Reading Our Lives William L. Randall, Elizabeth McKim, 2008-06-03 Drawing on research in numerous disciplines affected by the so called narrative turn including cognitive psychology neuroscience and the psychology of aging authors Randall and McKim articulate a vision of aging that promises to accommodate such time honored concepts as wisdom and spirituality one that understands aging as a matter not merely of getting old but of consciously growing old At its center is the conviction that although we are constantly reading our lives to some degree anyway doing so in a mindful manner is critical to our development in the second half of life **A Poetic Language of Ageing** Olga V. Lehmann, Oddgeir Synnes, 2023-05-18 Exploring the potential of poetry and poetic language as a means of conveying perspectives on later life this book examines questions such as how can we understand ageing and later life and how can we capture the ambiguities and complexities that the experiences of growing old in time and place entail As poetic language illuminates transfigures and enchants our being in the world it also offers insights into the existential questions that are amplified as we age including the vulnerabilities and losses that humble us and connect us This volume suggests a path towards the poetics of ageing by means of presenting analyses of published poetry on ageing ranging from William Shakespeare to George Oppen the use of reading and writing poetry among lay people in old age including persons living with dementia and the poetic nuances that emerge from other literary practices and contexts in relation to ageing counting personal poetic reflections from many of the contributing

authors *Rereading Childhood Books* Alison Waller, 2019-02-07 2019 CHOICE Outstanding Academic Title and shortlisted for the ESSE book awards 2020 for Literatures in the English Language Childhood books play a special role in reading histories providing touchstones for our future tastes and giving shape to our ongoing identities Bringing the latest work in Memory Studies to bear on writers memoirs autobiographical accounts of reading and interviews with readers *Rereading Childhood Books* explores how adults remember revisit and sometimes forget these significant books Asking what it means to return to familiar works by well known authors such as Lewis Carroll C S Lewis and Enid Blyton as well as popular and ephemeral material not often considered as part of the canon Alison Waller develops a poetics of rereading and presents a new model for understanding lifelong reading As such she reconceives the history of children's literature through the shared and individual experiences of the readers who carry these books with them throughout their lives *The Woman Reader* Belinda Jack, 2012-07-17 Explores what and how women of widely differing cultures have read through the ages from Cro Magnon caves to the digital readers of today drawing distinctions between male and female readers and detailing how female literacy has been suppressed in some parts of the world **Rereading the "Shepherd Discourse"** Karoline M. Lewis, 2008 The history of scholarship narrates a complicated past for the interpretation of the Shepherd Discourse in the Fourth Gospel Both the internal and contextual integrity of John 9 39 10 21 have been compromised by a misapplied analogy dividing the passage into a parable and explanation structure and by reading models that favor historical approaches As a result the images and figures encountered in the discourse have not been allowed their full imaginative impact and the tendency is to look outside the Gospel for their referents and explanations The meaning of the Shepherd Discourse lies not in its relation to the rest of the Fourth Gospel but to that which is imported into the narrative Moreover its function as the discourse to chapter 9 and in the whole of the Gospel is overlooked Lewis employs the strategy of rereading borrowed from literary theory to address the internal integrity of the discourse and the relationship of the discourse to the rest of the narrative The literary phenomenon of rereading highlights the interconnectedness of the whole of the discourse and allows all of the imagery to be assessed at a figurative level Rereading also foregrounds the function of John 9 39 10 21 as the discourse to the healing of the blind man in chapter nine and calls attention to the importance of the Shepherd Discourse for the interpretation of the Fourth Gospel especially the often ignored image of Jesus as the door This book suggests that rereading is necessitated by the Gospel itself as a fundamental feature of its unique theological expression Memory in the Twenty-First Century Sebastian Groes, 2016-03-29 This book maps and analyses the changing state of memory at the start of the twenty first century in essays written by scientists scholars and writers It recontextualises memory by investigating the impact of new conditions such as the digital revolution climate change and an ageing population on our world **A Theory of Literary Explication** Kenneth B. Newell, 2011-07-12 This book presents current multidisciplinary research and theory from 17 different fields most of them never before applied to literary explication in order to provide 1 justification for the practice of a

relative probability type of explication as distinguished from interpretation 2 a relativistic foundation for the preference of some explication s of a literary work over others and thereby 3 a middle way between the postmodern pluralist view that a work has only an unlimited number of equally acceptable though different explications and the modern intentionalist view that it has only one acceptable explication the author s

Nine of the 17 fields are of primary relevance critical theory hermeneutics probability theory philosophy of science second order logic and four fields of cognitive science linguistics epistemology neuropsychology and artificial intelligence But the book also touches upon textual criticism legal theory measure theory fuzzy logic animal learning behavior developmental psychology evolutionary epistemology and neurobiology

The book shows that those using a relative probability type of explication on a literary work can achieve consensus because the healthy adult human brain has an evolved uniform and probably innate ability to form relative probability judgments and to form them in the practice of activities like reading and explicating that are not uniform and innate Lastly the book contributes to the scholarly areas of explication theory and practice first by providing a relativistic foundation for a craft explication that currently is not acknowledged to have any foundation but nonetheless continues and will continue to be practiced and second by presenting a means relative epistemic probability by which judging some explication s of a literary work to be more acceptable than others may be justified philosophically an uncommon circumstance in this postmodern era in which philosophical justification of many beliefs and practices is thought to be untenable
