well as those interested in important strands of women s experience not only for the additional layers they reveal about the Romantic era but also for their relevance to current debates around asymmetries of power within gendered surveillance
