Lost Worlds Romance From Dawn Till Dusk:

The Lost Worlds Romance Allienne R. Becker, 1992-06-17 These romances reflect the developing natural and social sciences of the times in which they were written The themes of evolution teleportation human longevity euthanasia other dimensions reincarnation uses of radium utopian and dystopian societies among many others play a prominent part Darwin Marx and Freud have influenced the authors of these romances Becker demonstrates that at a time when the sexual mores of mainstream fiction were fairly repressed writers of the Lost Worlds Romance were permitted much liberty with the erotic imagination The treatment given to women in these romances is explored *Dark Vanishings* Patrick

Brantlinger, 2014-01-15 Patrick Brantlinger here examines the commonly held nineteenth century view that all primitive or savage races around the world were doomed sooner or later to extinction Warlike propensities and presumed cannibalism were regarded as simultaneously noble and suicidal accelerants of the downfall of other races after contact with white civilization Brantlinger finds at the heart of this belief the stereotype of the self exterminating savage or the view that savagery is a sufficient explanation for the ultimate disappearance of savages from the grand theater of world history Humanitarians according to Brantlinger saw the problem in the same terms of inevitability or doom as did scientists such as Charles Darwin and Thomas Henry Huxley as well as propagandists for empire such as Charles Wentworth Dilke and James Anthony Froude Brantlinger analyzes the Irish Famine in the context of ideas and theories about primitive races in North America Australia New Zealand and elsewhere He shows that by the end of the nineteenth century especially through the influence of the eugenics movement extinction discourse was ironically applied to the great white race in various apocalyptic formulations With the rise of fascism and Nazism and with the gradual renewal of aboriginal populations in some parts of the world by the 1930s the stereotypic idea of fatal impact began to unravel as did also various more general forms of race based thinking and of social Darwinism **Electric Sheep Slouching Towards Bethlehem** Harry Eiss, 2014-03-25 On Monday 8

15 a m August 6 1945 the world changed forever In the single largest act of destruction ever initiated by humans a bomb with the equivalent force of 20 000 tons of TNT shattered Hiroshima killing tens of thousands of civilians people who had become used to the American war planes flying overhead planes that were purposely not dropping bombs on their city to the point where the rush to the bomb shelters had become lackadaisical and the normal activities continued with little interruption getting the children up and off to school opening the many small retail stores for the daily customers perhaps stopping at a local caf for morning coffee or tea perhaps joining in on the group exercise classes This is the precise instant we entered the postmodern world one where the easy truths of centuries no longer applied Speculative Fiction projects real possibilities beyond the now shattered assumptions moving through marginalized fictional landscapes science fiction fantasy horror weird fiction supernatural fiction superhero comics graphic novels and movies utopian and dystopian fiction apocalyptic and post apocalyptic fiction Cyber Punk the New Wave as well as related static motion and virtual arts including

