production representing their ideas with color and form not infrequently cross media to paint with words Philosophy religion art and literature cross paths via symbols and other visual and linguistic constructs Writers deal with how and where their own or their characters multiple identities intersect The Hispanic world is an extraordinarily vivid place to explore these crossroads This collection of essays addresses a multitude of crossroads in numerous Hispanic contexts across the intersections of time e g the visual architectural how Spains age old oenological tradition meets modern technology how the vestiges of long term dictatorship lurk in the spaces of Spains democracy and how space architecture and art poetry cross in Latin America Painters Pablo Picasso and Frida Kahlos productions cross the visual to the written and magical realism products of the twentieth century Latin American artistic movement defy nature science time and space Caminos ,1980
