**Aircraft Type Designators** ,2006      RAF SE5a John McIntosh Bruce,1993 Beskrivelse af det engelske jagerfly RAF S E 5a      Aces Falling Peter Hart,2008-10-02 How the age of the great WWI aces came to an end in the skies over the Western Front At the beginning of 1918 the great aces seemed invincible Flying above the battlefields of the Western Front they cut a deadly swathe through the ranks of their enemies as each side struggled to keep control of the air Some were little more than boys when they started to fly yet they were respected and feared as some of the deadliest killers in the sky But as the press of fighting increased with the great offensives of 1918 nervous stress and physical exhaustion finally began to take their toll and one by one the aces began to fall This book charts the rise and fall of the WWI aces in the context of the vast battles that were taking place in 1918 It shows the vital importance of reconnaissance and how large formations of aircraft became the norm bringing an end to the era of the old heroic lone wolves As the First World War

came to a close very few of the aces survived This epic history of the final year of the air war is both a chronicle of the ways in which 1918 changed aerial combat forever and a requiem for the pioneers of aerial combat who eventually became the victims of their own brilliant innovations

**The RAF's Cross-Channel Offensive** John Starkey,2023-01-05 The story of the RAF and in particular Fighter Command during the Battle of Britain has been told many times It is a tale of the gallant pilots of The Few in their Hurricanes and Spitfires with the nation's back to the wall fighting off the Luftwaffe's airborne assault against enormous odds But the story of Fighter Command's operations immediately after the Battle of Britain is less well known Marshal of the Royal Air Force Hugh Montague Trenchard commanded the Royal Flying Corps in the First World War His policy then had been for his aircraft and men to be continually on the offensive always over the German lines taking the fight to the enemy After being promoted to command the RAF Trenchard retired in 1930 In November 1940 Trenchard showed up again at the Air Ministry and proposed that the RAF should Lean Towards France that it should go on the offensive The RAF would claimed Trenchard win the resulting battle of attrition One of the main outcomes of the RAF's new offensive stance was the introduction of the Circus sorties These were attacks undertaken by a small force of bombers with a powerful fighter escort They were intended to lure enemy fighters into the air so that they could be engaged by RAF fighters the primary objective being the destruction of Luftwaffe fighters followed by the protection of the bombers from attack A further development of the Circus missions were Ramrods Rhubarbs and Rodeos all of which were variations on the same theme A Ramrod was similar to a Circus though in this instance the primary objective was the destruction of the target the main role of the accompanying fighters being to protect the bombers from attack A Rhubarb was a small scale attack by fighters using cloud cover and or surprise the object of which was to destroy German aircraft in the air and or striking at ground targets while a Rodeo consisted of a fighter sweep over enemy territory with no bombers Drawing on official documents and archive material as well as accounts by many of those involved James Starkey reveals just how Trenchard's views won through and the RAF went on the offensive from late 1940 into 1941 Was it a failed strategy If so why was it not halted once the results began to be seen