everything from graphic novels to video games **Colonialism and the Emergence of Science Fiction** John Rieder, 2013-01-01 This groundbreaking study explores science fiction's complex relationship with colonialism and imperialism. In the first full-length study of the subject, John Rieder argues that the history and ideology of colonialism are crucial components of science fiction's displaced references to history and its engagement in ideological production. With original scholarship and theoretical sophistication, he offers new and innovative readings of both acknowledged classics and rediscovered gems. Rieder proposes that the basic texture of much science fiction, in particular its vacillation between fantasies of discovery and visions of disaster, is established by the profound ambivalence that pervades colonial accounts of the exotic other. Includes discussion of works by Edwin A. Abbott, Edward Bellamy, Edgar Rice Burroughs, John W. Campbell, George Tompkins, Chesney, Arthur Conan Doyle, H. Rider Haggard, Edmond Hamilton, W. H. Hudson, Richard Jefferies, Henry Kuttner, Alun Llewellyn, Jack London, A. Merritt, Catherine L. Moore, William Morris, Garrett P. Serviss, Mary Shelley, Olaf Stapledon, and H. G. Wells. *Longing* Tamara S. Wagner, 2004 By revealing the origins of common misunderstandings about nostalgia, this book aims, moreover, to show that it creatively fosters a personal and imaginative memory. Jacket **Spanish and Latin American Women's Crime Fiction in the New Millennium** Nancy Vosburg, 2017-11-06 Crime fiction written by women in Spain and Latin America since the late 1980s has been successful in shifting attention to crimes often overlooked by their male counterparts, such as rape and sexual battery, domestic violence, child pornography, pederasty, and incest. In the twenty-first century, social, economic, and political issues, including institutional corruption, class inequality, criminalized oppression of immigrant women, crass capitalist market forces, and mediatized political and religious bodies, have at their core a gendered dimension. The conventions of the original noir or novela negra genre have evolved such that some women authors challenge the noir formulas by foregrounding gender concerns, while others imagine new models of crime fiction that depart drastically from the old paradigms. This volume, highlighting such evolution in the crime fiction genre, will be of interest to students, teachers, and scholars of crime fiction in Latin America and Spain, to those interested in crime fiction by women, and to readers familiar with the subgenres of crime fiction, which include noir, the thriller, the police procedural, and the cozy novel. **A Companion to the Victorian Novel** Patrick Brantlinger, William Thesing, 2008-04-15 The Companion to the Victorian Novel provides contextual and critical information about the entire range of British fiction published between 1837 and 1901. Provides contextual and critical information about the entire range of British fiction published during the Victorian period. Explains issues such as Victorian religions, class structure, and Darwinism to those who are unfamiliar with them. Comprises original, accessible chapters written by renowned and emerging scholars in the field of Victorian studies. Ideal for students and researchers seeking up-to-the-minute coverage of contexts and trends, or as a starting point for a survey course. The Divine and Human Comedy of Andrew M. Greeley Allienne R. Becker, 2000-08-30 The volume approaches Greeley's novels by comparing him to the 19th-century French writer Honoré de Balzac. A prolific and popular author, Balzac recorded his milieu in

tremendous detail created a fictional universe peopled by hundreds of characters and explored the role of Catholicism in his world Because of his training as a sociologist Greeley brings to his novels a thorough knowledge of popular culture and social theory And because of his experience as a Roman Catholic priest he has gained special knowledge of vice virtue and the workings of the Church Like Balzac now a major canonical author Greeley has created a world of numerous fictional persons mapped the details of his culture and explored the place of Catholicism in contemporary life **Reinterpreting**

Exploration Dane Keith Kennedy,2014 Exploration was a central and perhaps defining aspect of the West s encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration s instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration s contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples responses upon first contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides a fresh and accessible introduction to the ongoing reinterpretation of exploration s role in the making of the modern world

Hollywood and Africa Opio Dokotum,2020-02-05 Hollywood and Africa recycling the Dark Continent myth from 19082020 is a study of over a century of stereotypical Hollywood film productions about Africa It argues that the myth of the Dark Continent continues to influence Western cultural productions about Africa as a cognitive based system of knowledge especially in history literature and film Hollywood and Africa identifies the colonial mastertext of the Dark Continent mythos by providing a historiographic genealogy and context for the terms development and consolidation An array of literary and paraliterary film adaptation theories are employed to analyse the deep genetic strands of HollywoodAfrica film adaptations The mutations of the Dark Continent mythos across time and space are then tracked through the classical neoclassical and new wave HollywoodAfrica phases in order to illustrate how Hollywood productions about Africa recycle revise reframe reinforce transpose interrogate and even critique these tropes of Darkest Africa while sustaining the colonial mastertext and rising cyberactivism against Hollywoods whitewashing of African history **U.S. Democracy in Danger** Adebowale

