space where real and imagined narratives overlap and provide as many questions as answers about the development of the city and what it means to be an Angeleno. The author, a social and cultural historian who specializes in nineteenth and early twentieth century Los Angeles, is well suited to explore the complex history and modern day relevance of the Los Angeles Plaza. From its indigenous and colonial origins to the present day, Estrada explores the subject from an interdisciplinary and multiethnic perspective, delving into the pages of local newspapers, diaries, and letters, and the personal memories of former and present Plaza residents in order to examine the spatial and social dimensions of the Plaza over an extended period of time. The author contributes to the growing historiography of Los Angeles by providing a groundbreaking analysis of the original core of the city that covers a long span of time, space, and social relations. He examines the impact of change on the lives of ordinary people in a specific place and how this change reflects the larger story of the city.

Los Angeles in the 1930s WPA Writers' Program of the Work Projects Administration in Southern California, 2011-04-05. Previously published New York: Hastings House, 1941. Under the title *Los Angeles: a guide to the city and its environs* as part of the American guide series.

Latino Immigrants in the United States Ronald L. Mize, Grace Peña Delgado, 2012-02-06. This timely and important book introduces readers to the largest and fastest growing minority group in the United States: Latinos and their diverse conditions of departure and reception. A central theme of the book is the tension between the fact that Latino categories are most often assigned from above and how those defined as Latino seek to make sense of and enliven a shared notion of identity from below. Providing a sophisticated introduction to emerging theoretical trends and social formations specific to Latino immigrants, chapters are structured around the topics of Latinidad or the idea of a pan-ethnic Latino identity, pathways to citizenship, cultural citizenship, labor, gender, transnationalism, and globalization. Specific areas of focus include the 2006 marches of the immigrant rights movement and the rise in neoliberal nativism, including both state-sponsored restrictions such as Arizona's SB1070 and the hate crimes associated with Minutemen vigilantism. The book is a valuable contribution to immigration courses in sociology, history, ethnic studies, American Studies, and Latino Studies. It is one of the first and certainly the most accessible to fully take into account the plurality of experiences, identities, and national origins constituting the Latino category.
