Narrating Nationalisms Ideology And Form In Asian American Literature:

Narrating Nationalisms Jinqi Ling,1998 In *Narrating Nationalisms* Jinqi Ling brings fresh perspectives to ongoing debates over the nature of Asian American literary production from the 1950s through 1980 He offers provocative interpretations of five formative texts demonstrating how these works contribute to the ongoing dialogue around progressive multicultural projects Ling s nuanced analysis richly complicates our understanding of these Asian American classics and provides a sound critical basis for evaluating subsequent Asian American literary writings *Narrating Nationalisms* synthesizes the literary discourse and critical debates within the field in a crucial period of post World War II Asian American literary history and specifies the components of Asian American cultural nationalism in ways that have not yet been attempted This book will be compelling reading for those working in American literature critical theory cultural history and ethnic studies

Narrating Nationalisms Jinqi Ling,2023 Ling s book rereads five works by John Okada Louis Chu Frank Chin and Maxine Hong Kingston in order to reconceptualize the relationship between the past and present of post World War II Asian American literary history

Amy Tan Bella Adams,2005-07-22 This is the most comprehensive study to date of Amy Tan s work offering close readings of her texts in the context of broader debates about the representation of identity history and reality In contrast with Tan s own American born narrator and mainstream critics Bella Adams looks beyond the stereotypes which appear in Tan s books and explores the ways in which Chinese immigrants and their American relatives struggle to understand each other s best qualities via the Chinese tradition of the talk story She emphasizes Tan s American narrators process of becoming Chinese and discovering real China and the significance of the ironic staging of these moments

Asian American Literature Jinqi Ling,2022-10-20 This book introduces Asian American literary studies by engaging the conditions contingencies and immediate and long term effects of its major debates Two rationales inform Ling s presentation of the field in this way first is a felt need to provide recognizable contours and trajectories for the evolution of Asian American criticism as an ethnic specific minoritarian formation in the United States second is an imperative to historicize its practices including polemics controversies and ideological ruptures as an ongoing negotiation undertaken by Asian American critics for a more self conscious and more adequate representation of the field s interests These rationales are fully contextualized in the book s Introduction and Conclusion The main body of this study is organized non chronologically into 8 chapters with each designed to reflect how the field has been energized by its demographic transformation its growing intellectual heterogeneity its defining moments and its cross cutting relationship with the trends in other disciplines What has emerged and been given prominence to in the surveys and discussions of this book then constitute the essential criticism of Asian American literary studies a discourse almost 5 decades in the making when examined retrospectively

Eating Identities Wenying Xu, 2018-03-31 The French epicure and gastronome Brillat-Savarin declared Tell me what you eat and I will tell you who you are Wenying Xu infuses this notion with cultural political energy by extending it to an ethnic group known for its cuisines Asian Americans She begins with the general argument that eating is a means of becoming not simply in the sense of nourishment but more importantly of what we choose to eat what we can afford to eat what we secretly crave but are ashamed to eat in front of others and how we eat Food as the most significant medium of traffic between the inside and outside of our bodies organizes signifies and legitimates our sense of self and distinguishes us from others who practice different foodways Narrowing her scope Xu reveals how cooking eating and food fashion Asian American identities in terms of race ethnicity gender class diaspora and sexuality She provides lucid and informed interpretations of seven Asian American writers John Okada Joy Kogawa Frank Chin Li Young Lee David Wong Louie Mei Ng and Monique Truong and places these identity issues in the fascinating spaces of food hunger consumption appetite desire and orality Asian American literature abounds in culinary metaphors and references but few scholars have made sense of them in a meaningful way Most literary critics perceive

alimentary references as narrative strategies or part of the background Xu takes food as the central site of cultural and political struggles waged in the seemingly private domain of desire in the lives of Asian Americans *Eating Identities* is the first book to link food to a wide range of Asian American concerns such as race and sexuality Unlike most sociological studies which center on empirical analyses of the relationship between food and society it focuses on how food practices influence psychological and ontological formations and thus contributes significantly to the growing field of food studies For students of literature this tantalizing work offers an illuminating lesson on how to read the multivalent meanings of food and eating in literary texts
