Imagining

the Twentieth Century Charles Cameron Stewart, Peter Fritzsche, 1997 *Imagining the Twentieth Century* pairs stirring black and white photographs with thoughtful essays that profile the changes of the past century in politics and technology but also in childhood and old age in leisure and work and in the environment and the movies Evolving out of a collaboration among seventeen historians at the University of Illinois at Urbana Champaign this book explores ordinary moments political events and cultural fashions around the world often in very personal terms

The Hidden Children Jane Marks, 2015-06-17 They hid wherever they could for as long as it took the Allies to win the war Jewish children frightened alone often separated from their families For months even years they faced the constant danger of discovery fabricating new identities at a young age sacrificing their childhoods to save their lives These secret survivors have suppressed these painful memories for decades Now in *The Hidden Children* twenty three adult survivors share their moving wartime experiences some for the first time There is Rosa who hid in an impoverished one room farmhouse with three others sleeping on a clay pallet behind a stove Renee who posed as a Catholic and was kept in a convent by nuns who knew her secret and Richard who lived in a closet with his family for thirteen months Their personal stories of belief and determination give a voice at last to the forgotten Inspiring and life affirming *The Hidden Children* is an unparalleled document of witness discovery and the miracle of human courage

Asian-Cajun Fusion Carl A. Brasseaux, Donald W. Davis, 2022-03-30 Shrimp is easily America's favorite seafood but its very popularity is the wellspring of problems that threaten the shrimp industry's existence *Asian Cajun Fusion* Shrimp from the Bay to the Bayou provides insightful analysis of this paradox and a detailed thorough history of the industry in Louisiana Dried shrimp technology was part of the cultural heritage Pearl River Chinese immigrants introduced into the Americas in the mid nineteenth century As early as 1870 Chinese natives built shrimp drying operations in Louisiana's wetlands and exported the product to Asia through the port of San Francisco This trade internationalized the shrimp industry About three years before Louisiana's Chinese community began their export endeavors manufactured ice became available in New Orleans and the Dunbar family introduced patented canning technology The convergence of these ancient and modern technologies shaped the evolution of the northern Gulf Coast's shrimp industry to the present Coastal Louisiana's historic connection to the Pacific Rim endures Not only does the region continue to export dried shrimp to Asian markets domestically and internationally but since 2000 the region's large Vietnamese immigrant population has increasingly dominated Louisiana's fresh shrimp harvest Louisiana shrimp constitute the American gold standard of raw seafood excellence Yet in the second decade of the twenty first century cheap imports are forcing the nation's domestic shrimp industry to rediscover its economic roots Fresh off the boat signs and real time internet

connections with active trawlers are reestablishing the industry's ties to local consumers. Direct marketing has opened the industry to middle class customers who meet the boats at the docks. This right off the boat paradigm appears to be leading the way to reestablishment of sustainable aquatic resources. All one can eat shrimp buffets are not going to disappear but the Louisiana shrimp industry's fate will ultimately be determined by discerning consumers' palates. *They Were Just People* Bill Tammeus, Jacques Cukierkorn, 2009-09-01 Hitler's attempt to murder all of Europe's Jews almost succeeded. One reason it fell short of its nefarious goal was the work of brave non-Jews who sheltered their fellow citizens. In most countries under German control those who rescued Jews risked imprisonment and death. In Poland home to more Jews than any other country at the start of World War II and location of six German built death camps the punishment was immediate execution. This book tells the stories of Polish Holocaust survivors and their rescuers. The authors traveled extensively in the United States and Poland to interview some of the few remaining participants before their generation is gone. Tammeus and Cukierkorn unfold many stories that have never before been made public: gripping narratives of Jews who survived against all odds and courageous non-Jews who risked their own lives to provide shelter. These are harrowing accounts of survival and bravery. Maria Devinki lived for more than two years under the floors of barns. Felix Zandman sought refuge from Anna Puchalska for a night but she pledged to hide him for the whole war if necessary and eventually hid several Jews for seventeen months in a pit dug beneath her house. And when teenage brothers Zygie and Sol Allweiss hid behind hay bales in the Dudzik family's barn one day when the Germans came they were alarmed to learn the soldiers weren't there searching for Jews but to seize hay. But Zofia Dudzik successfully distracted them and she and her husband insisted the boys stay despite the danger to their own family. Through some twenty stories like these Tammeus and Cukierkorn show that even in an atmosphere of unimaginable malevolence individuals can decide to act in civilized ways. Some rescuers had antisemitic feelings but acted because they knew and liked individual Jews. In many cases the rescuers were simply helping friends or business associates. The accounts include the perspectives of men and women, city and rural residents, clergy and laypersons, even children who witnessed their parents' efforts. These stories show that assistance from non-Jews was crucial but also that Jews needed ingenuity, sometimes money and most often what some survivors called simple good luck. Sixty years later they invite each of us to ask what we might do today if we were at risk or were asked to risk our lives to save others. **Children's Exodus** Vera K. Fast, 2010-11-09 In the months leading up to the outbreak of World War Two Britain rushed to evacuate nearly 10,000 Jewish children from the Nazi occupied territories. Through the unprecedented cooperation of religious and governmental organizations the Kindertransport spared thousands of Jewish children from the terror of the Third Reich and provided them with host families in Britain. *Children's Exodus* offers an in depth look at the people and politics behind the various chains of rescue as well as the personal narratives of the children who left everything behind in the hope of finding safety. Drawing on unpublished interviews, journals and articles Vera K. Fast examines the religious and political tensions that

