NT - Framework for strategic planning

The National Treasury has revised Treasury Regulations 5 and 30 issued in terms of the PFMA to provide the necessary legal basis for the implementation of this Framework and to support the implementation of the *Framework for Managing Programme Performance Information*.

The regulations require institutions to:

- Produce and table a Strategic Plan with a five-year planning horizon, outlining the planned sequencing of projects and programme implementation and associated resource implications and other prescribed information
- Produce and table an Annual Performance Plan including forward projections for a further two years, consistent with the medium-term expenditure framework (MTEF) period, with annual and quarterly performance targets, where appropriate, for the current financial year and the MTEF
- Identify a core set of indicators needed to monitor institutional performance
- Adopt a quarterly reporting system, including submission of agreed information to executive authorities, the Presidency or Premier's Offices, the relevant treasury and Parliamentary portfolio committees. Public entities are encouraged to submit the reports to their executive authorities and responsible departments.
- Ensure that there is alignment of reporting between the Strategic Plans, Annual Performance Plans, budget documents and annual and quarterly reports.
