American-Arab Affairs ,1991 **The Indian Ocean as a New Political and Security Region** Frédéric Grare, Jean-Loup Samaan, 2022-01-18 This book analyses the emergence of the Indian Ocean as security complex and a strategic space of central importance and also looks at its prospective future As well as US China

rivalry the India China rivalry is now the defining factor in the Indian Ocean irrespective of the strategic asymmetry This new situation has opened a space for middle powers old and new to intervene The authors argue that this situation may turn into an additional source of instability and that the creation of an inclusive and comprehensive regional security architecture as well as the strengthening of regional multilateralism should be the priority of all stakeholders in the coming decade

Routledge Handbook on Middle East Security Anders Jägerskog, Michael Schulz, Ashok Swain, 2019-02-11 Routledge Handbook on Middle East Security provides the first comprehensive look at Middle East security issues that includes both traditional and emerging security threats Taking a broad perspective on security the volume offers both analysis grounded in the hard military and state security discourse but also delves into the soft aspects of security employing a human security perspective As such the volume addresses imminent challenges to security such as the ones relating directly to the war in Syria but also the long term challenges The traditional security problems which are deep seated are at risk of being exacerbated also by a lack of focus on emerging vulnerabilities in the region While taking as a point of departure the prevalent security discourse the volume also goes beyond the traditional focus on military or state security and consider non traditional security challenges This book provides a state of the art review of research on the key challenges for security in the Middle East it will be a key resource for students and scholars interested in Security Studies International Relations Political Science and Middle Eastern Studies

The End of the British Empire in the Middle East, 1952—1971 Wm. Roger Louis, 2025-02-20 The quarter century after the end of the Second World War and the transfer of power in India in 1947 marked the slow and turbulent dissolution of the British Empire in the Middle East Seeking to capture the period in its full complexity and contradictions acclaimed historian Wm Roger Louis here provides a through going account of the British Empire s gradual decline Unpicking the overlapping motivations of those across Britain the US and the Middle East the book demonstrates how and why enthusiasm for the British involvement in the region waned the chaotic ways in which the withdrawal unfolded and the importance of these events for understanding the region today The book explores the period in full detail from the overthrow of the Musaddiq government in Iran the Egyptian Revolution Sudan s independence and the events of the pivotal year of 1955 that set the stage for the Suez crisis the following year through the pivotal Suez crisis of 1956 itself to the crises of 1957 the Iraqi Revolution of 1958 and the 1967 Arab Israeli war and concluding with the collapse of the British position in Aden and the decision to withdraw from the Gulf a process completed by the end of 1971 This panoramic and comprehensive history draws on six decades work in archives across Europe the Middle East and the US including those from governmental archives and private papers and in multiple languages complemented by a considerable body of oral history testimony much of it acquired by the author through conversations with contemporary British politicians and officials In so doing the book sheds new light onto the nature and complexity of the British Empire in its final days and the importance of understanding this history today

Deconstructing and Reconstructing the Cold War Shahin P.

Malik, 2018-12-17 Published in 1999 These essays are not deconstructive in the postmodern sense None of the authors have that depth of scepticism about knowledge claims but they are all concerned that the terms of reference of Cold War enquiry have been inappropriately bounded The chapters by Murray and Reynolds specifically address the broad theoretical issues involved with paradigms and explanation The chapters by Dobson Marsh Malik Evans and Dix stretch out Cold War paradigms with successive case studies of Anglo American relations the USA Britain Iran and the oil majors the Gulf States and the Cold War South Africa and the Cold War and Indian neutralism All five authors challenge the efficacy of neo realist analysis and explanation and critique the way that assumptions derived from that position have been used in historical explanation The chapters by Ryall Rogers and Bideleux deal with Roman Catholicism in East Central Europe with nuclear matters and with the Soviet perspective Each work goes beyond the limits of Cold War paradigms Finally Ponting places the Cold War in the broad context of world history These essays provide thought provoking scholarship which helps us both to nuance our understanding of the Cold War and to realise that it should not be taken as an all embracing paradigm for the explanation of postwar international relations

Security In The Middle East Mark Bruzonsky, Shaun Murphy, Samuel F. Wells, 2020-01-16 This book examines the deep seated problems in the Middle East and their impact on the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping with them without sacrificing long term goals for quick fixes

The Middle East in the New World Order Haifaa A. Jawad, 2016-07-27 The 1990 91 Gulf War the Israeli PLO agreement instances of political and economic reform and the radical political reassertion of Islam all indicate that the post Cold War Middle East is in the grip of dramatic changes This has generated considerable enthusiasm Yet such transformation to the political landscape bring with them daunting difficulties The Middle East faces a host of problems urgently in need of solutions if a successful new world order is to be built on the ruins of the old In this book an international group of scholars addresses these issues and considers the options for the political social and economic reconstruction of the region Themes covered include democratisation the Arab state system in the new global environment the civil war in Arabia security structures the Arab Israeli conflict the role and potential contribution of pan Islamism and pan Arabism and the prospects for economic revival Throughout the linkages between regional dynamics and the changing global environment are highlighted Case studies are drawn from the whole region from North Africa to the Gulf and from Syria to Yemen

