**The Mystery of the Stolen Bicycle** Stephen T. Gilbert, 2019-10-02 There was always a mystique about bicycle ownership when I was a kid Part of it was the play that we did on bikes but another piece was the freedom that a bicycle conferred Suddenly the baseball field eight blocks from home wasn't too far away The same could be said for the market the tennis courts and even the skateboard park over two miles from the house But not all was fun From the time that I was in the third grade it was expected that I would ride the mile to school nearly every day Having a bicycle meant employment too No longer was I limited to pushing my dad's lawn mower around the neighborhood looking to cut grass I began delivering newspapers when I was in the sixth grade Unfortunately a good bicycle is automatically a target for thieves My bike was stolen when I was about twelve years old I'd ridden with some friends to the neighborhood market probably to buy candy When we came out my bike was gone and I was shattered I reported it to the police and surprisingly they found it several days later in the creek that wound through town It was muddy and pretty well banged up and never really rode the same again but I learned from that Always lock up the bike and never ride anything showy Though I owned several more bikes as a kid none was stolen I attributed that to a good lock and an ugly bike that I generally built myself from scavenged parts Most ran very well and one could have been used for racing competition but each looked like it was about to fall apart Sam Watkins is a sixth grade detective complete with

business cards and attitude He and his two friends Tomas and Pauli are in the business of solving mysteries The loss of a bicycle or in my previous book a baseball bat is mostly annoying to an adult To a child in elementary school it s life changing They ve lost something cherished Baseball is less fun without your own bat Mobility all of a sudden shrinks without a bike Even more important than that is their loss of trust in their fellow students Sam s job is to identify and track down the thieves and return the stolen goods to their rightful owners In the *Mystery of the Missing Bicycle* Sam is hired by Bobby Matthews to find his bicycle He d come to school in the morning and parked his bike in the bike cage When he went out to go home that afternoon the bike was gone Fortunately Sam heard about the incident and volunteered to help      **101 Great,**
