Radical Intimacy Sophie K. Rosa, 2023 Remaking the world through connection care and community requires radical imagination Capitalist ideology wants us to believe that there is an optimal way to live Making connections means networking for work Our emotional needs are to be fulfilled by a single romantic partner and self care equates to taking personal responsibility for our suffering We must be productive and heteronormative we must have babies and buy a house But the kicker is most people cannot and do not want to achieve all or any of these life goals Instead we are left feeling atomized exhausted and disempowered Radical Intimacy shows that it doesn t need to be this way A punchy and impassioned account of inspiring ideas about alternative ways to live Sophie K Rosa demands we use our radical imagination to discover a new form of intimacy and to transform our personal lives and in turn society as a whole Including critiques of the wellness industry that ignores rising poverty rates the mental health crisis and racist and misogynist state violence transcending love and sex under capitalism to move towards feminist decolonial and queer thinking asking whether we should abolish the family interrogating the framing of aging and death and much more Radical Intimacy is the compassionate antidote to a callous society

Radical Intimacy Robert Augustus Masters, 1992

Godsends William Desmond, 2021-11-15 Godsends is William Desmond s newest addition to his masterwork on the borderlines between philosophy and theology For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology idiom grammar dialectic and its metaxological transformation in an attempt to reopen certain

boundaries between metaphysics and phenomenology between philosophy of religion and philosophical theology between the apocalyptic and the speculative and between religious passion and systematic reasoning In Godsend's Desmond's newest addition to his ambitious masterwork he presents an original reflection on what he calls the companioning of philosophy and religion Throughout the book he follows an itinerary that has something of an Augustinian likeness from the exterior to the interior from the inferior to the superior The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture an exploration of the middle space the *metaxu* between the finite and the infinite a dwelling with solitudes as thresholds between selving and the sacred a meditation on idiot wisdom and transcendence in an East West perspective an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a meditation on the beatitudes as exceeding virtue in light of Aquinas's understanding and culminating in an exploration of Godsend's as telling us something significant about the surprise of revelation in word idea and story Godsend's is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers It will also interest students of philosophy and religion especially philosophical theology and philosophical metaphysics

Washburn,2012-02-01 Anyone seeking a deeper understanding of human spirituality will find something of value in Michael Washburn's new book *Drawing on a rich variety of psychoanalytic Jungian and existential phenomenological sources and on both Western and Asian spiritual texts Embodied Spirituality in a Sacred World* provides a theoretical foundation for the idea that human development follows a spiral path Washburn shows that ego development early in life requires us to turn our backs on original sources of our existence and therefore that spiritual development later in life requires us to spiral back to these sources on the way to whole psyche integration He elucidates the underlying causes and pivotal events that set development on its spiral course and traces six major dimensions of experience as they unfold along the spiral path the unconscious the energy system the ego system the perceived other the experiential body and the life world In providing a theoretical foundation for the idea of the spiral path Washburn defends the idea against its critics and helps explain why the idea has been compelling to so many people in diverse traditions *On Cuddling* Phaniel Antwi,2023-11-20 An urgent and

elegant book excavating the many meanings of cuddling under racial capitalism Lyrical and powerful Sophie K Rosa author of *Radical Intimacy* Will take its place among books by Christina Sharpe Saidiya Hartman and Hazel Carby that investigate the violence of intimacy and the intimacy of violence Jack Halberstam author of *Wild Things* Ranging from the terrifying embrace of the slave ship's hold to the racist encoding of cuddly toys *On Cuddling* is a unique combination of essay and poetry that contends with the way racial violence is enacted through intimacy Informed by Black feminist and queer poetics Phaniel Antwi focuses his lens on the suffering of Black people at the hands of state violence and racial capitalism As radical movements grow to advance Black liberation so too must our ways of understanding how racial capitalism embraces us all Antwi turns to cuddling an act we imagine as devoid of violence and explores it as a tense transfer point of power Through archival documents and multiple genres of writing it becomes clear that the racial violence of the state and economy has always been about the mismanagement of intimacies Phaniel Antwi is Canada Research Chair in Black Arts and

The Politics of Transparency in Modern American Fiction Paula Martín Salván, Sascha Pöhlmann, 2024 A much needed contribution to and critique of debates in the newly emerging field of transparency studies from the perspective of American literary studies In the twenty first century transparency has become an ambiguous buzzword both in the public and the private realms e g Wikileaks and the Snowden affair social media This volume takes its cue from the emerging field of transparency studies recent scholarly work in sociology political theory and cultural studies that identifies a hegemonic rhetoric of transparency in public and political life While scholars in this new field routinely gesture toward literature as the realm where secrecy may be productive they rarely engage with literature directly and literary studies itself remains notably absent from their debates This collection of essays seeks to redress that state of affairs by focusing on literary texts written in an American cultural tradition steeped in the interplay between transparency and exposure fear and secrecy security and surveillance and information and disinformation The essays draw on authors ranging from Whitman James and Ellison to Pynchon Morrison and Eggers to argue that American literature complicates theoretical assumptions about transparency made in other disciplines They question the field's strong theoretical emphasis on present day technopolitical practices and discourses as the location of hegemonic discourse on transparency and instead historicize such phenomena and extend them to discursive spheres that have so far been neglected such as issues of sexuality and race

Encountering Dragonfly Brooke Williams, 2025-04-08 A glittering gem of a book by Sy Montgomery author of *The Soul of an Octopus* Following dragonflies into the territory between nature and the human psyche Two decades ago naturalist and environmental writer Brooke Williams had a powerful dream about a dragonfly a dream that cracked open his world by giving rise to a steady stream of dragonfly encounters in his waking life In the years since he has delved deeply into the fascinating biology and natural history of dragonflies and made pilgrimages to see them he now has 38 species on his life list while also exploring their symbolic meaning and cross cultural significance *Encountering Dragonfly* is his account related in a series of odonate encounters of being drawn into a different kind of relationship with the natural world By opening himself to the personal and mytho-poetic meanings of dragonfly and patiently courting an understanding of these creatures that is built upon but also transcends a naturalist's observation Brooke has come to believe in the importance of re-enchantment Many scholars believe that for most of human history we lived in an enchanted world in which myth and magic ritual and stories and spirits informed every aspect of our lives The enchantment ended with the Enlightenment and modernity when reason and scientific discovery explained away the magic commencing a commodification of nature that has flourished ever since Brooke's personal re-enchantment has required of him a faith that material biological reality isn't the only reality it recognizes symbols and archetypes as remnants of a different understanding which may as perhaps they always have play a role in our long term survival In many cultures the dragonfly carries messages between the inner and outer world For Brooke Williams the message of the dragonfly is to ask questions about synchronicity awe and the collective unconscious and how to engage with a world increasingly out of balance What are the implications of following a path toward greater enchantment In a time where engagement with the political and social realities of climate change and environmental degradation can't possibly be valued highly enough can we afford to choose such a path Perhaps more to the point can we afford not to
