Loss During Pregnancy Or In The Newborn Period:

Loss During Pregnancy Or in the Newborn Period James R. Woods, Jenifer L. Esposito Woods, 1997 This volume examines the biologic implications and psychological challenges that occur with the loss of a baby during pregnancy or in the newborn period The editors include practical clinical cases with commentaries provided by outside professional practitioners They address pregnancy loss from many angles loss at the various stages of pregnancy the medical causes of loss methods of preventing fetal death the roles of various care providers and issues of counseling and ethics The book encourages a broad definition of pregnancy loss by including such information as the feelings of loss experienced by birth parents who give children up for adoption

The Fetal and Infant Mortality Review (FIMR) Process, 2001 **Perinatal and Pediatric Bereavement in Nursing and Other Health Professions** Beth Perry Black, Patricia Moyle Wright, Rana Limbo, 2015-09-10 This is a definitive state of the art resource for professionals who provide bereavement care to families when a baby or older child dies Culling the most important new evidence from scholars and practitioners worldwide it links theoretical knowledge and clinical practice recommendations to fill a gap in the current literature The text is distinguished by its provision of different and even competing perspectives that address the complexities of the tragic human experience of perinatal and pediatric death Expert contributors from the fields of nursing and other health professions disseminate new theoretical approaches and reexamine current concepts in light of new research They discuss the theoretical underpinnings of perinatal and pediatric bereavement examine current thought on the dimensions of loss deliver evidence based clinical interventions and offer the perspective of grieving families in regard to their experiences and needs **Palliative Care for Infants, Children, and Adolescents** Brian S. Carter, Marcia Levetown, 2004-06-24 A case based clinical handbook Palliative Care for Infants Children and Adolescents combines a pragmatic approach to symptom management with a humanitarian approach emphasizing more abstract issues such as psychological support for both patient and caregiver SciTech Book News This practical guide provides professionals involved in pediatric end of life care with comprehensive information for hands on care in a single volume Home Health Care Nurse

Meeting the Needs of Parents Pregnant and Parenting After Perinatal Loss Joann O'Leary, Jane Warland, 2016-06-17 Despite research which highlights parents increased anxiety and risk of attachment issues with the pregnancy that follows a perinatal loss there is often little understanding that bereaved families may need different care in their subsequent pregnancies This book explores the lived experience of pregnancy and parenting after a perinatal loss Meeting the Needs of Parents Pregnant and Parenting After Perinatal Loss develops a helpful framework which integrates continuing bonds and attachment theories to support prenatal parenting at each stage of pregnancy Giving insight into how a parent's world view of a pregnancy may have changed following a loss readers are provided with tools to assist parents on their journey The book discusses each stage of a pregnancy as well as labor and the postpartum period before examining subjects such as multi fetal pregnancies reluctant terminations use of support groups

and the experiences of fathers and other children in the family The chapters include up to date research findings vignettes from parents reflecting on their own experiences and recommendations for practice Written for researchers students and professionals from a range of health social welfare and early years education backgrounds this text outlines what we know about supporting bereaved families encountering the challenges of a subsequent pregnancy **Maternal Newborn**
