Theory and Practice in Mediterranean Archaeology Richard M. Leventhal, John K. Papadopoulos, 2003-12-31 Theory and Practice in Mediterranean Archaeology Old World and New World Perspectives brings together leading scholars from the Old World and the Americas to discuss some of the most pressing issues facing archaeology today These topics include archaeology and text the future of large scale archaeological fieldwork at individual sites interpretation and preservation of archaeological sites and landscapes past trajectories and new approaches to regional survey and debates surrounding landscape and settlement archaeology Essays by Old World archaeologists provide an overview of these themes as well as a history of research over the last hundred years These scholars review the major successes and shortcomings of that work identifying critical issues that determine and define the field These essays serve as a springboard for discussion and response by archaeologists working in the Americas and in other parts of the world The combination of an Old World focus with responses from New World archaeologists provides a uniquely broad assessment of contemporary archaeological theory methods and practice throughout the world

Second Witness: Analytical and Contextual Commentary on the Book of Mormon Brant A. Gardner, 2007-09-01 Stop looking for the Book of Mormon in Mesoamerica and start looking for Mesoamerica in the Book of Mormon Second Witness a new six volume series from Greg Kofford Books takes a detailed verse by verse look at the Book of Mormon It marshals the best of modern scholarship and new insights into a consistent picture of the Book of Mormon as a historical document Taking a faithful but scholarly approach to the text and reading it through the insights of linguistics anthropology and ethnohistory the commentary approaches the text from a variety of perspectives how it was created how it relates to history and culture and what religious insights it provides The commentary accepts the best modern scholarship which focuses on a particular region of Mesoamerica as the most plausible location for the Book of Mormon s setting For the first time that location its peoples cultures and historical trends are used as the backdrop for reading the text The historical background is not presented as proof but rather as an explanatory context The commentary does not forget Mormon s purpose in writing It discusses the doctrinal and theological aspects of the text and highlights the way in which Mormon created it to meet his goal of convincing the Jew and Gentile that Jesus is the Christ the Eternal God

Recovering Lost Footprints, Volume 2 Arturo Arias, 2018-12-01 Analyzes contemporary Yucatecan and Chiapanecan Maya narratives Recovering Lost Footprints Volume 2 is an in depth analysis of the sociohistorical conflict impacting Indigenous communities in Latin America Continuing the project he began in volume 1 Arturo Arias analyzes contemporary Peninsular and Chiapanecan Maya narratives He examines

the works of Yucatecan writers Jorge Cocom Pech, Javier Gómez Navarrete, Isaac Carrillo Can and Marisol Ceh Moo. For Chiapas Arias looks at the works of Tseltal novelist Diego Méndez Guzmán, Tsotsil short story writer Nicolás Huet Bautista and Tseltal narrative writer José López Gómez. Arias problematizes the nature of Western modernity and the crisis of Western models of development in the present. By way of his analysis, he suggests that we are facing a historical impasse because we have neglected native knowledges that offer alternative codes of ethics and beingness that emerge from Indigenous cosmovisions. The text skillfully contributes to and strengthens debates between US-centered and Latin American cultural studies theorists as well as the hemispheric expansion of Native American and Indigenous Studies. *Recovering Lost Footprints Volume 2* is inspired more by the past as it impinges upon a continuing, constantly expanding present. Arias's reading of Maya literatures forces us to reconsider the space-time structure of Western thinking. Indeed, this book is intriguing precisely because it views literature from an Indigenous perspective, evidencing how that social space is full of multiple contrasting experiences and historical processes. By drawing attention to the articulation between the contemporary literary production and its relationship to Mayan cosmovision in a broad sense and focusing on the different traditions preserved through diverse languages and customs, this rich, comprehensive overview offers glimpses of a very different worldview.

The Routledge History of American Sport Linda J. Borish, David K. Wiggins, Gerald R. Gems, 2016-10-04 The Routledge History of American Sport provides the first comprehensive overview of historical research in American sport from the early Colonial period to the present day. Considering sport through innovative themes and topics such as the business of sport, material culture and sport, the political uses of sport and gender and sport, this text offers an interdisciplinary analysis of American leisure. Rather than moving chronologically through American history or considering the historical origins of each sport, these topics are dealt with organically within thematic chapters, emphasizing the influence of sport on American society. The volume is divided into eight thematic sections that include detailed original essays on particular facets of each theme. Focusing on how sport has influenced the history of women, minorities, politics, the media and culture, these thematic chapters survey the major areas of debate and discussion. The volume offers a comprehensive view of the history of sport in America, pushing the field to consider new themes and approaches as well. Including a roster of contributors renowned in their fields of expertise, this ground-breaking collection is essential reading for all those interested in the history of American sport.

