Nuclear Submarine Skippers and what They Do George P. Steele, 1962 *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini, 2005

Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal *Servicemen and what They Do* Karl Schuon, Ronald D. Lyons, 1964 **Archeologists and what They Do** Robert John Braidwood, 1960 A detailed account of an archeological dig from what happens from the time you leave home until you're back in the laboratory with what you have found **Hot Straight and Normal** Ron Martini, 2001 Hot Straight and Normal is a submarine bibliography with over 6000 references to books videos articles and Internet sources It is designed to assist researchers historians students teachers collectors and others with an interest in submarines their history construction and use in wars worldwide It's unique format of listing the books by title will assist the researcher and casual reader alike in finding or searching for familiar words and subjects Fiction book titles are also included Each listing contains title author date published publisher page count ISBN number and other informative descriptions if known This is the only submarine bibliography currently in publication The article index includes all articles in all issues of Naval Submarine League's Submarine Review and Naval Institute's Naval Proceedings magazine There are Web sites and other Internet sources listed and even information on obtaining more information through the Freedom of Information Act Also included is how to find materials inside government archives Collected and edited by a former U S submariner and member of U S Submarine Veterans Inc **Red Star on the Sail** Douglas E. Templin, 2010 Red Star on the Sail is a riveting pair of stories cleverly spun together by the author packed with page turning romance thrills spine tingling adventure and espionage Follow the path of a young California couple in search the sailboat of their dreams and feel the problems arising in their marriage as plans to cruise the South Pacific become complicated and confused Shiver in the midst of a bitter winter with an unruly Russian admiral given command of his country's newest and most lethal nuclear submarine Outbound with orders of ominous potential America's CIA intervenes throwing chaos at the commander his wife and trusted executive officer Become part of the characters lives as they develop concurrently on opposite sides of the globe and take similar turns while plotting and planning futures laden with inevitable yet unexpected obstacles What might occur should their courses converge on the high seas **Cold is the Sea** Edward L. Beach, 2014-03-15 Hailed as heart stopping and almost unbearably suspenseful Edward L Beach's third novel is set fifteen

years after the end of World War II as the US Navy converts its fleet of conventional submarines to nuclear powered ships The book focuses on the USS Cushing whose sixteen missile silos carry more explosive power than all the munitions used in both world wars The submarine is on a secret mission to the Arctic Ocean to determine whether her missiles are effective when fired from beneath the ice When the Cushing is incapacitated with a suspicious Russian sub lurking in the vicinity the scene is set for a dramatic novel rich in all the technical detail and submarine lore that have entertained millions of readers of Captain Beach's other fictional works

Oilmen and what They Do C. William Harrison, 1965 In this fascinating story of oilmen at work the author includes descriptions of how oil is discovered and pumped from land and sea how it is transported refined and used in a myriad of the industry itself
