Owners of the Map Claudio Sopranzetti, 2018 On May 19 2010 the Royal Thai Army deployed tanks snipers and war weapons to disperse the thousands of Red Shirts protesters who had taken over the commercial center of Bangkok to demand democratic elections and an end to inequality Key to this mobilization were motorcycle taxi drivers who slowed down filtered and severed mobility in the area claiming a prominent role in national politics and ownership over the city and challenging state hegemony Four years later on May 20 2014 the same army general who directed the dispersal staged a military coup unopposed by protesters How could state power have been so fragile and open to challenge in 2010 and yet so seemingly sturdy only four years later How could protesters who had once fearlessly resisted military attacks now remain silent Owners of the Map provides answers to these questions central to contemporary political mobilizations around the globe through an ethnographic study of motorcycle taxi drivers in Bangkok Claudio Sopranzetti explores the unresolved tensions in the drivers everyday lives their migration trajectories consumer desires and political demands amidst the restructuring of Thai capitalism after the 1997 economic crisis Reconstructing the entanglements between their everyday mobility and political mobilization Sopranzetti reveals mobility not just as a strength of contemporary capitalism but also as

one of its fragile spots always prone to disruption by the people who sustain its channels but remain excluded from their benefits In so doing Owners of the Map advances an analysis of power that focuses not on the sturdiness of hegemony or the ubiquity of everyday resistance but on its potential fragility as well as the work needed for its maintenance *Official Catalogue of Exhibitors* ,1904 Map to Illustrate the Siamese Question ,1893 **Transboundary Heritage and Intellectual Property Law** Patricia Covarrubia,2022-11-30 Since the Intangible Heritage Convention was adopted by UNESCO in 2003 intangible cultural heritage has increasingly been an important subject of debate in international forums As more countries implement the Intangible Heritage Convention national policymakers and communities of practice have been exploring the use of intellectual property protection to achieve intangible cultural heritage safeguarding outcomes This book examines diverse cultural heritage case studies from Indigenous communities and local communities in developing and industrialised countries to offer an interdisciplinary examination of topics at the intersection between heritage and property which present cross border challenges Analysing a range of case studies which provide examples of traditional knowledge traditional cultural expressions and genetic resources by a mixture of practitioners and scholars from different fields the book addresses guidelines and legislation as well as recent developments about shared heritage to identify a progressive trend that improves the understanding of intangible cultural heritage Considering all forms of intellectual property including patents copyright design rights trade marks geographical indications and sui generis rights the book explores problems and challenges for intangible cultural heritage in crossborder situations as well as highlighting positive relationships and collaborations among communities across geographical boundaries Transboundary Heritage and Intellectual Property Law Safeguarding Intangible Cultural Heritage will be an important resource for practitioners scholars and students engaged in studying intangible cultural heritage intellectual property law heritage studies and anthropology Catalogue of the manuscript maps, charts and plans ... in the British museum British museum dept. of MSS.,1861 **Classification and Cataloging of Maps and Atlases** United States.
