anthropology is still perceived as an unusual approach to opera Both initial arguments are indicative of the current situation of the relationship between anthropological discipline and opera research The book introduces the work of anthropologists and ethnographers whose personal and professional affinity for opera has been explicated in their academic and biographical accounts Anthropological ethnological ethnographic and semiotic accounts of opera by Claude Lévi Strauss Michel Leiris William O Beeman Denis Laborde Paul Atkinson and Philippe Joseph Salazar establish that opera can be a pertinent object of anthropological interest ethnographic investigation cultural analysis and historical reflection By touching on opera not merely as a musical aesthetic or artistic category but as a social cultural historical and transnational phenomenon that over the last four centuries has significantly influenced and reflected the identity of Western culture and society this monograph suggests that opera and anthropology no longer need be alien to one another **Opera in the Tropics** Rogério

Budasz,2019-03-22 Opera in the Tropics is an engaging exploration of theater with music in Brazil from early colonial times to the first decades of the nineteenth century Postopera: Reinventing the Voice-Body Jelena Novak,2016-03-09 Both in opera studies and in most operatic works the singing body is often taken for granted In Postopera Reinventing the Voice Body Jelena Novak reintroduces an awareness of the physicality of the singing body to opera studies Arguing that the voice body relationship itself is a producer of meaning she furthermore posits this relationship as one of the major driving forces in recent opera She takes as her focus six contemporary operas La Belle et la Bête Philip Glass Writing to Vermeer Louis Andriessen Peter Greenaway Three Tales Steve Reich Beryl Korot One Michel van der Aa Homeland Laurie Anderson and La Commedia Louis Andriessen Hal Hartley which she terms postoperas These pieces are sites for creative exploration where the boundaries of the opera world are stretched Central to this is the impact of new media a de synchronization between image and sound or a redefinition of body voice gender relationships Novak dissects the singing body as a set of rules protocols effects and strategies That dissection shows how the singing body acts within the world of opera what interventions it makes and how it constitutes opera's meanings **Law and Opera** Filippo Annunziata, Giorgio Fabio Colombo,2018-01-30

This book explores the various connections between Law and Opera providing a comprehensive multinational and multidisciplinary with approaches from jurists philosophers musicologist historians resource on the subject Further it makes a valuable contribution to studies on law and the humanities While for example the relationship between law and literature has been extensively researched the relationship between Law and Opera remains largely overlooked The book approaches the topic from three perspectives in three main sections Law in Opera Law on Opera and Law around Opera **Hans Hotter** Hans Hotter,2006 An expanded and updated translation of the memoirs of the great German bass baritone

Contemporary Opera in Flux Yayoi U Everett,2024-10-15 In twelve essays Contemporary Opera in Flux discusses a series of shifts that taken together have radically redefined the production and reception of opera Focusing on productions involving late twentieth and twenty first century scores and libretti the contributors draw on conversations with members of

creative teams and studies of archival material dipping into a historical record that remains in flux as composers librettists directors and designers revisit existing work and create anew The contributors to this volume push the boundaries of contemporary opera scholarship by examining works that disrupt operatic conventions tackle sociopolitical issues such as drug trafficking racial injustice and cultural trauma and advance underrepresented works by female African American Asian and avant garde composers around the globe Contemporary Opera in Flux bridges the gaps between expanding literature on opera theater new music postmodern dramaturgy and posthuman aesthetics while also confronting larger questions of identity representation and narrative agency that are at the forefront of contemporary music scholarship This collection of essays engages critically with the past out of a conviction that amid general public perceptions of opera as anachronistic or elitist contemporary opera has emerged as an artistic incubator for experimentation

Adapting Margaret Atwood Shannon Wells-Lassagne, Fiona McMahon, 2022-01-01 This book engages with Margaret Atwood's work and its adaptations Atwood has long been appreciated for her ardent defence of Canadian authors and her genre bending fiction essays and poetry However a lesser studied aspect of her work is Atwood's role both as adaptor and as source for adaptation in media as varied as opera television film or comic books Recent critically acclaimed television adaptations of the novels *The Handmaid's Tale* Hulu and *Alias Grace* Amazon have rightfully focused attention on these works but Atwood's fiction has long been a source of inspiration for artists of various media a seeming corollary to Atwood's own tendency to explore the possibilities of previously undervalued media graphic novels genres science fiction and narratives testimonial and historical modes This collection hopes to expand on other studies of Atwood's work or on their adaptations to focus on the interplay between the two providing an interdisciplinary approach that highlights the protean nature of the author and of adaptation
