 Gallagher, Cathy Lubelska, Louise Ryan, 2014-06-11 Feminist history continues to change the way history is written and in
 doing so changes our view of the past The authors of this collection explore how issues of sexuality class nationalism and
 colonialism informed the ways in which women were represented and continue to be represented in history They show the
 ways in which women have been excluded silenced and misrepresented in stories of the past and how women's lives have
 been distorted or simplified in conventional historical accounts Together they suggest fresh ways of approaching women's
 history and use examples of work in new areas of research such as women's health and leisure in order to demonstrate the
 effectiveness of the various methodologies being proposed **Spies in Arabia** Priya Satia, 2008 In this groundbreaking book

British Popular Culture Mara Arts, 2022-03-04 This book explores the representation of London's nightlife in popular films
 and newspapers of the interwar period Through a series of case studies it analyses how British popular media in the 1920s
 and 1930s displayed the capital after dark It argues that newspapers and films were part of a common culture which
 capitalized on the transgressive possibilities of the night At the same time both media ensured that those in authority such as
 the police were always shown to ultimately be in control of the night The first chapter of the book provides an overview of the
 British film and newspaper industries in the interwar period Subsequent chapters each explore a specific aspect of London's
 nightlife In turn these chapters consider how films and newspapers of the interwar period depicted women navigating the
 street at night the Metropolitan Police's involvement in nightlife and the capital's newly built and expanded suburbs and
 public transport network Finally the book considers how newspapers and films depicted themselves and one another

The Cambridge History of Twentieth-Century English Literature Laura Marcus, Peter Nicholls, 2004 Publisher Description *Nights Out* Judith Walkowitz, 2012-05-15 London's Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its fin de siècle buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters Indulgences for the privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London's urban transformation Judith Walkowitz shows how the area's foreignness liminality and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity

Critical Theory and Political Engagement C. Pawling, 2013-06-25 In this timely study Pawling argues for a renewal of the politics of intellectual life calling for an engaged critical theory written in the spirit of May 1968 as exemplified in the works of figures such as Sartre Derrida Badiou Jameson and Said

D. H. Lawrence and Ambivalence in the Age of Modernity Gaku Iwai, 2024-05-01 D H Lawrence is renowned for his scathing criticism of the ruling class industrialisation of the country and wartime patriotism However his texts bear the imprint of contemporary dominant ideologies and discourses of the period Comparing Lawrence's texts to various major and minor contemporary novels journal articles political pamphlets and history books this book aims to demonstrate that Lawrence's texts are ambivalent his texts harbour the dynamism of conflicting power struggles between the subversive and the reactionary For example in some apparently apolitical texts such as *The White Peacock* and *Movements in European History* reactionary ideologies and wartime propaganda are embedded Some texts like *Lady Chatterley's Lover* are intended to be a radical critique of the period wherein it was composed but they also bear discernible traces of the contemporary frame of reference that they intend to subvert Focusing on Lawrence's stories and novels set in the mining countryside and the works composed under the impact of the First World War this book establishes that Lawrence's texts in fact consist of multiple layers that are often in conflict with each other serving as a testimony to the age of modernity

Heredity and Infection Jean-Paul Gaudillière, Ilana Löwy, 2012-11-12 Ideas about the transmission of disease have long formed the core of modern biology and medicine *Heredity and Infection* examines their development over the last century Two scientific revolutions the bacteriological revolution of the 1890s and the genetic revolution at the start of the twentieth century acted as the catalysts of major change in our understanding of the causes of illness As well as being great scientific achievements these were social and political watersheds that reconfigured the medical and administrative means of intervention By establishing a clear distinction between transmission by infection and genetic transmission this shift was

instrumental in separating hygiene from eugenism The authors argue that the popular perception of such a sharp divide stabilized only after 1945 when the use of antibiotics to end epidemics became commonplace For health professionals the separation has never become an absolute one and the book examines the various blends of heredity and infection that have preoccupied biology medicine and the social sciences Heredity and Infection reconstructs the changing epidemiology of such historically important pathologies as tuberculosis cancer and AIDS In doing so it demonstrates the role of experimental models medical practices and cultural images in the making of contemporary biochemical knowledge
