Containing extracts from Wilson's work on existentialism, criminology, psychology, and the occult, this is an invaluable introduction to one of the late twentieth century's most incisive thinkers. This is a new edition of the classic Colin Wilson collection *The Essential Colin Wilson*, first published in 1985, updated and introduced by Wilson's bibliographer Colin Stanley. It is the only book to contain extracts from Colin Wilson's most important work in one volume, including *The Outsider* (1956), *A Criminal History of Mankind* (1983), *The New Existentialism* (1966), *The Occult* (1971), *New Pathways in Psychology* (1972), and *Mysteries* (1978), as well as three of his novels and many other texts. Subjects covered include existentialism, criminology, psychology, consciousness studies, the occult, and much more. This second edition includes all of the original volume plus six essential post-1985 essays and chapters chosen by Stanley and other Colin Wilson experts, including Gary Lachman. These essays provide a much-needed update covering aspects of Wilson's work from the 28 years that followed the publication of the first edition to his death in December 2013. This is an invaluable introduction for those approaching one of the late twentieth century's most incisive thinkers for the first time, and also a timely reminder to Colin Wilson's many fans and scholars worldwide of a unique and challenging body of work.

The Killer: a Novel Colin Wilson, 1970 Novel based on the historical crime case of Peter Kürten, who was executed for murder in Germany in 1931.

Around the Outsider Colin Stanley, 2011-05-16 In May 1956, aged just 24, Colin Wilson achieved success and overnight fame with his philosophical study of alienation and transcendence in modern literature and thought, *The Outsider*. Fifty-four years on, and never out of print in English, the book is still widely read and discussed, having been translated into over thirty languages. In a remarkably prolific career, Wilson, a true polymath, has since written over 170 titles, novels, plays, and non-fiction, on a variety of subjects. This volume brings together twenty essays by scholars of Colin Wilson's work worldwide and is published in his honour to mark the author's 80th birthday. Each contributor has provided an essay on their favourite Wilson book or the one they consider to be the most significant. The result is a varied and stimulating assessment of Wilson's writings on philosophy, psychology, literature, criminology, and the occult, with critical appraisals of four of his most thought-provoking novels. Altogether, a fitting tribute to a writer.

The Outsider Colin Wilson, 1987-09-01 The seminal work on alienation, creativity, and the modern mind, set. An exhaustive, luminously intelligent study, a real contribution to our understanding of our deepest predicament.
