Nts Mysl I Delo 19302000

Josephine von Zitzewitz

Nts Mysl I Delo 19302000:

Uncensored Ann Komaromi, 2015-06-30 Literature that was self published and informally circulated in the former Soviet Union in order to evade censorship in addition to prosecution of its authors came to be known as samizdat Vasilii Aksenov Andrei Bitov and Venedikt Erofeev were among its most acclaimed practitioners In her innovative study Ann Komaromi uses their work to argue for a far more sophisticated understanding of the phenomenon of samizdat showing how the material circumstances of its creation and dissemination exercised a profound influence on the very idea of dissidence When a text comes to life as samizdat it necessarily reconfigures the relationship between author and reader Using archival research to fully illustrate samizdat's social and historical context Komaromi arrives at a more nuanced theoretical position that breaks down the opposition between the autonomous work of art and direct political engagement The similarities between samizdat and digital culture give her formulation of dissident subjectivity particular contemporary relevance **Samizdat,**

Tamizdat, and Beyond Friederike Kind-Kovács, Jessie Labov, 2013-03-01 In many ways what is identified today as cultural globalization in Eastern Europe has its roots in the Cold War phenomena of samizdat do it yourself underground publishing and tamizdat publishing abroad This volume offers a new understanding of how information flowed between East and West during the Cold War as well as the much broader circulation of cultural products instigated and sustained by these practices By expanding the definitions of samizdat and tamizdat from explicitly political print publications to include other forms and genres this volume investigates the wider cultural sphere of alternative and semi official texts broadcast media reproductions of visual art and music and in the post 1989 period new media The underground circulation of uncensored texts in the Cold War era serves as a useful foundation for comparison when looking at current examples of censorship independent media and the use of new media in countries like China Iran and the former Yugoslavia The Culture of Samizdat Josephine von

Zitzewitz, 2020-11-12 Winner of the 2022 CHOICE Outstanding Academic Titles Samizdat the production and circulation of texts outside official channels was an integral part of life in the final decades of the Soviet Union But as Josephine von Zitzewitz explains while much is known about the texts themselves little is available on the complex communities and cultures that existed around them due to their necessarily secretive and sometimes dissident nature By analysing the behaviours of different actors involved in Samizdat readers typists librarians and the editors of periodicals in 1970s Leningrad *The Culture of Samizdat* fills this lacuna in Soviet history scholarship Crucially as well as providing new insight into Samizdat texts the book makes use of oral and written testimonies to examine the role of Samizdat activists and employs an interdisciplinary theoretical approach drawing on both the sociology of reading and book history In doing so von Zitzewitz uncovers the importance of middlemen for Samizdat culture Diligently researched and engagingly written this book will be of great value to scholars of Soviet cultural history and Russian literary studies alike *Joining Hitler's Crusade* David Stahel, 2018 A ground breaking study that looks at why European nations sent troops to take part in Hitler's invasion of the