Lost Pyramids of Mesoamerica Rhandel Lopez, While most visitors to Mexico visit one of the great Maya cities, it is worth visiting some of the lesser-known ruins like Mayapan and Balamku. Mayapan is an ancient Maya city in the northern Yucatan Peninsula of Mexico. The site has a long history with its first occupation dating back to at least 900 BC and its last occupation dating to around 1450 AD. The word Mayapan means Hill of the Jaguar. The name refers to the shape of one of three hills that formed it; this hill was called Pa Chan, Place of the Jaguar. It was here that a jaguar deity named Chac

reigned When Chac left his post as a god of rain the rain ceased falling on earth for four years until he returned during this time people were forced to irrigate their crops by hand or die from thirst if they failed at growing corn without rainwater overflow from nearby lakes and rivers The city of Teotihuacan is one of the most important archaeological sites in Mexico It was the center of a civilization at its peak around the 1st century B C and was abandoned around 650 AD leaving behind an impressive collection of pyramids and other structures As you explore this site you will discover how these ancient people lived and what they left behind for us to admire today Tulum is a small town on the coast of the Yucat n Peninsula south of Canc n It may not be your first choice if you look for beaches and relaxation But if you want to see some fantastic architecture and walk in the footsteps of the Maya you should definitely make plans to visit Tulum The Mayans built the city between 1200 and 1450 CE Common Era as a seaport for trading with other cultures in Mesoamerica Its popularity rose with increased trade throughout Mexico during this period however it fell into disrepair after Spanish colonization began around 1519 CE when conquistador Hern n Cort s took control over what had been largely autonomous states up until then The buildings are made from limestone quarried from nearby cliffs and from sandstone blocks that were likely carried from much further away by barge or canoe along rivers and lakes since there were no roads The city of Uxmal is a magnificent example of the Puuc style with its buildings built of fine stuccoed brickwork As you explore the site you can see how closely related it is to Chich n Itz and other major Maya sites in the region The Pyramid of the Magician also known as El Castillo is a fantastic pyramid building with 4 sides each having 91 steps and each step 7 feet tall for a total height of 65 feet House of Turtles or Casa del Adivino this building has beautiful decorations both inside and out depicting turtles in different positions some say that these turtles represent wisdom or knowledge Tikal is the largest Mayan ruin in Guatemala and is a UNESCO World Heritage Site The city was the capital of the Maya kingdom of the same name and one of their most potent cities dating back to at least 200 B C if not earlier It was abandoned by the Maya around 900 A D but its temples still tower over the jungle floor today some are even taller than they were when they were first built Palenque Crown of the North is one of the most critical sites in the Maya world Palenque was once a thriving city and capital of one of Mexico s most powerful states It boasts some of the most impressive ruins on this list It was first discovered by a German explorer in 1719 while looking for a site to build his own city The main pyramid at Palenque rises over 70 meters 230 ft into the air and its steps are steep enough to pause even hardened explorers when climbing them There are also two smaller temples nearby and many smaller statues depicting jaguars these symbolize power for humans and gods alike

LOST KINGDOMS OF CENTRAL AMERICA

Norah Romney, 2021-02-12 Thousands of years ago people settled in the part of the world called Mesoamerica This region consists of southern Mexico and most of Central America as it stretches between what is now called the Gulf of Mexico and the Pacific Ocean Although many different countries now exist within this space it was the original home to just one civilisation the Olmec As time advanced other well known groups became dominant in the area These were primarily the Aztecs and the

Mayan All these early civilizations that existed from approximately 1200 BCE to 900 CE were steeped with culture tradition commerce and conflict They also offer many mysteries and enigmas to modern understanding These are the things that make people wonder about how the civilisations arose gained such power and why they disappeared Travel back in time to the first days to discover the questions that still exist in the minds of archaeologists historians and others who strive to understand the ancient mysteries of Mesoamerica

Lost Science and Technology of the Mayan Civilization

NORAH ROMNEY, The Mayan civilization is one of the most fascinating cultures of all time They flourished in Mesoamerica from around 300 BC to 900 AD and their cities were more complex than any others at the time The Maya built roads developed an accurate measurement system for distances and built enormous stone temples that served as centers of worship astronomy and astrology They also had a well developed written language which they used to record their history and communicate important messages This post will explore some of their most significant discoveries that have shaped our world today The Mayan culture flourished in the Mesoamerican region from around 300 BC The society was known for its unique and advanced knowledge of architecture astronomy calendar making and mathematics The Mayans were one of the first civilizations in the Americas to develop a written language and they had an extensive knowledge of astronomy which they used to predict eclipses Mayans lived in Mexico and Central America especially on the Yucatan Peninsula where they built sophisticated cities with pyramids and temples made of stone such as Chich n Itz or Uxmal They also built many buildings with flat roofs named patios where people would come together to worship their gods while they watched dances performed by priests dressed in colorful costumes made from jaguar skins The Maya had a well developed written language The Mayan writing system was developed before the invention of the wheel and is one of the oldest in existence It was first used to record history astronomy and astrology but later became a way for people to communicate with each other The Mayans turned out to be better mathematicians than we thought they were Their calendar could easily track lunar cycles solstices and equinoxes without error it also predicted eclipses with great accuracy

Reading the Maya Glyphs (Second Edition)

Michael D. Coe, Mark Van Stone, 2005-06-17 The breaking of the Maya code has completely changed our knowledge of this ancient civilization and has revealed the Maya people s long and vivid history Decipherment of Maya hieroglyphic writing has progressed to the point where most Maya written texts whether inscribed on monuments written in the codices or painted or incised on ceramics can now be read with confidence In this practical guide first published in 2001 Michael D Coe the noted Mayanist and Mark Van Stone an accomplished calligrapher have made the difficult often mysterious script accessible to the nonspecialist They decipher real Maya texts and the transcriptions include a picture of the glyph the pronunciation the Maya words in Roman type and the translation into English For the second edition the authors have taken the latest research and breakthroughs into account adding glyphs updating captions and reinterpreting or expanding upon earlier decipherments After an introductory discussion of Maya culture and history and the nature of the Maya script the authors introduce the