emerged throughout the migration and at times threatened to bring operations to a halt Children s Exodus captures the life affirming stories of child refugees with vivid detail and examines the motivations religious or otherwise of the people that orchestrated one of the greatest rescue missions of all time **The Teddy Bear That Slept Through Christmas** Bruce Johnson,2023-02-24 Can a teddy bear really change your life For Brian his life would never be the same since Teddy arrived that Christmas season in 1945 Through an elf s mistake in the toy room at Santa s workshop at the North Pole Brian would learn the real meaning of Christmas from a golden brown Model No 6 with a yellow ribbon You will see how Santa s elves work the toy line and how Santa s magic can be used to make things right Enjoy Brian s adventure with Teddy right up to the joyous ending but be sure to have a tissue ready because happy tears are guaranteed **Nordic Childhoods 1700-1960** Reidar Aasgaard,Marcia Bunge,Merethe Roos,2017-08-04 This volume strengthens interest and research in the fields of both Childhood Studies and Nordic Studies by exploring conceptions of children and childhood in the Nordic countries Denmark Finland Iceland Norway and Sweden Although some books have been written about the history of childhood in these countries few are multidisciplinary focus on this region as a whole or are available in English This volume contains essays by scholars from the fields of literature history theology religious studies intellectual history cultural studies Scandinavian studies education music and art history Contributors study the history of childhood in a wide variety of sources such as folk and fairy tales legal codes religious texts essays on education letters sermons speeches hymns paintings novels and school essays written by children themselves They also examine texts intended specifically for children including text books catechisms newspapers songbooks and children s literature By bringing together scholars from multiple disciplines who raise distinctive questions about childhood and take into account a wide range of sources the book offers a fresh and substantive contribution to the history of childhood in the Nordic countries between 1700 and 1960 The volume also helps readers trace the historical roots of the internationally recognized practices and policies regarding child welfare within the Nordic countries today and prompts readers from any country to reflect on their own conceptions of and commitments to children

Under Fire Elizabeth Goodenough,Andrea Immel,2008 An eclectic multidisciplinary collection that explores the representation of war and its aftereffects in children s books and documentary film Brings together internationally known contributors to examine the ongoing influence of violence and war on children s literature by studying the childhood experiences of authors writing for children the children represented in war stories and the experiences of children who make up the stories readership From publisher description **Blood, Sweat, and Toil** Geoffrey G. Field,2011-11-03 Blood Sweat and Toil is the first scholarly history of the British working class in the Second World War It integrates social political and labour history and reflects the most recent scholarship and debates on social class gender and the forging of identities Geoffrey Field examines the war s impact on workers in the varied contexts of the family military service the workplace local communities and the nation Extensively researched using official documents diaries and letters the records of trade unions

and numerous other institutions Blood Sweat and Toil traces the rapid growth of trade unionism joint consultation and strike actions in the war years It also analyses the mobilization of women into factories and the uniformed services and the lives of men conscripted into the army showing how these experiences shaped their aspirations and their social and political attitudes Previous studies of the Home Front have analysed the lives of civilians but they have neglected the importance of social class in defining popular experience and its centrality in public attitudes official policy and the politics of the war years Contrary to accounts that view the war as eroding class divisions and creating a new sense of social unity in Britain Field argues that the 1940s was a crucial decade in which the deeply fragmented working class of the interwar decades was remade achieving new collective status power and solidarity Employing a contingent non teleological conception of class identity and indicating the plural and shifting mix of factors that contributed to workers social consciousness he criticizes recent revisionist scholarship that has downplayed the significance of class in British society
