Los Orígenes Del Zapatismo:

Los orígenes del zapatismo Felipe Ávila, 2019-05-24 El zapatismo ha sido uno de los movimientos sociales más importantes en la historia de México. Su líder Emiliano Zapata, uno de los personajes centrales de la Revolución mexicana, es asimismo uno de los mexicanos más reconocidos a nivel internacional. Símbolo del agrarismo, de la lucha por la tierra, la libertad y la justicia, el zapatismo fue el movimiento más radical de la Revolución. Fue decisivo para que ésta no fuera un simple cambio de gobierno, sino para que fuera una verdadera transformación: un cambio en las estructuras económicas, políticas, sociales y culturales del país. Llevó a cabo la más amplia y profunda reforma agraria en la historia nacional, en la que los pueblos y comunidades recuperaron sus tierras y las defendieron con las armas en la mano. Hizo también algunas de las propuestas políticas más radicales: el parlamentarismo, el referéndum, la revocación de mandato, una estricta moralidad de los funcionarios públicos, la primacía de la sociedad civil sobre el gobierno, la supresión del ejército permanente y su sustitución por el pueblo en armas, así como un gobierno al servicio de la gente que mandara obedeciendo. La radicalidad y la persistencia del zapatismo se explican en buena medida porque Zapata encarnaba una lucha y una resistencia centenarias de los pueblos de Morelos por defender sus tierras y exigir justicia. La historia de Zapata es la historia de su pueblo, Anenecuilco, y es también la historia de los pueblos originarios y mestizos del centro-sur del país por sobrevivir y vivir con libertad.

Los orígenes del zapatismo Felipe Arturo Ávila Espinosa, 2001 El zapatismo ha sido reconocido como uno de los movimientos sociales más importantes en la historia reciente de nuestro país. Dio lugar a una de las figuras más conocidas de la Revolución Mexicana: su líder Emiliano Zapata. Y en los territorios que estuvieron bajo su dominio, los zapatistas fueron capaces de realizar uno de los experimentos más radicales de reformas sociales que haya tenido lugar en nuestra historia: fue el único de los movimientos populares revolucionarios que llevó a cabo una reforma agraria que eliminó totalmente, al menos temporalmente, a la oligarquía terrateniente y transfirió la propiedad de la tierra, aguas y bosques a los pueblos, familias e individuos para que decidieran libremente cómo trabajarla. Al mismo tiempo, estableció un gobierno y una administración en la región bajo su control, en la cual se aplicó una práctica que buscó resolver las necesidades de los pueblos y restituirles sus libertades a través de un proceso impulsado, sancionado y vigilado por el Cuartel General zapatista, y por instancias y disposiciones que expresaban una de las primeras muestras de un Estado benefactor al servicio de la mayoría de la población. El proyecto zapatista, a pesar de haber sido derrotado, fue uno de los factores decisivos que explican el curso y el resultado de la Revolución Mexicana.

Land, Liberty, and Water Salvador Salinas, 2018-10-09 Following the death of Emiliano Zapata in 1919 the Zapatistas continued to lead the struggle for land reform. *Land Liberty and Water* offers a political and environmental history of the aftermath of the 1910 Mexican Revolution by examining the outcomes of the insurgency in the state of Morelos. Salvador Salinas takes readers inside the diverse pueblos of the former Zapatistas during the 1920s and 1930s and recounts the first statewide land reform carried out in postrevolutionary Mexico. Based on extensive archival research he reveals how an alliance with the national government that began in 1920 stimulated the revival of rural communities after ten years of warfare and helped once landless villagers reclaim Morelos's valley soils, forested mountains and abundant irrigation waters. During the presidency of Plutarco Elías Calles (1924-1928) pueblos forged closer ties to the centralized government in Mexico City through a plethora of new national institutions such as ejidos, forestry cooperatives, water juntas, credit societies and primary schools. At the same time the expansion of charcoal production in the Sierra de Ajusco and rice cultivation in the lowland valleys accelerated deforestation and intensified water conflicts. Salinas recounts how the federal reforms embraced by the countryside aided the revival of the pueblos and in return villagers repeatedly came to the defense of an embattled national regime. Salinas gives readers interested in modern Mexico the Zapatista revolution and environmental history, a deeply researched analysis of the outcomes of the nation's most famous revolutionary insurgency.

Matters of Justice Helga Baitenmann, 2020-05-01 After the fall of the Porfirio Díaz regime, pueblo representatives sent hundreds of petitions to President Francisco I. Madero demanding that the executive branch of government assume the judiciary's control over their unresolved lawsuits against landowners, local bosses and other villagers. The Madero administration tried to use existing laws to settle land conflicts but always stopped short of invading judicial authority. In contrast to the two main agrarian reform programs undertaken in revolutionary Mexico, those implemented by Emiliano Zapata and Venustiano Carranza subordinated the judiciary to the executive branch and thereby reshaped the postrevolutionary state with the support of villagers who actively sided with one branch of government over another. In *Matters of Justice* Helga Baitenmann offers the first detailed account of the Zapatista and Carrancista agrarian reform programs as they were implemented in practice at the local level and then reconfigured in response to unanticipated inter- and intravillage conflicts. Ultimately the Zapatista land reform, which sought to redistribute land throughout the country, remained an unfulfilled utopia.

In contrast Carrancista laws intended to resolve quickly an urgent problem in a time of war had lasting effects on the legal rights of millions of land beneficiaries and accidentally became the pillar of a program that redistributed about half the national territory
