Armies of the Roman Republic 264-30 BC Gabriele Esposito, 2024-07-09 The period covered in this book saw the Roman Republic face its greatest military challenges In 264 the Romans were pitted against the might of Carthage in the first of the three Punic Wars which would push Rome to the brink but end with the destruction of this great rival city In the following two centuries they would clash repeatedly with the Gauls this recurrent threat finally overcome by Caesar's campaigns in Gaul In this period they defeated the Hellenistic Successor states proud heirs to the military legacy of Alexander the Great a process completed by the annexation of Egypt in 30 BC These wars and others made the Romans masters of all Western Europe and the whole Mediterranean basin though failure against the Parthians limited their ambitions in the East The Roman armies of this era were also employed against each other in the vicious civil wars that marked the end of the Republican period Gabriele Esposito describes the tactics organization weapons and equipment of the Roman forces involved in these wars He shows how the lessons of defeats and victories against such varied opponents in far flung theaters as well as social changes forced a process of evolution and reforms that transformed Roman armies across this turbulent period As usual his clear accessible text is supported by dozens of color images of replica weapons and equipment
