Conversations with a Suffering Servant David Wyn Williams,2020-11-26 David Wyn Williams presents a literary reimagining of the Suffering Servant of Second Isaiah through the lens of the work of Mikhail Bakhtin offering insight into how the servant s prophetic characterisation dismantled an exiled nation s ideologies of suffering and called the people to understand their plight as part of a redemptive story on behalf of the nations While Williams devotes the first half of this volume to a close examination of the scriptural servant the second half is given wholly to the experiences and thoughts of a contemporary suffering servant whom Williams interviewed throughout his final days setting up a dialogue between the two in order to raise important

questions around our corporate and individual responses to suffering This book is a timely reflection on how an ancient people responded in faith to a national calamity and how a prophetic figure who features in but a handful of poems inspired the nation to endure and rewrite its own narrative of suffering The servant s example in the midst of today s uncertainties could not be more poignant *Life Is Nothing But Time (English)* Dr. Sahadeva Das,2018-01-01 Time is the stuff life is made of Time equals life and wasting your time is wasting your life if you spend one hour on someone or something you are giving away a piece of your life to that someone or something Therefore you have to be careful to whom or where you away your life if you are careful with time time slips away like sand in your fist Letting time slip away is letting life slip away Like time and tide life too waits for none Life is Precious therefore time is precious **The Value of Thinking** Rudolf Steiner,2023-05-15 As soon as you start thinking about the living sphere you have to make the thought itself mobile The thought must begin to gain inner mobility through your own power Rudolf Steiner Rudolf Steiner divides these absorbing previously untranslated lectures into three sections opening with The Value of Thinking Here he discusses the quality of thinking itself contrasting dead physical cognition living imaginative cognition inspired cognition and the latter s connection with previous periods of human and planetary development He clarifies how visionary clairvoyance can relate to individual intelligence and also speaks of the submergence of ideas the effects of sad or joyful experiences and feelings into the unconscious These can be life promoting or life inhibiting In the second section he speaks about The Relationship between Spiritual Science and Natural Science using a contemporary publication as a case study for how texts can be fruitfully analysed He characterizes the spiritual scientific method as allowing facts or personalities to speak for themselves rather than making personal judgements Finally he deliberates on Episodic Observations about Space Time Movement kinetic formula and concepts such as the speed of light introducing directly from his spiritual observations notions such as light ether The lectures are supplemented with an introduction comprehensive notes line drawings and an index Trans Intro by C von Arnim Eleven lectures Dornach Aug Oct 1915 GA 164
