Mental Hospitals at Work Kathleen Jones, Roy Sidebotham, 2013-07-04 First published in 1998 This is Volume IV of seven in the Sociology of Mental Health series Written in 1962 this study looks at of what mental hospitals actually do what problems they face how they use their resources and how their efficiency can be assessed We begin in Part I by briefly describing the provision of mental hospitals in England and Wales and analysing current trends in hospital and community care together with the arguments for and against the retention of the mental hospital Work and Occupation in French and English Mental Hospitals, c.1918-1939 Jane Freebody, 2023-01-01 This open access book demonstrates that while occupation has been used to treat the mentally disordered since the early nineteenth century approaches to its use have varied across different countries and in different time periods Comparing how occupation was used in French and English mental institutions between 1918 and 1939 one hundred years after the heyday of moral therapy the book is an essential read for those researching the history of mental health and medicine more generally It provides an overview of the legislation management structures and financial conditions that affected mental institutions in France and England and contributed to their differing responses to the new theories of occupational therapy emerging from the USA and Germany during the interwar period **State and County Mental Hospitals, United States, 1973-74** Michael J. Witkin, 1976 *State Mental Hospitals* Paul Ahmed, 2012-12-06 The 1970s constitute the decade of decisions about state mental hospitals These large monolithic and seemingly impervious institutions are being phased out in some states and their basic purpose for existence is being seriously questioned in almost all others Since 1970 hospitals have closed in California Illinois Kentucky Massachusetts Minnesota New York Oklahoma Washington and Wisconsin Similar closings have occurred in several provinces of Canada in Great Britain and in some European countries The purpose of the book is to examine the multiple issues growing out of the hospital closings Why are the state hospitals being closed What is the impact of closings on patients hospital staff and the communities where the hospitals are located What has been the impact on the communities receiving these patients What are the trends for the future in terms of numbers of closings and types of hospitals which will remain Is there a role for the state hospital in the care of the mentally ill or is it an obsolete institution The impetus for the closings is diverse The discovery and wide spread use of the tranquilizing drugs in the early 1950s allowed more patients to be returned to the community under medication **Psychiatric Social Work in Great Britain (1939-1962)** Noel Timms, 2013-07-04 This is Volume V of seven in a collection on the Sociology of Mental Health Originally published in 1964 the object of this book is to study a particular group of social workers those trained as psychiatric social workers It was begun in the belief that their work should not be left to the imagination and that an accurate factual picture of their training practice professional activities research and writing would inform and clarify It has been designed to answer certain questions who are psychiatric social workers What do they do Are they half baked or adequately trained How has psychiatric social work
