Nuclear Fuels Policy Working Group,1976 Nuclear Proliferation and Civilian Nuclear Power United States. Office of the Assistant Secretary for Nuclear Energy,1980 Energy Abstracts for Policy Analysis ,1979 Internationalization to Prevent the Spread of Nuclear Weapons Stockholm International Peace Research Institute,2020-11-19 First published in 1980 the original blurb read In August September 1980 the second Review Conference of the Non Proliferation Treaty NPT will take place in Geneva As this Treaty is the most important barrier to the proliferation of nuclear weapons the results of the Conference will obviously have major effects in the field of arms control and disarmament The implications of the recent International Nuclear Fuel Cycle Evaluation INFCE are that the technological capabilities of many countries are such that there is no technical solution to the problem of the spread of nuclear weapons to countries that do not now have them Thus it appears that if there is a solution at all it must be political in nature A possible element in such a political solution is the internationalization of the sensitive parts of the nuclear fuel cycle that is those parts that have the potential of producing fissile materials to make nuclear weapons Although the intricacies of a system of internationalization are still unresolved the concept if realized would provide another powerful political barrier to nuclear weapon proliferation a reinforcement for the aims of the NPT itself Against this background and as a follow up to its first symposium and the resultant book *Nuclear Energy and Nuclear Weapon Proliferation* SIPRI convened a second international group of experts to continue its discussions of issues pertinent to the forthcoming NPT Review Conference The meeting took place at SIPRI in Stockholm 31 October 2 November 1979 when the feasibility of internationalizing the nuclear fuel cycle was examined SIPRI s views on this complex approach are expressed in Part 1 of this book *Internationalization to Prevent the Spread of Nuclear Weapons* Part 2 contains the papers that were presented at the symposium
