

The background is an abstract, textured composition. It features a central bright yellow and orange light source, possibly a sun or a fire, which radiates outwards. The colors are predominantly red, green, and yellow, with some darker, almost black, areas. The texture is grainy and painterly, suggesting a digital or hand-painted style. The overall effect is one of intense energy and movement.

Anarchism in Local Governance Stephen Condit,2019-06-28 Through accounts of his experience as a local politician and elected once holder Stephen Condit examines in *Anarchism in Local Governance* how his anarchist convictions may have contributed to the administration of his community in a way that empowers citizens towards self governance and prefiguration of communal anarchist ideals The hypothesis is that municipal governance and anarchist thought and praxis can both benefit by this kind of encounter Condit also investigates the emergence of anarchism through citizen participation in civil society as a reality to which the municipality is accountable *Democratic Theory and Technological Society* Richard

Lacan contends that the most pressing political problem we face today is the proliferation and intensification of power. Saul Newman targets the tendency of radical political theories and movements to reaffirm power and authority in different guises in their very attempt to overcome it. In his examination of thinkers such as Bakunin, Lacan, Stirner, and Foucault, Newman explores important epistemological, ontological, and political questions: Is the essential human subject the point of departure from which power and authority can be opposed? Or is the humanist subject itself a site of domination that must be unmasked? As it deftly charts this debate's paths of emergence in political thought, the book illustrates how the question of essential identities defines and redefines the limits and possibilities of radical politics today.

Three Plays of Maureen Hunter
Hunter, Maureen, 2003. Book is clean and tight. No writing in text. Like New.

The State of State Theory Davita Silfen Glasberg, Abbey S. Willis, Deric Shannon, 2017-12-21. In *The State of State Theory*, State Projects, Repression, and Multi Sites of Power, Glasberg, Willis, and Shannon argue that state theories should be amended to account both for theoretical developments broadly in the contemporary period as well as the multiple sites of power along which the state governs. Using state projects and policies around political economy, sexuality, and family food welfare policy, racial formation, and social movements as narrative accounts in how the state operates, the authors argue for a complex and intersectional approach to state theory. In doing so, they expand outside of the canon to engage with perspectives within critical race theory, queer theory, and beyond to build theoretical tools for a contemporary and critical state theory capable of providing the foundations for understanding how the state governs, what is at stake in its governance, and importantly, how people resist and engage with state power.
