News On Aliens:

Hostile Aliens, Hollywood and Today's News Melvin E. Matthews, 2007 1950s Cold War era monsters meet 21st century terrorists Matthews provides a thoughtful interpretation of sci fi movies that examines the similarities and differences between the political environment and popular culture of two eras This well researched examination and appreciation of science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The book will tantalize not only fans of the science fiction genre but also sociologists film historians and politicians The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy The alien invaders of the 1950s signified a Russian invasion of America while other films of the genre such as *Invaders from Mars* depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Then the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film *Eight Legged Freaks* Finally several 1950s films depicted the end of the world at a time when Americans expected a nuclear war with Russia *Godzilla* the only 1950s era monster to remain a movie star beyond that era can be fashioned to reflect whatever issues dominate the times nuclear war in the 1950s environmental pollution in the 1970s Conceivably a *Godzilla* for the age of terrorism is soon to be released The immediate pre September 11th era witnessed films presenting galactic threats to mankind's existence *Independence Day* *Armageddon* *Deep Impact* while the early 2000s witnessed the popularity of the *Left Behind* Christian films dramatizing the Tribulation period in the Book of Revelation It seems that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues Melvin E Matthews Jr is a freelance writer and a horror movie aficionado who has been studying the genre for thirty years In this work he shares his personal correspondence with film and television star Beverly Garland and brings together a wealth of detail about the fun and the challenges of the costumes stunts and special effects as well as the actors and producers thoughts on the meaning behind the stories

Breaking News: Alien Alert David Biedrzycki, 2018-04-03 Bears in space The bears from *Breaking News Bear Alert* and *Bears to the Rescue* are back and this time they're extraterrestrial When a UFO beams up Baby Bear and abducts the family the human world goes crazy Hilarity and chaos ensue as scouts scientists street vendors and the mayor try to put their own spin on the story Intrepid but bumbling reporter Chad Newsworthy covers it all searching for the truth Why did aliens snatch up these animals Hint It's someone special's birthday

Environment and Labor in the Caribbean Joseph Lisowski,2021-10-20 The Caribbean Perspectives series began as a response to the need for scholarly investigations into social scientific and economic conditions affecting the least understood or written about part of the Americas In this second volume the authors have included explorations of aspects of management and climate as well as social literary and educational concerns in the eastern Caribbean along with an extended study of the labor situation in the U S Virgin Islands The opening chapter on resource management training in the Caribbean underscores the need for cooperation among eastern Caribbean universities and provides a practical model for implementation This is followed by a significant study of rainfall patterns that could influence economic and cultural planning in the Virgin Islands School environment is assessed in the next chapter and educators will see how the quality of social support and interactions function in organizational contexts especially as they relate to teacher morale How fact becomes fiction is chronicled in a chapter dealing with Samuel Selvon s autobiographical novel A Brighter Sun The media clearly had a serious problem separating fact from fiction in their reporting of the aftermath of Hurricane Hugo in St Croix The next chapter investigates the causes of looting following that storm and lays to rest some widespread misconceptions The final chapters focus on the labor movements in the Virgin Islands both from historical and sociological points of view These

chapters not only help explain certain tendencies in the Caribbean work force but also outline social implications for the future. Some of these findings are bound to be controversial such as the author's contention that the legacy of slavery is still being felt. This volume of Caribbean Perspectives offers both factual accounts and challenging insights into the diversity of Caribbean life and culture. The ideas and data found here will reverberate and suggest a host of analogous circumstances elsewhere. This volume and the series as such will interest students of the Caribbean, Latin America and social development in the Third World.
