Lordship And Inheritance In Early Medieval Japan A Study Of The Kamakura Soryo System:

Lordship and Inheritance in Early Medieval Japan Jeffrey P. Mass, 1989 A Stanford University Press classic

Lordship and Inheritance in Early Medieval Japan Jeffrey P. Mass, 1989 *Lordship And Inheritance in Early Medieval Japan* Jeffrey P. Mass, 1999-12-30 *Premodern Japan* Mikiso Hane, Louis G. Perez, 2018-04-17 Japanese historian Louis Perez brings Mikiso Hane's rich and beloved account of early Japanese history up to date in this thoroughly revised Second Edition of *Premodern Japan*. The text traces the key developments of Japanese history in the premodern period including the establishment of the imperial dynasty, early influences from China and Korea, the rise of the samurai class and the establishment of feudalism, the culture and society of the long Tokugawa period, the rise of Confucianism and Shinto, nationalism, and finally the end of Tokugawa rule. While the text provides many political developments through the early modern period, it also integrates the social, cultural, and intellectual aspects of Japanese history as well. Perez's updates to the text provide a comprehensive overview of the major social, political, and religious trends in premodern Japan as well as offering the most current scholarship. *Handbook to Life in Medieval and Early Modern Japan* William E. Deal, 2007 This book is an introduction to the Japanese history, culture, and society from 1185, the beginning of the Kamakura period, through the end of the Edo period in 1868. **War and State Building in Medieval Japan** John A. Ferejohn, Frances McCall Rosenbluth, 2010-04-20 The nation-state as we know it is a mere four or five hundred years old. Remarkably, a central government with vast territorial control emerged in Japan at around the same time as it did in Europe through the process of mobilizing fiscal resources and manpower for bloody wars between the 16th and 17th centuries. This book, which brings Japan's case into conversation with the history of state building in Europe, points to similar factors that were present in both places: population growth eroded clientelistic relationships between farmers and estate holders, creating conditions for intense competition over territory, and in the ensuing instability and violence, farmers were driven to make Hobbesian bargains of taxes in exchange for physical security. *Japan Emerging* Karl Friday, 2018-04-19 *Japan Emerging* provides a comprehensive survey of Japan from prehistory to the nineteenth century. Incorporating the latest scholarship and methodology, leading authorities writing specifically for this volume outline and explore the main developments in Japanese life through ancient, classical, medieval, and early modern periods. Instead of relying solely on lists of dates and prominent names, the authors focus on why and how Japanese political, social, economic, and intellectual life evolved. Each part begins with a timeline and a set of guiding questions and issues to help orient readers and enhance continuity. Engaging, thorough, and accessible, this is an essential text for all students and scholars of Japanese history. **The Ethics of War in Asian Civilizations** Torkel Brekke, 2006-03-13 This book discusses whether there are universal standards in the ideologies of warfare in the major Asian religious traditions. **The Taming of the Samurai** Eiko Ikegami, 1997-03-25 Modern Japan offers us a view of a highly developed society with its own internal logic. Eiko Ikegami makes this logic accessible to us.

through a sweeping investigation into the roots of Japanese organizational structures *Area Bibliography of Japan* Ria Koopmans-de Bruijn,1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area Japanese Civilization S. N. Eisenstadt,1996 One of the world s leading social theorists provides a monumental synthesis of Japanese history religion culture and social organization Equipped with a thorough command of the subject S N Eisenstadt focuses on the non ideological character of Japanese civilization as well as its infinite capacity to recreate community through an ongoing past

The Fox's Craft in Japanese Religion and Culture Michael Bathgate,2004-03-01 For more than a millennium the fox has been a ubiquitous figure at the margins of the Japanese collective imagination In the writings of the nobility and the motifs of popular literature the fox is known as a shapeshifter able to assume various forms in order to deceive others Focusing on recurring themes of transformation and duplicity in folklore theology and court and village practice The Fox s Craft explores the meanings and uses of shapeshifter fox imagery in Japanese history Michael Bathgate finds that the shapeshifting powers of the fox make it a surprisingly fundamental symbol in the discourse of elite and folk alike and a key component in formulations of marriage and human identity religious knowledge and the power of money The symbol of the shapeshifter fox thus provides a vantage point from which to understand the social practice of signification Japan's Name Culture Herbert E. Plutschow,1995 First in depth study in English of Japanese names their history and evolution and ontological implications

Japan in Traditional and Postmodern Perspectives Charles Wei-hsun Fu,Steven Heine,Professor of Religious Studies and Director of Asian Studies Steven Heine,1995-01-01 This book displays the uniqueness and creativity of Japan in terms of the interplay between traditional and postmodern perspectives It deals with the traditional elements in Japanese culture in the light of or in contrast to postmodernism Law in Japan Daniel H. Foote,2011-10-17 This volume explores major developments in Japanese law over the latter half of the twentieth century and looks ahead to the future Modeled on the classic work *Law in Japan The Legal Order in a Changing Society* 1963 edited by Arthur Taylor von Mehren it features the work of thirty five leading legal experts on most of the major fields of Japanese law with special attention to the increasingly important areas of environmental law health law intellectual property and insolvency The contributors adopt a variety of theoretical approaches including legal economic historical and socio legal As *Law and Japan A Turning Point* is the only volume to take inventory of the key areas of Japanese law and their development since the 1960s it will be an important reference tool and starting point for research on the Japanese legal system Topics addressed include the legal system with chapters on legal history the legal profession the judiciary the legislative and political process and legal education the individual and the state with chapters on constitutional law administrative law criminal justice environmental law and health law and the economy with chapters on corporate law contracts labor and employment law antimonopoly law intellectual

property taxation and insolvency Japanese law is in the midst of a watershed period This book captures the major trends by presenting views on important changes in the field and identifying catalysts for change in the twenty first century *The Journal of Japanese Studies* ,1989 A multidisciplinary forum for communicating new information new interpretations and recent research results concerning Japan to the English reading world **Japan Political Research** ,1990 Monumenta Nipponica ,1990 Includes section Reviews *Family, Law, and Property in Japan, 1200-1350* Jeffrey P. Mass,2000

Technology, Economic Security, State, and the Political Economy of Economic Networks Huei-Huang Wang,1998
Technology Economic Security State and the Political Economy of Economic Networks unveils the motivation behind many of the economic actions of Asian countries at a time when the struggling Asian economies draw interest from around the world Using the very different economic systems of Taiwan and Japan it traces the influence of strategic decisions to the economic insecurity in these countries Here for the first time is not only a description of the economic structure of Asian countries but also the cultural and political influences that force the types of decisions that are made in those countries and create the economic structure
