Novel Language And Narrative From Cervantes To Calvino:

The Novel André Philippus Brink, 1998 **The Novel** André Brink, 1998-05-29 The Postmodernist novel has become famous for the extremes of its narcissistic involvement with language In this challenging and wide ranging new study Andr Brink argues that this self consciousness has been a characteristic of the novel since its earliest stirrings More specifically every novel appears both to construct and to be constructed by its own notion of language elaborated through all the strategies of narrative Taking as his starting point the propensity for story embedded in language he offers stimulating new readings of novels from Cervantes to Calvino demonstrating that in many respects the old familiar texts may be more startlingly modern and the Postmodernist texts more firmly rooted in convention than we tend to think **Reinventions of the Novel** , 2021-11-01 The history of the Novel is a story of perpetual change so that its identity still remains open to question The sixteen articles in Reinventions of the Novel investigate connections differences and similarities in the Novel around the world for the past three hundred years Rather than searching for the essence of the genre they look for the formal and thematic patterns on which the novel thrives considering such matters as tradition and modernity realism rhetoric and identity tableau and spatiality and wondering whether epic and avant garde are not quite contradictory terms Close readings combined with historical overviews and theoretical discussions open up new constellations in the history of the novel Untraditional cross readings are made between Rabelais and Jens Peter Jacobsen and between Balzac and Nicholson Baker Transformations of traditional modes of epic biography and Bildung are traced as far as Georges Perec and G nter Grass while canonical classics like Proust Joyce Richardson and Goethe are read in prosaic pragmatic and media specific contexts In the 1920s many people predicted the death of the novel now more than ever it seems to be the dominant literary form perhaps because it is the same yet always different Narratives Across Borders Manju Jaidka, 2016-04-26 This volume is centred around the idea that the aim of literature is to build bridges to bring people together and to highlight underlying similarities despite the apparent differences in world literatures As such the book focuses on the moral purpose of literature and its tendency to overcome divisive forces It supports the idea of cosmopolitanism a re working of the ancient Indian ideal of Vasudhaiva Kuttumbakam or the world is my home a concept close to the African notion of ubuntu which refers to an open society as against a small enclosed one and relates to the essence of being human and working for the benefit of a larger community The book uses examples from texts across geographical and cultural borders beginning with classics like the Indian epics the Panchatantra the Kathasaritsagar and the Arabian Nights before moving on to contemporary texts in the age of information technology Although these may originate against diverse backdrops they have a commonality that cannot be denied The stories we tell the tales we love to hear and repeat all share certain features which reach out across boundaries of time and space thus bridging the gap between people and places Living in today s globalized world there is a need to study literature in a broader perspective and to be aware that though stories may be rooted in a particular time and place they are

still a part of the world heritage and comprise what is called world literature The book will be of particular interest to scholars studying the art of storytelling as well as the lay reader passionate about literature

Interface between Literature and Science Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable they are continuously crossed and illuminated by a variety of narrative forms and their interpretations Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines This volume treats both literary and scientific texts as products of the human mind therefore abiding by all the rules it creates scientific and humanistic alike The volume does not propose to replace all literary or discourse analysis with a cross disciplinary science based approach but rather uses this theoretical stance when more conventional means fail to explain or even explore the intricacies of a text It argues that scientific discourse can also be analysed through the prism of literary theories since all texts are governed in varying measure by the unity of contexts that characterize their nature the process of their creation and their place in the cognitive realm of humanity This approach will allow the nature and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities Latin American literature offers many examples of the interconnection between literary and scientific discourse Notwithstanding the often explored relationship between Jorge Luis Borges s literary themes and contemporary scientific discoveries a more general question should be asked is the influence of scientific thought a privilege of the select few or is it indeed an all pervading experience in Latin American literary narrative from late modernism to present day This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises The volume offers cross disciplinary readings of such authors as Jorge Luis Borges Gabriel Garc a M rquez Ernesto S bato and Gustavo Sainz to name but a few

Kazuo Ishiguro's Gestural Poetics Peter Sloane, 2021-05-06 Through readings of Ishiguro s repurposing of key elements of realism and modernism his interest in childhood imagination and sketching interrogation of aesthetics and ethics his fascination with architecture and the absent home and his expressionist use of imaginary space and place Kazuo Ishiguro s *Gestural Poetics* examines the manner in which Ishiguro s fictions approach but never quite reveal the ineffable inexpressible essence of his narrators emotionally fraught worlds Reformulating Martin Heidegger s suggestion that the essence of world can only be indicated as the essence of world can only be gestured towards Sloane argues that while Ishiguro s novels and short stories are profoundly sensitive to the limitations of literary form their narrators are to varying degrees equally keenly attuned to the failures of language itself In order to communicate something of the emotional worlds of characters adrift in various uncertainties while also commenting on the expressive possibilities of fiction and the mimetic arts more widely Ishiguro appropriates a range of metaphors which enable both author and character to gesture towards the undisclosable essences of

fiction and being The Enamoured Knight Douglas H. Glover, 2005 This book is filled with a great love for the art of writing and is a celebration of the act of reading Through the prism of the renowned Russian Formalist Viktor Shklovsky Douglas Glover provides a scrupulous reading of Cervantes's Don Quixote By showing us how Cervantes constructed his novel and how we as readers participate in his magical creation he opens the 400 year old Spanish masterpiece to a new generation of readers Glover seduces us with his stunning prose while making it possible for even the casual reader to understand and enjoy Cervantes's genius BOOK JACKET **Re-Reading the Age of Innovation** Louise Kane, 2022-07-28 The period of

1830-1950 was an age of unprecedented innovation From new inventions and scientific discoveries to reconsiderations of religion gender and the human mind the innovations of this era are recorded in a wide range of literary texts Rather than separating these texts into Victorian or modernist camps this collection argues for a new framework that reveals how the concept of innovation generated forms of literary newness that drew novelists poets and other creative figures working across this period into dialogic networks of experiment The 14 chapters in this volume explore how inventions like the rotary print press or hot air balloon and emergent debates about science trade and colonialism evolved new forms and genres Through their examinations of a wide range of texts and writers from well known novelists like Conrad Dickens Hardy and Woolf to less canonical figures like Charlotte Mew Elsie Mar and Walter Francis White the chapters in this collection re-read these texts as part of an age of innovation characterized not by division and divide but by collaboration and community

George Eliot and Schiller Deborah Guth, 2017-11-22 This title was first published in 2003 Though Friedrich Schiller enjoyed prominent literary standing and great popularity in nineteenth century literary England his influence has been largely neglected in recent scholarship on the period With *George Eliot and Schiller Intertextuality and Cross Cultural Discourse* Deborah Guth explores the substantial evidence of the importance of the playwright and philosopher's thought to Eliot's novelistic art Guth demonstrates the relationship of Schiller's work to Eliot's plotting of moral vision the tensions in her work between realism and idealism which an understanding of Schiller redefines substantially and her aesthetics The specific focus of the study is the Schillerian subtext of George Eliot's work and a resultant reassessment of her realism However the intertextual methodology applications of Iser's thinking on the translatability of cultures and a placement of Eliot in a German context serve as a gateway for reconsidering Eliot's contributions in these areas as well While recent scholarship on Eliot has focused on gender analysis New Historicism and cultural materialism the frame remains largely English Guth contends that the immense continental underpinnings of Eliot's writing should lead us to re-situate her beyond national boundaries and view her as a major European as well as English writer **The Cambridge Introduction to French Literature** Brian Nelson, 2015-06-11 An engaging highly accessible and informative introduction to French literature from the Middle Ages to the present
