Duane C. Abbey, 2008-04-02 While the vast majority of providers never intend to commit fraud or file false claims complex procedures changing regulations and evolving technology make it nearly impossible to avoid billing errors For example if you play by HIPAA's rules a physician is a provider however Medicare requires that the same physician must be referred to as a supplier Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards Far from being a benign issue differing guidelines can lead to false claims with financial and even criminal implications

provide continually updated information Cuts through the morass of terminology and acronyms with a comprehensive glossary Includes a CD ROM packed with regulations and information In addition to offering salient information illustrated by case studies Dr Abbey provides healthcare providers and administrators as well as consultants and attorneys with the mindset and attitude required to meet this very real challenge with savvy humor and perseverance
