*Endo Boot Camp* Prof. Su Jung Shin, 2024-07-25 A Personal Journey Through 25 Years of Endodontics. From articles and audiobooks to this long-awaited book. As summer 2024 arrives, I find myself reflecting on my long-standing relationship with the dental world. Over the years, I've shared my thoughts and experiences through various forms: articles in *Dental World Monthly* (2008, 2016, 2023) and an audiobook collaboration in 2011 with the esteemed Professor Park Jung-won. In the spring of 2024, I launched an online course, Dr. Shin's Endodontic Bootcamp, which became one of the few consistent ways I've been able to stay connected with fellow clinicians over the past 15 years. Back in 2011, I thought I would publish a comprehensive book on endodontics after about a decade of additional experience. That timeline stretched longer than expected, but now, though my fingers and mind still feel the pressure, I'm finally able to share this book with you. And I'm grateful it's not too late.

About This Book: This book is divided into three parts, each reflecting a distinct phase of my clinical and intellectual journey. Part I shares insights from my 25 years of practicing endodontics, including long-term follow-up and the nuanced diagnosis and treatment of cracked teeth, one of the most frequently asked topics among dentists. Part II introduces root canal filling using MTA sealer, a method gaining significant attention, and offers clinical strategies for managing calcified canals. Part III highlights commonly overlooked details in treating large molars, subtle but essential for successful outcomes. I completed this manuscript during the spring of 2024, some of it written on a serene May day, some on the way to lay my father-in-law to rest. I dedicate this book to the late Dr. Cho Gil Won, who, despite not being a dentist himself, would have been prouder than anyone to see this book published. To everyone who picks up this book, thank you for joining me on this 25-year journey through the world of endodontics.