Akande,2023-10-19 Historically Donald Trump will be remembered as the first American president to be impeached twice and indicted He fed the grotesque myth that the election was stolen and summoned his supporters to storm Congress on 6 January 2021 in a bid to thwart the certification of Joe Biden s U S presidential election victory This volume vividly recounts the dramatic narrative of the January 6 Coup in America and how close we came to losing U S democracy For anyone seeking a comprehensive and multidisciplinary global overview of democracy an astute analysis of the forces that drive the

dominance of the neo liberal paradigm of the last decades should look no further than this volume Yet the volume takes the issue further by vigorously documenting the decline of the U S treaty process America s dysfunctional diplomacy and the doctrine of unpredictability There is an urgent need for a massive infusion of strategic support for democracy in the United States Because come 2024 or thereafter an unfinished work might drag American democracy to a dangerous inflection point Trump who has a complete hold on the Republican party still has a stranglehold on the MAGA base no matter what he does was instrumental to the breaking of U S diplomacy Undermining the democratic legitimacy of International Law adversely affected U S foreign policy Some federal and lower courts in the judiciary of the United States pose a real threat to Americans democracy as well To that end when the principle of truth loses its relevance and meaning as benchmarks for appraisals and decisions and becomes a harmful tool for willful propaganda Everybody should be worried about U S democracy A real crisis is coming U S Democracy is at a breaking point Like a giant modern mirror standing behind democracy itself this book is a citizen s guide to saving U S Democracy Expertly drawn on global and regional examples and current literature the volume closes a gap in the multidisciplinary field Quite useful as a valuable resource as it helps us understand the shifting Trump agenda in diverse areas Essential reference across a range of subjects bringing together contributions from scholars and policymakers alike This extraordinarily well researched and practically crafted culture inclusive text could not be more relevant or timelier It is a must for everyone This volume will help to shape the political landscape of the 21st century and will remain a vital source of inspiration for modern day scholars and political activists

Anticipations David Seed,1995-05-01 The essays in this book focus particularly on how early SF engages with such contemporary issues as exploration the development of science and social planning Although written by academics this book is cast in an accessible style avoiding the use of theoretical jargon

Subterranean Worlds Peter Fitting,2004-12-15 Exploring the hollow earth from the 17th century to the present The bizarre idea that the earth s interior is hollow and perhaps even populated has been put to effective literary use by writers ranging from Edgar Allen Poe and Jules Verne to Rudy Rucker and Edgar Rice Burroughs This notion had respectability as a scientific hypothesis until the early 1800s and the theory that the earth is hollow and inhabitable within continues to find believers as an alternative description of the earth to this day The hollow earth is one of the most important settings in the literature of the imagination that fed into early science fiction Subterranean Worlds presents a fascinating look at the theme of the hollow earth and its history as well as the geological theories which produced many of these stories It excerpts key passages from the major subterranean world fictions some translated into English for the first time With helpful introductions to each selection and a comprehensive bibliography this book is the definitive treatment of this entertaining topic

Forthcoming Books Rose Army,1993

Vintage Visions Arthur B. Evans,2014-06-11 *Vintage Visions* is a seminal collection of scholarly essays on early works of science fiction and its antecedents From Cyrano de Bergerac in 1657 to Olaf Stapledon in 1937 this anthology focuses on an

unusually broad range of authors and works in the genre as it emerged across the globe including the United States Russia Europe and Latin America The book includes material that will be of interest to both scholars and fans including an extensive bibliography of criticism on early science fiction the first of its kind and a chronological listing of 150 key early works Before Dr Strangelove future war fiction was hugely popular in nineteenth century Great Britain Before Terminator a French author depicted Thomas Edison as the creator of the perfect female android These works and others are featured in this critical anthology Contributors include Paul K Alkon Andrea Bell Josh Bernatchez I F Clarke William J Fanning Jr William B Fischer Allison de Fren Susan Gubar Rachel Haywood Ferreira Kamila Kinyon Stanislaw Lem Patrick A McCarthy Sylvie Romanowski Nicholas Ruddick and Gary Westfahl Hardcover is un jacketed
