Alfred Hitchcock and Film Noir Homer B. Pettey, R. Barton Palmer, 2024-11-30 Alfred Hitchcock was a major figure in the development and flourishing of film noir His noir films became an inspirational foundation of the neo noir movement beginning in the 1970s from Brian de Palma's mash up homages to Hitchcock originals such as *Obsession* 1976 and *Body Double* 1984 to the dark political thrillers of the era that explore the underside of American life all of which owe a substantial debt to Hitchcock However the central role of Hitchcock in the long history of film noir has seldom been acknowledged in work devoted to his career and noir criticism more generally Instead there has been a tendency to consider Hitchcock's many dark thrillers and crime melodramas as sui generis that is as e Hitchcock filmse that are somehow separate and distinct from industry trends But this is to take a narrow view of the director's accomplishments that underestimates his substantial contributions to film history Alfred Hitchcock and Film Noir will be the first book length treatment of the impressive corpus of Hitchcock noir films considered as such as well as of his connection more generally to the emergence and flourishing of this important cinematic trend *Hitchcock's Magic* Neil Badmington, 2011-04-15 Why are we drawn to the work of Alfred Hitchcock so long after his final film appeared What is the source of Hitchcock's magic This book answers these questions by focussing upon the fabric of the films themselves upon the way in which they enlist and sustain our desire holding our attention by constantly withholding something from us Memory and the Gothic Aesthetic in Film Joana Jacob

Ramalho, 2024-11-29 This open access book defines the cinematic Gothic as an aesthetics of memory and exile Guided by three intersecting concepts memory travelling and touch it suggests that the cross border movements of exiles migrants and professional travellers had a crucial impact on the emergence development and dissemination of the Gothic This approach expands the canon to overlooked films filmmakers and national traditions Drawing on film memory and gothic studies the book urges the reader to think across other disciplines including phenomenology neurology cognitive neuroscience and disability studies From hands to pianos accordions gloves amnesia and wounded bodies the volume proposes a reappraisal of the Gothic by redrawing its scope retracing its origins and refocusing attention on surfaces as sites of socio political meaning
