OPEC and the International Oil Industry Fadhil J. Al-Chalabi,1980 OPEC and the International Oil Industry F.J. Al-Chalabi,1981-02-28 The origin of this significant and timely book was a lecture on the structural changes in the international oil industry prepared by Dr Al Chalabi for the OAPEC annual course on the Fundamentals o Oil and Gas It was given in Arabic in February 1978 when the author was Assistant Secretary General of OAPEC The author has succeeded in expanding and updating the basic aspects of the subject He has managed in this relatively short book to survey and analyse the main structural changes in the international oil industry during the last 35 years with special emphasis on the revolutionary changes of the 1970s The book clearly demonstrates the significance of these changes in terms of their impact on the power of control and decisions concerning the ownership of oil resources their marketing outlets and price policy It explains how the concession system and the various consortia arrangements among the transnational oil companies gave them maximum freedom and flexibility in the control and management of crude oil production and pricing Their vertical and horizontal integration enabled them to control and manage upstream and downstream operations on a global basis and with the effectiveness of a powerful international Cartel OPEC and the International Oil Industry F.J. essays written over the last twenty years and now collected in this volume could hardly be more diverse beginning with the growth of the firm and moving from the international petroleum industry to the Middle East generally Oddly enough however these subjects are connected by the same type of historical logic that characterizes the diversification of an industrial firm the logic in the simple principle that one thing leads to another *Governmental Intervention in the Market Mechanism: the Petroleum Industry* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly, 1969 Reviews economic impact of Federal regulations on the petroleum industry Focuses on crude oil supplies domestic competition restrictions on less expensive foreign crude oil imports the need to maintain higher domestic prices as development incentive and regional allocation inequities especially in the Northeast *International Oil Industry* Judith Rees, Peter Randon O'Dell, 1987-06-18 The Oil Companies and the Arab World Giacomo Luciani, 2016-03-02 For many years vertical integration characterized the international oil industry with the same company controlling the entire process from crude exploration and production to the retailing This structure was radically transformed in the 1970s and this book originally published in 1984 examines whether the dis integration which resulted was a long term trend or a temporary phase It examines the attitude of the major international oil companies discusses the policies adopted by oil producing and oil importing countries and the limits of government to government deals underlined The political and strategic implications of re integration are explored and relations between oil exporters and importers and between the USA Europe and the Arab world discussed *India, GCC, and the Global Energy Regime* Samir Ranjan Pradhan, 2008 Addressing the bilateral economic relations between India and the Gulf Cooperation Council in the face of massive energy consumption increases this analysis argues that the evolving pattern of energy related links will act as a stimulant and boost these relations This volume cites India's trajectory and importance explaining that Asia's burgeoning demand for oil and gas is a crucial factor in the current world energy market and has occupied center stage in the contemporary discourse on global energy security

Standing Guard Charles Lipson, 2024-06-21 Foreign investors are drawn abroad by the lure of profits but they also face significant risks Standing Guard examines how investors coped with these risks and protected their capital abroad in the nineteenth and twentieth centuries Toward the end of the twentieth century less developed countries determined to control their own economic development nationalized their most lucrative oil fields and mineral concessions and regulated all forms of foreign investment While some firms were hard hit many others adapted profitably to this new political environment They rearranged their assets for self protection and took full advantage of the tax breaks low wages and other incentives that attract capital to less developed countries At stake were not only corporate profits but also the character of national economic development and the global pattern of property rights Charles Lipson traces these evolving issues from the days of gunboat diplomacy to modern corporate negotiations showing how investors have tried to minimize their vulnerability to economic nationalism Standing Guard analyzes the shifting corporate strategies and shows how they have affected U S
