Vázquez, 2025 In *Decolonial Environmentalisms* David Vázquez provides material strategies for understanding how Latinx environmental thinking over the past three decades interrogates environmental harm and the ways racial capitalism the idea that racism is a structuring logic of capitalism and colonialism are embedded in some forms of mainstream environmentalism Vázquez critiques the ways that dialogues on

environmental degradation have frequently ignored or minimally engaged with Latinx thought and cultural works on these issues As he points out and we frequently see now with climate change environmental damage does not affect everyone equally He argues that most ecocriticism when it does engage with Latinx work tends to draw from the same few sources again and again and often misreads their intentions Decolonial Environmentalisms considers multiple genres and forms novels films visual art and short stories created by authors from multiple ethnic communities Chicanx Puerto Rican Dominican Cuban American Peruvian and Central American into this conversation This approach makes it possible to shape a more nuanced account of how Latinxs from multiple racial class gender sexual and other identity positions think about and represent environmental ideas By doing so he asks what do Latinx environmental representations do How do they convey their imaginaries And especially how do Latinx authors and artists imagine a more just and equitable material outcome for the characters and situations they depict

Ethics of Spying: A Reader for the Intelligence Professional Jan Goldman, 2023-11-15 The first volume introduced readers to ethics in intelligence operations Published when the U S was conducting operations in the post 9 11 era this book represents the first collection of articles to seriously study ethics for and about intelligence professionals The second volume established the codes of conduct that professionals in the private and public sectors would employ that could be separate from those of their private lives Ethics of Spying A Reader for the Intelligence Professional Volume 3 combines the best articles from the first two volumes It s reorganized into 5 parts and it contains new articles that expand and explain

further the meaning and dichotomy of a working professional in the intelligence community and the national security and civil liberties they are entrusted with safeguarding New articles include Ethics of Human Intelligence Operations Tension and Strategy Ethics Phobia Tension and Strategy Sources and Bypassing Strategies Just Intelligence Theory Ethics Intelligence and Preemptive and Preventive Actions Speak No Evil Using Private Corporations to Conduct Intelligence Activities for National Security Purposes and Intelligence Research and Scholarship *Organizing Crime in Chinatown* Jeffrey Scott McIlwain, 2014-10-01 More than a century ago organized criminals were intrinsically involved with the political social and economic life of the Chinese American community In the face of virulent racism and substantial linguistic and cultural differences they also integrated themselves successfully into the extensive underworlds and corrupt urban politics of the Progressive Era United States The process of organizing crime in Chinese American communities can be attributed in part to the larger politics that created opportunities for professional criminals For example the illegal traffic in women laborers and opium was an unintended consequence of yellow peril laws meant to provide social control over Chinese Americans Despite this hostile climate Chinese professional criminals were able to form extensive multiethnic social networks and purchase protection and some semblance of entrepreneurial equality from corrupt politicians police officers and bureaucrats While other Chinese Americans worked diligently to remove racist laws and regulations Chinatown gangsters saw opportunity for profit and power at the expense of their own community Academics the media and the government have claimed that Chinese organized crime is a new and emerging threat to the United States Focusing on events and personalities and drawing on intensive archival research in newspapers police and court documents district attorney papers and municipal reports as well as from contemporary histories and sociological treatments this study tests that claim against the historical record **Bloodsport** Robert Teitelman, 2016-04-05 The epic battle of the fascinating flawed figures behind America's deal culture and their fight over who controls and who benefits from the immense wealth of American corporations Bloodsport is the story of how the mania for corporate deals and mergers all began The riveting tale of how power lawyers Joe Flom and Marty Lipton major Wall Street players Felix Rohatyn and Bruce Wasserstein prominent jurists and shrewd ideologues in academic garb provided the intellectual firepower creativity and energy that drove the corporate elite into a less cozy Hobbesian world With total dollar volume in the trillions the zeal for the deal continues unabated to this day Underpinning this explosion in mergers and acquisitions including hostile takeovers are four questions that radically disrupted corporate ownership in the 1970s whose force remains undiminished Are shareholders the sole owners of corporations and the legitimate source of power Should control be exercised by autonomous CEOs or is their assumption of power illegitimate and inefficient Is the primary purpose of the corporation to generate jobs and create prosperity for the masses and the nation Or is it simply to maximize the wealth of shareholders This battle of ideas became the bloodsport of American business It set in motion the deal making culture that led to the financialization of the economy

wealth parading across the city in designer clothes expensive jewelry and bejeweled carriages rubbing her success in the faces of the many politicians publishers fellow physicians and religious figures determined to bring her down Unfortunately for Madame Restell her rise to the top of her field coincided with the greatest scam you've never heard about the campaign to curtail women's power by restricting their access to both healthcare and careers of their own Powerful secular men threatened by women's burgeoning independence were eager to declare abortion sinful a position endorsed by newly minted male MDs who longed to edge out their feminine competition and turn medicine into a standardized male only practice By unraveling the misogynistic and misleading lies that put women's lives in jeopardy Wright simultaneously restores Restell to her rightful place in history and obliterates the faulty reasoning underlying the very foundation of what has since been dubbed the pro life movement Thought provoking character driven boldly written and feminist as hell Madame Restell is required reading for anyone and everyone who believes that when it comes to women's rights women's bodies and women's history women should have the last word
