Magic, Supernaturalism, and Religion Kurt Seligmann, 1968 **Magic, Supernaturalism and Religion** Kurt Seligmann (Maler, Zeichner, Schweiz), 1973 **Religion as Magical Ideology** Konrad Talmont-Kaminski, 2014-10-20

Religion as Magical Ideology examines the relationship between rationality and supernatural beliefs arguing that such beliefs are products of evolution cognition and culture The book does not offer a false rapprochement between reason and religion instead it explores their interrelationship as a series of complex adaptations between cognitive and cultural processes Exploring the nature of the tension between religious traditions and reason Religion as Magical Ideology develops a dual inheritance theory of religion which combines the cognitive byproduct and prosocial adaptation accounts and analyses the connection between the function of a belief and the degree of protection it gets from potential counter evidence With discussion ranging from individual cognitive mechanisms general functional considerations to the limits of evolutionary and cognitive processes the book offers readers a systematic account of how cognition shapes religious beliefs and practices

Blasdale,Greg Bahnsen,2019-03-22 Witchcraft occultism paranormal science and mysticism are growing like plagues in the Western world These phenomena have baffled modern educators and conventional rationalists since such activities seem to be completely opposed to everything that the public schools have taught for over a hundred years Worst of all in the minds of conventional

secularists all this discussion of demonic forces may lead to an even more appalling conclusion the idea that God also a supernatural force may reappear in the modern post Christian world At all costs a God who can make himself felt in time and on earth must be avoided Mysticism is one thing totally internalized but supernatural forces are not supposed to have any impact on external so called phenomenal affairs Occultism is another form of humanism It is the product of the quest for power apart from God and His law order It was not a major force in the so called Dark Ages Not until the fifteenth century did witchcraft become a serious problem in Europe and it was the Renaissance not medievalism which sparked the great explosion of demonism and magic in the sixteenth century During the period of the early Middle Ages A D 500 1000 there were practically no signs of witchcraft in Europe Only with the revival of ancient Gnosticism and the invasion of Middle Eastern dualism did signs of widespread witchcraft reappear Occultism and humanism are not sworn enemies they are first cousins It was only the influence of Christian principles which laid such stress on the orderliness of God s universe that made possible the confidence of modern rationalists in denying the influence of supernatural forces As the confidence in creation law has waned in this century rational humanism has become increasingly unsuccessful in retarding the expansion of occult humanism This Journal of Christian Reconstruction offers readers the necessary evidence for a refutation of the familiar charge that occultism and religion necessarily go together and that only a hard headed rationalism can restrain the forces of spiritual anarchy Far from retarding occultism modern rationalism s blindness to the reality of occult forces is now creating a perverse inquisitiveness on the part of modernism s children who have learned to be critical of everything including old fashioned rationalism The philosophy of the open universe closed to God has produced the new occult experimentalism If anything except Christian orthodoxy might be true why not find out through personal observation and experiment Since 1965 the Western world has faced the greatest explosion of occultism that it has seen in three hundred years This time no one can blame orthodox Christianity it has been the secularists who have wielded the power

Capitalism Magic Thailand Peter A Jackson,2021-12-13 By studying intersections among new cults of wealth ritually empowered amulets and professional spirit mediumship which have emerged together in Thailand s dynamic religious field in recent decades Capitalism Magic Thailand explores the conditions under which global modernity produces new varieties of enchantment Bruno Latour s account of modernity as a condition fractured between rationalizing ideology and hybridizing practice is expanded to explain the apparent paradox of new forms of magical ritual emerging alongside religious fundamentalism across a wide range of Asian societies In Thailand novel and increasingly popular varieties of ritual now form a symbolic complex in which originally distinct cults centred on Indian deities Chinese gods and Thai religious and royal figures have merged in commercial spaces and media sites to sacralize the market and wealth production Emerging within popular culture this complex of cults of wealth amulets and spirit mediumship is

supported by all levels of Thai society including those at the acme of economic and political power New theoretical frameworks are presented in analyses that challenge the view that magic is a residue of premodernity placing the dramatic transformations of cultic ritual centre stage in modern Thai history It is concluded that modern enchantment arises at the confluence of three processes neoliberal capitalism s production of occult economies the auraticizing effects of technologies of mass mediatization and the performative force of ritual in religious fields where practice takes precedence over doctrine
