House of Commons, 1907 America Before 1787 Jon Elster, 2025-06-24 An original account drawing on both history and social science of the causes and consequences of the American Revolution With *America before 1787* Jon Elster offers the second volume of a projected trilogy that examines the emergence of constitutional politics in France and America Here he explores the increasingly uneasy relations between Britain and its American colonies and the social movements through which the thirteen colonies overcame their seemingly deep internal antagonisms Elster documents the importance of the radical uncertainty about their opponents that characterized both British and American elites and reveals the often neglected force of enthusiasm and of emotions more generally in shaping beliefs and in motivating actions He provides the first detailed examinations of divide and rule as a strategy used on both sides of the Atlantic and of the rise and fall of collective action movements among the Americans Elster also explains how the gradual undermining in America of the British imperial system took its toll on transatlantic relations and describes how state governments and the American Confederation made crucial institutional decisions that informed and constrained the making of the Constitution Drawing on a wide range of historical sources and on theories of modern social

science Elster brings together two fields of scholarship in innovative and original ways The result is a unique synthesis that yields new insights into some of the most important events in modern history *Conroy's World Sampler* Pat Conroy,1987
