Nuclear Envelope And The Nuclear Matrix:

The Nuclear Envelope and the Nuclear Matrix Wistar Institute of Anatomy and Biology, 1982 **The Nuclear Envelope and the Nuclear Matrix** Gerd G. Maul, 1982-05 *Cancer Biology and the Nuclear Envelope* Eric C. Schirmer, Jose I. de las Heras, 2014-02-22 Nuclear envelope NE defects have been linked to cancer biology since the mid 1800s but it was not until the last few years that we have begun to understand these historical links and to realize that there are myriad ways that the NE impacts on tumorigenesis The NE is a complex double membrane system that encloses the genome while providing structural support through the intermediate filament lamin polymer and regulating protein mRNA trafficking and signaling between the nucleus and cytoplasm via the nuclear pore complexes NPCs These functions already provide some mechanisms for NE influences on cancer biology but work in the past few years has elucidated many others Lamins and many recently identified NE transmembrane proteins NETs have been now shown to function in DNA repair regulation of cell cycle and signaling apoptosis cell migration in metastasis and nuclear architecture and morphology This volume presents a comprehensive overview of the wide range of functions recently identified for NE proteins and their relevance in cancer biology providing molecular mechanisms and evidence of their value as prognostic and diagnostic markers and suggesting new avenues for the treatment of cancer Indeed some of these recent links are already yielding promising therapies such as the current clinical trial of selective inhibitors of the nuclear export factor exportin in certain types of leukemia melanoma and kidney cancer **Cell and Molecular Biology** Gerald Karp, 2009-10-19 Karp continues to help biologists make important connections between key concepts and experimentation The sixth edition explores core concepts in considerable depth and presents experimental detail when it helps to explain and reinforce the concepts The majority of discussions have been modified to reflect the latest changes in the field The book also builds on its strong illustration program by opening each chapter with VIP art that serves as a visual summary for the chapter Over 60 new micrographs and computer derived images have been added to enhance the material Biologists benefit from these changes as they build their skills in making the connection Nuclear Envelope Structure and RNA Maturation Edward A. Smuckler, Gary A. Clawson, 1985 **The Nuclear Envelope** David Evans, Chris Hutchison, John Bryant, 2004-08-02 The Nuclear Envelope brings together the major current topics in nuclear envelope structure transport transcriptional regulation and cell signaling The volume is divided into four sections 1 Proteins of the nuclear envelope including nuclear envelope proteomics structure and function 2 Nuclear pores and transport at the nuclear envelope including pore complex structure assembly and function and import and export pathways 3 Nuclear envelope dynamics including dynamics of lamina assembly and disassembly 4 Nuclear signaling and transcription regulation including signaling to the nucleus and spectrin repeat proteins and their implications or communication between the nucleus and cytoplasm Progress in Nucleic Acid Research and Molecular Biology , 1987-12-10 Progress in Nucleic Acid Research and Molecular Biology *Nuclear Import and Export*

in Plants and Animals Tzvi Tzfira, Vitaly Citovsky, 2007-02-25 Nuclear Import and Export in Plants and Animals provides insight into the remarkable mechanisms of nuclear import and export This book covers a range of topics from the nuclear pore structure to nuclear import and export of macromolecules in plant and animal cells In addition the book covers the special cases of nuclear import of Agrobacterium T DNA during plant genetic transformation nuclear import and export of animal viruses and nuclear intake of foreign DNA A chapter on research methods to study nuclear transport concludes the book

Chromosomal Nonhistone Protein L. S. Hnilica, 2018-12-20 The fourth and last volume of Chromosomal Nonhistone Proteins sequence attempts to confront these macromolecules with the major structural elements of the cell nucleus with the exception of nucleosomes which will be treated separately in a later treatise Proteins of the chromosomes nucleoli nuclear membrane RNP particles and nuclear matrix are described in detail
