*The International Relations of the Chinese Empire* Hosea Ballou Morse, 1918      *The Gospel in All Lands*, 1893

**Chinese Recorder and Missionary Journal**, 1894      **China's Crisis Behavior** Kai He, 2016-04-07 Since the end of the Cold War China has experienced several notable interstate crises the 1999 embassy bombing incident the 2001 EP 3 mid air collision with a United States aircraft and the Diaoyu Senkaku dispute with Japan China's response to each incident however has varied considerably Drawing from a wealth of primary sources and interviews this book offers a systematic analysis of China's crisis behavior in order to identify the factors which determine when Chinese leaders decide to escalate or scale down their response to crises Inspired by prospect theory a Nobel Prize winning behavioral psychology theory Kai He proposes a political survival prospect model as a means to understand the disparities in China's behavior He argues that China's response depends on a combination of three factors that shape leaders views on the prospects for their political survival status including the severity of the crisis leaders domestic authority and international pressure      **The Chinese Recorder and Missionary Journal**, 1878      [Online Chinese Nationalism and China's Bilateral Relations](#) Simon Shen, Shaun Breslin, 2010-03-18 Since the Chinese were officially plugged into the virtual community in 1994 the usage of the internet in the country has developed at an incredible rate By the end of 2008 there were approximately 298 million netizens in China a number which surpasses that of the U S and ranks China the highest user in the world The rapid development of the online Chinese community has not only boosted the information flow among citizens across the territory but has also created a new form of social interaction between the state the media various professionals and intellectuals as well as China's ordinary citizens Although the subject of this book is online Chinese nationalism which to a certain extent is seen as a pro regime phenomenon the emergence of an online civil society in China intrinsically provides some form of supervision of state power perhaps even a check on it The fact that the party state has made use of this social interaction while at the same time remaining worried about the negative impact of the same netizens is a fundamental characteristic of the nature of the relationship between the state and the internet community Many questions arise when considering the internet and Chinese nationalism Which are the most important internet sites carrying online discussion of nationalism related to the author's particular area of study What are the differences between online nationalism and the conventional form of nationalism and why do these differences exist Has nationalist online expression influenced actual foreign policy making Has nationalist online expression influenced discourse in the mainstream mass media in China Have there been any counter reactions towards online nationalism Where do they come from [Online Chinese Nationalism and China's Bilateral Relations](#) seeks to address these questions      **Sinicization and the Rise of China** Peter J. Katzenstein, 2013-03-01 China's rise and processes of Sinicization suggest that recombination of new and old elements rather than a total rupture with or return to the past is China's likely future In both space and time civilizational politics offers the broadest social context It is of particular salience

in China Reification of civilizations into simple categories such as East and West is widespread in everyday politics and common in policy and academic writings This book s emphasis on Sinicization as a specific instance of civilizational processes counters political and intellectual shortcuts and corrects the mistakes to which they often lead Sinicization illustrates that like other civilizations China has always been open to variegated social and political processes that have brought together many different kinds of peoples adhering to very different kinds of practices This book tries to avoid the reifications and celebrations that mark much of the contemporary public debate about China s rise It highlights instead complex processes and political practices bridging East and West that avoid easy shortcuts The analytical perspectives of this book are laid out in Katzenstein s opening and concluding chapters They are explored in six outstanding case studies written by widely known authors which over questions of security political economy and culture Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

*China's Japan Policy: Learning from the Past* Amrita Jash, 2023-11-03 The book establishes a linkage between perceptions and foreign policy by exploring how China s behavior towards Japan is driven by mental shortcuts The study is focused on the aspect of historical memories and how it factors in China s Japan Policy It explores the linkage between perceptions born from the past their interpretations in the present and thereby the shaping of policy behavior of China towards Japan The author delves beyond the realist and liberal interpretations of international politics which assume that states interests and material capabilities are a given in the international system thus offering a conceptual understanding of Sino Japanese relations in the twenty first century

**Young Chinese in Urban China** Alex Cockain, 2012-08-21 This book examines the condition of being a young person in China and the way in which changes in various dimensions of urban life have affected Chinese youths quests to understand themselves The author examines social factors such as changes in the physical construction of urban neighbourhoods changes in family life including reduced family size increasing rates of divorce and increased physical mobility of the family unit school life and mounting pressure to perform well in examinations and be a good student access to foreign and domestic media as well as access to the internet Drawing on the fields of social and cultural anthropology Alex Cockain shows that the process of self understanding in a changing spatial social and cultural world involves ongoing disjointed efforts to achieve a sense of security and belonging on the one hand and a degree of increased autonomy in their relationships with for example parents and teachers on the other This book will appeal to anyone interested in Chinese Society Social and Cultural Anthropology Asian Anthropology and Youth Studies
