Force: Tactical And Operational Innovations In The Mediterranean Theater Of Operations, 1943-1944 Major Matthew G. St.
Clair USMC,2015-11-06 This paper analyzes the participation of the US Twelfth Air Force in the Mediterranean theater of
operation from 1943 to 1944 and also studies the coalition and joint operations required in the air campaign Coalition and
joint warfare provides numerous command control and coordination problems that are not easily de conflicted The
requirements of the coalition air campaign in the Mediterranean theater provided significant challenges to the leadership of
the US Army Air Forces AAF Prewar Army Air Corps doctrine focused on strategic bombing and aerial interdiction Air men
lacked a well thought out tactical support doctrine and had no doctrine for supporting amphibious operations The mission of
the AAF in the North African and Italian campaigns was the winning of air superiority The Twelfth Air Force had to adopt
new tactics and operational techniques to support the Allied landings at Sicily Salerno and Anzio Italy against the formidable
German Luftwaffe The Mediterranean theater was the first theater to encounter the use of precision guided munitions in the

form of radio controlled glide bombs dropped by the Luftwaffe The Mediterranean theater was designated a secondary theater of war resulting in the Twelfth Air Force operating with inadequate resources as aircraft and crews were periodically reassigned to units supporting the Combined Bomber Offensive in the European theater of operations While supporting the Mediterranean theater the Twelfth Air Force operated alongside the British Royal Air Force RAF and was routinely tasked with supporting operations of both the US Fifth and British Eighth Armies This provided significant command control and communication C3 problems that had to be addressed to optimize the effectiveness of Allied airpower *Library of Congress Subject Headings* Library of Congress.