The Restoration of Legitimacy in Yemen and Its Role in Strengthening Arab National Security Prof. Jamal Sanad Al-Suwaidi, The Arab military intervention in Yemen restored trust in the Arab national security system with its Gulf

leadership and also revealed the level of Arab world awareness in terms of addressing regional and international shifts independently Therefore the effect of this step regaining lost balance and taking the initiative after years of passivity and defensiveness goes beyond Yemen to affect the entire region The lecture concluded that the Saudi led Arab military intervention to restore legitimacy in Yemen is indeed a historic opportunity an opportunity that must be harnessed in a way that builds an Arab military force capable of defending Arab security in the face of imminent threats This is especially important considering the increasing conflicts and competition between several regional and international powers in the Arab world as well as the shifts in Middle East foreign policies of certain major powers such as the United States of America These changes highlight the fact that the region needs to rely on itself to defend its interests The Iran nuclear deal signed by Iran and major powers in July 2015 has created a new reality in the region This is especially the case with regard to Tehran s relations with international powers particularly the United States of America Iran s position within the policies toward the region and its interests is something that the Arabs must deal with from a position of both strength and initiative

National Security Affairs Conference ,1980 Facets of Security in the United Arab Emirates William Gueraiche,Kristian Alexander,2022-01-23 The United Arab Emirates UAE has elaborated its own philosophy of security Driven by emergencies and increasing risks both in the region and globally Emirati authorities have developed a sense of anticipation as well as an agility to react promptly to new threats through the ability to assess the risks in any given situation War and the avatars of conflict are a constant reality in the Middle East Transnational threats including the regional context the war in Yemen insecurity in the Levant and tensions with Iran affect the overall stability of the Peninsula and consequently that of the UAE Owing to the inclusion of the UAE in the networks of globalization non traditional security issues are not relegated to the background Issues such as COVID 19 immigration cybersecurity and human trafficking need to be addressed domestically as well as globally This volume offers a comprehensive and multifaceted examination of the traditional and non traditional security measures present in the UAE that allow the country to remain politically stable in an otherwise volatile region and aims to offer a comprehensive overview of all forms of security in the UAE West Asia and the Region Rajendra M. Abhyankar,2008 Contributed articles presented at the National Conference on West Asia and the Region Defining India s Role held at the Centre for West Asian Studies on Aug 21 22 2006 **Proceedings of the National Security Affairs Conference** ,1980 *Congressional Presentation, Security Assistance Program* , *U.S. Security Interests and Policies in Southwest Asia* United States. Congress. Senate. Committee on Foreign Relations,1980 **Understanding Muslim-West Alienation** Arshad Khan,2002 Do Muslims promote terrorism Are all Muslims eager to participate in a holy war Are Muslim distrust and in some cases hatred of America justified Are the West and Islam doomed to continue their enmity The conflict between Muslims and the West particularly America did not begin with the attacks on the World Trade Center and the Pentagon It has been brewing for centuries and is the result of many factors economic social religious military national and

personal Understanding Muslim West Alienation Building a Better Future summarizes a complex issue in easy to read sections Having lived in both the Middle East and America Arshad Khan shares a unique perspective on basic misunderstandings between Muslims and America He spreads blame equally and recommends specific actions each side must take to resolve this long standing conflict Every organization has had members whose actions tarnished the reputation and image of the group and reflected poorly on other innocent members Khan believes that the extremists who perpetrated the 9 11 attacks have hijacked Islam In Understanding Muslim West Alienation Building a Better Future he overturns many stereotypes of Muslims that have developed over the years from the actions of adherents who have not followed true Islamic teachings Learn the truth about the world s fastest growing religion and how America as well as Muslims around the world can dissolve the hatred felt by many followers of Islam towards the world s superpower

The Soft Power of Non-Western Small States Sarina Theys, 2024-09-12 This book critically engages with the concepts of small states and soft power and advances a new approach to defining small states a new conceptualisation of soft power and a method for empirically analysing the exercise of soft power It revisits the concepts of small states and soft power with a focus on Bhutan and Qatar and their approach to exercise soft power to achieve their foreign policy goals Building on two main perspectives to define small states the objective approach and the subjective perspective this book offers an intersubjective approach to define states as small The intersubjective approach requires a shared understanding between states that a certain state is small The book further highlights the importance of deconstructing the meaning of size and to separate the notion of size from the concept of power because size is not always indicative of power It argues that although small states tend to have fewer material resources than large states they nevertheless can have influence through the exercise of soft power Soft power is in this book defined as the ability of an actor to convince another actor that something is true Convincing deals with the beliefs of an actor and is a mental decision rather than a physical action This book argues that the exercise of soft power can be analysed through examining the development projection and reception of identities The findings of this book show that Bhutan was more successful than Qatar in exercising soft power and explains the reasons for this variation Aimed at a multidisciplinary audience this book will be of particular interest to practitioners scholars and students of International Relations Political Power Small States and Area Studies
