Produced in cooperation with HOT ROD magazine, *HOT ROD Mavericks* takes you on a rollicking look back on more than a century of trailblazers, risk takers, hell raisers, and forward thinkers. No aspect of automobile culture embodies the DIY spirit like hot rodding. From prewar pressed steel and milled four bangers to modern machined billet and 800 hp behemoths, the story of hot rodding has been the story of can-do iconoclasts who did for themselves what Detroit wouldn't do for them. Longtime hot rod and custom car historian Tony Thacker crafts an illustrated history that leaves no camshaft unturned. Just some of the 50 plus movers and shakers profiled are pioneers of the speed equipment industry like Barney Navarro, Ed Isky, Iskendarian, and Vic Edelbrock. Postwar racers and builders Alex Xydias, Mickey Thompson, and Ak Miller. Quarter mile dragstrip heroes such as TV Tommy Ivo, Big Daddy Don Garlits, and Shirley Cha Cha Muldowney. Custom culture icons Dean Jeffries, Ed Big Daddy Roth, Von Dutch, Sam and George Barris, and Gene Winfield. Thacker also includes latter-day innovators who kept hot rodding a going concern like Pete Jake Boyd, Coddington, and Chip Foose. *HOT ROD Mavericks* is accompanied by exceptional images sourced from Motor Trend Group's archives at The Petersen Automotive Museum. Celebrate the rebels who revolutionized hot rodding with this authoritative and visually engaging history. Rods and Customs Bo Bertilsson, 2006 Machines of Youth Gary S. Cross, 2018-05-04. For American teenagers getting a driver's

license has long been a watershed moment separating teens from their childish pasts as they accelerate toward the sweet sweet freedom of their futures With driver s license in hand teens are on the road to buying and driving and maybe even crashing their first car a machine which is home to many a teenage ritual being picked up for a first date parking at a scenic overlook or blasting the radio with a gaggle of friends in tow So important is this car ride into adulthood that automobile culture has become a stand in a shortcut to what millions of Americans remember about their coming of age *Machines of Youth* traces the rise and more recently the fall of car culture among American teens In this book Gary S Cross details how an automobile obsession drove teen peer culture from the 1920s to the 1980s seducing budding adults with privacy freedom mobility and spontaneity Cross shows how the automobile redefined relationships between parents and teenage children becoming a rite of passage producing new courtship rituals and fueling the growth of numerous car subcultures Yet for teenagers today the lure of the automobile as a transition to adulthood is in decline Tinkerers are now sidelined by the advent of digital engine technology and premolded body construction while the attention of teenagers has been captured by iPhones video games and other digital technology And adults have become less tolerant of teens on the road restricting both cruising and access to drivers licenses Cars are certainly not going out of style Cross acknowledges but how upcoming generations use them may be changing He finds that while vibrant enthusiasm for them lives on cars may no longer be at the center of how American youth define themselves But for generations of Americans the modern teen experience was inextricably linked to this particularly American icon
