Bonds of Empire Anne Spry Rush, 2011-06-09 In the first half of the twentieth century Britishness was an integral part of the culture that pervaded life in the colonial Caribbean Caribbean peoples were encouraged to identify with social structures and cultural values touted as intrinsically British Many middle class West Indians of colour duly adopted Britishness as part of their own identity Yet as Anne Spry Rush explains in *Bonds of Empire* even as they re fashioned themselves West Indians recast Britishness in their own image basing it on hierarchical ideas of respectability that were traditionally British but also on more modern expectations of racial and geographical inclusiveness Britain became the focus of an imperial British identity an identity which stood separate from and yet intimately related to their strong feelings for their tropical homelands Moving from the heights of empire in 1900 to the independence era of the 1960s Rush argues that middle class West Indians used their understanding of Britishness first to establish a place for themselves in the British imperial world and then to negotiate the challenges of decolonization Through a focus on education voluntary organization the challenges of war radio broadcasting and British royalty she explores how this process worked in the daily lives of West Indians in both the Caribbean and the British Isles *Bonds of Empire* thus traces West Indians participation in a complex process of cultural transition as they manipulated Britishness and their relationship to it not only as colonial peoples but also as Britons

Kandiah,2016-12-01 This book explores the recreation and subsequent development of the British Monarchy during the twentieth century Contributors examine the phenomenon of modern monarchy through an exploration of the establishment and the continuing impact of the Windsor dynasty both within Britain and the wider world to interrogate the reasons for its survival into the twenty first century The successes and failures of the dynasty and the implications of these for its long term survival are assessed from the perspectives of constitutional political diplomatic and socio cultural history Emphasis is placed on the use of symbols and tradition and their reinvention and public reactions to their employment by the Windsors including the evidence provided by opinion polls Starting with George V and including darker times such as the challenge of the abdication of Edward VIII this collection considers how far this reign was a key transition in how the British royal family has perceived itself and its role through examination of the repackaging for mass consumption via the media of a range of state occasions from coronations to funerals as well as modernization of its relations with the military The Making of Consumer Culture in Modern Britain Peter Gurney,2017-05-18 CHOICE OUTSTANDING ACADEMIC TITLE AWARD WINNER 2018 It is commonly accepted that the consumer is now centre stage in modern Britain rather than the worker or producer Consumer choice is widely regarded as the major source of self definition and identity rather than productive activity Politicians vie with each other to fashion their appeal to citizen consumers When and how did these profound changes occur Which historical alternatives were pushed to the margins in the process In what ways did the everyday consumer practices and forms of consumer organising adopted by both middle and working class men and women shape the outcomes This study of the making of consumer culture in Britain since 1800 explores these questions introduces students to major debates and cuts a distinctive path through this vibrant field It suggests that the consumer culture that emerged during this period was shaped as much by political relationships as it was by economic and social factors *Newspapers and English Society*

Benati,James F. Lee,2011-11-03 Processing Instruction is an approach to grammar instruction for second language learning contrasting with traditional grammar instruction in its focus on structured input rather than learners output This book compares student assessment after traditional grammar instruction and after Processing Instruction to assess the positive benefits of this method of second language teaching Rather than examining sentence level tasks the study looks at the relative effectiveness of Processing Instruction on discourse level linguistic ability Case studies using empirical data from second language learners of Japanese Italian and English are used to highlight the benefits to the learner of this method of enhanced input This monograph will be of interest to postgraduates and academics researching second language acquisition and applied linguistics **The Bystander** ,1919 **Merovingian Mortuary Archaeology and the Making of the Early Middle Ages** Bonnie Effros,2003-03-03 Clothing jewelry animal remains ceramics coins and weaponry are among the artifacts that have been discovered in graves in Gaul dating from the fifth to eighth century Those who have unearthed them from the middle ages to the present have speculated widely on their meaning This authoritative book makes a major contribution to the study of death and burial in late antique and early medieval society with its long overdue systematic discussion of this mortuary evidence Tracing the history of Merovingian archaeology within its cultural and intellectual context for the first time Effros exposes biases and prejudices that have colored previous interpretations of these burial sites and assesses what contemporary archaeology can tell us about the Frankish kingdoms Working at the intersection of history and archaeology and drawing from anthropology and art history Effros emphasizes in particular the effects of historical events and intellectual movements on French and German antiquarian and archaeological studies of these grave goods Her discussion traces the evolution of concepts of nationhood race and culture and shows how these concepts helped shape an understanding of the past Effros then turns to contemporary multidisciplinary methodologies and finds that we are still limited by the types of information that can be readily gleaned from physical and written sources of Merovingian graves For example since material evidence found in the graves of elite families and particularly elite men is

more plentiful and noteworthy mortuary goods do not speak as directly to the conditions in which women and the poor lived. The clarity and sophistication with which Effros discusses the methods and results of European archaeology is a compelling demonstration of the impact of nationalist ideologies on a single discipline and of the struggle toward the more pluralistic vision that has developed in the post war years.
