Markhams Maister-Peece ... Now the fifth time newly imprinted, ... and augmented, etc Gervase Markham,1636 The Musical Album George Frederick Root,1855 *Charlie Parker, Composer* Henry Martin,2020 Charlie Parker Composer is the first assessment of a major jazz composer s oeuvre in its entirety Providing analytical discussion of each of Parker s works this study combines music theoretical historical and philosophical perspectives A variety of analytical techniques are brought to bear on Parker s compositions including application of a revised Schenkerian approach to the music that was developed through the author s prior publications After a review of Parker s life emphasizing his musical training and involvement in composition the book proceeds by considering the types of Parker pieces as categorized by overall form and harmony and the amount of preplanned music they contain The historical circumstances of each piece are reviewed and in some cases sources of the ideas of the most important tunes are explored The introduction includes a discussion of the ontology of a jazz composition The view is advanced that the Western concept of a music composition needs to be expanded to embrace practices typical of jazz composition and forming a significant part of Parker s work While focusing on Parker s more conventional tunes the book also considers his large scale melodic formulas Two formulas in particular are arguably compositional since they are repeated in subsequent performances of the same piece As part of the research for this book all of Parker s copyright submissions to the Library of Congress were examined and photographed The book reproduces the four of them that were copied by Parker himself The Time for Endowment Building Is Now Deborah Kaplan Polivy,2020-11-23 The Time for Endowment Building is Now Why and How to Secure Your Organization s Future describes endowment contributions both through outright and deferred gift giving It puts the concept of endowment development front and center and explains the steps and mindset that are necessary to create the capacity to build and increase the endowment of an organization The role and responsibility of the executive and the board in encouraging endowment development are described and a chapter is devoted to the identification of endowment prospects not through wealth analysis or major gift giving but by donative history A highlight of the book is a case study of the Harold Grinspoon Foundation s LIFE LEGACY Program that provides training and mentoring as well as incentives to local community based organizations to encourage the building of endowment funds The book will be particularly appealing to boards and staff members of those not for profit organizations contemplating whether to launch an endowment program or are in the beginning stages of doing so This book will be valuable to veterans in the field considering their policies in relation to the use of endowment contributions as well as the marketing of them to prospects and donors It will also be of interest to those teaching fundraising courses in not for profit management programs *Apocalypse Now: The Rocks Cry Out* Donald Alexander,2020-02-18 Nuclear scientist

decodes evidence of global flooding that warns of an ominous unstoppable disaster already set in motion Since the Cambrian Explosion of Life Earth has passed through 6 Apocalyptic Cycles and is now at the beginning of the 7th Apocalypse How could entire new ocean floors have formed in just the last 2% of geologic time The geologic record proves that the surface of the Earth has been hammered into its present form by catastrophism not uniformitarianism placing great doubt on evolution The Rock Record provides undeniable evidence of oceans within the Great Deep that are cycled with surface oceans Formation of massive salt deposits are formed by tectonics not just evaporation This plate tectonics cycle appears to be driven by extraterrestrial impacts and or nuclear explosions at the Core Mantle boundary deep in the Earth that cyclically shatter the Earth's crust by seismic waves Evidence carved in stone by an extinct civilization appears to confirm the Apocalyptic record *World on Fire* Michael Brownstein, 2002 Michael Brownstein has written an epic visionary kaleidoscopic treatise poem that amazingly attempts to make sense of and show a way through the rich madness of our time The work is entirely unique for the scope and audacity of the effort and the beauty of its delivery Partly wail of pain partly an ode to nature and the human spirit partly a last ditch effort to consciously click back to a sustainable pathway this book will leave the reader simultaneously enlightened depressed and exhilarated I strongly recommend it Jerry Mander **Markham's Master-piece ...
