Nuclear Disengagement In Europe:

Nuclear Disengagement in Europe Stockholm International Peace Research Institute, 2020-11-19 In the early 1980s there had been an upsurge of public concern over the nuclear threat to Europe Already saturated with nuclear weapons Europe faced controversial new deployments and there was alarm over military strategies for nuclear war in the region It is in this context that the idea of nuclear weapon free zones had captured the popular imagination and became a political issue in Europe Not only would such zones build confidence and raise the nuclear threshold but they would be first steps towards a more comprehensive elimination of nuclear weapons Originally published in 1983 Nuclear Disengagement in Europe probes the question of nuclear weapon free zones in the region Pugwash and SIPRI arranged a meeting at which an international team of lawyers scientists politicians and military experts gave background information and provided an appraisal of problems regarding the zone initiatives as well as benefits that would accrue Possible elements in a European zone arrangement were elaborated on and procedures towards the establishment of such a zone were suggested **Defending Europe** Derek Paul, 2021-01-26 This book first published in 1985 examines the questions of European security that lie at the heart of the confrontation between the superpowers It concentrates on ways of achieving defence by conventional means rather than a reliance on nuclear or chemical weapons and at the same time focuses on possible force reductions

Security in 21st Century Europe Andrew Cottey, 2025-05-01 The nature of security in Europe has been transformed in recent years Security in 21st Century Europe argues that the defining feature of contemporary European security is the existence of a security community underpinned by the twin institutions of the EU and NATO but that today the European security community NATO and the EU face a growing array of external challenges and their ability to respond to those challenges is increasingly being called into question Offering a systematic assessment of security in contemporary Europe this third edition examines the changing character of European security and assesses the extent of the threats posed by recent challenges as well as the policy dilemmas involved in responding to these challenges It explores Europe's engagement with core thematic issues in European security including military intervention nuclear weapons terrorism and non military security Providing both a substantive contribution to academic thinking on European security and a overview of debates on contemporary European security this new edition offers 3 new chapters on migration climate change and cybersecurity Coverage of all recent major developments related to European security including the Syrian civil war and the regional destabilization arising from it Russia Ukraine crisis the rise of populism the migration crisis the acceleration of China's rise Security in 21st Century Europe combines theory and detailed empirical analysis exploring both how different theoretical perspectives can help us think about European security and concrete empirical developments in European security policies and institutions This text is the perfect companion for advanced undergraduate and Master's level courses on European security whether within courses in Security studies European studies or International Relations Nuclear Disengagement

in Europe Sverre Lodgaard,1983 **The Federal Republic of Germany and NATO** Emil Kirchner,James
 Sperling,2016-07-27 This book provides a systematic approach which explores the domestic regional and systemic factors
 shaping Germany's role in NATO Initially intended as stock taking of West Germany's interest and role in NATO over a forty
 year period this book has been transformed by events into a retrospective of what NATO has meant for West Germany and its
 partners between 1949 and 1989 and what NATO may mean in the future for a unified Germany for a Europe spanning the
 Atlantic to the Urals and for the USA *Alternative Conventional Defense Postures In The European Theater* Hans G.
 Brauch,Robert F. Jr. Kennedy,2018-10-24 First published in 1993 This volume edited jointly by the American strategic expert
 Robert Kennedy and the German peace researcher Hans Giinter Brauch takes up conceptual ideas developed by Horst
 Afheldt and Carl Friedrich von Weizsacker as well as others on both sides of the Atlantic since the 1960s Our aim has been to
 contribute to the development of concepts that would reduce the danger of a third world war by the creation of more stable
 structures in the context of a defensively oriented conventional defense posture In this volume a variety of alternative
 approaches to European conventional defense driven for the most part by similar strategic considerations are presented by
 German and American experts to a larger international audience **The Arms Race at a Time of Decision** Joseph
