Rails Across The Midlands:

Rails Across the Midlands Richard J. Cook, 1964 **Railroads in the Midwest** H. Roger Grant, 2025-08-05 Discover how railroad companies in America's heartland developed a monumental network that spanned nearly 70 000 route miles Over a century a wide array of carriers ranging from short lines to trunk roads spread through the Midwest and represented over 35% of the country's rail mileage in the 1920s Railroads in the Midwest is a portrait of two premier rail hub rivals Chicago and St Louis and of Iowa and Ohio which boasted the highest line densities Before World War I Iowa railroad officials bragged that the Hawkeye State had a depot and agent located no farther than thirteen miles from any point within its borders In Railroads in the Midwest An Epic History renowned historian H Roger Grant draws on fifty years of research into America's celebrated railroad history to examine what effect railroads had in the heartland and what has happened to them since the early twentieth century **Britain from the Rails** Benedict Le Vay, 2009 There's a magical romance about trains that no other form of transport can capture Meeting under an iconic station clock at a grand terminus Gathering speed through city town and country swooping across viaducts rattling across huge junctions and whistling through tunnels At long last you are in a small Sussex beachside halt or a Welsh valley country station beside a quiet Norfolk waterway or winding through a remote forest high above a Scottish loch Dreamily you think Do those same twin ribbons of steel really lead all the way back to the greatest city in Europe Can this really be the very same seat Britain from the Rails travels to a world far from the endless queues and prodding security of ugly airport terminals It abandons the cars to their motorway jams and soaring petrol prices and revels instead in the gems of Britain's historic railway system *High Speed Rail Great Britain:* Department for Transport, 2013-01-28 This document sets out the government's initial preferences for phase two of HS2 extending the route north of Birmingham to Manchester and Leeds HS2 is a once in a generation opportunity to transform Britain's connectivity capacity and competitiveness It will be a national asset slashing journey times and improving services between our cities and regions It will also free up substantial space on the existing railway Part I of this document sets out more of the background to the HS2 project It describes in greater detail the role that high speed rail has to play in meeting the future transport and economic needs of this country Part 2 moves on to discuss the detail of the government's initial preferred route station and depot options for phase two It looks at the western and eastern sections in turn summarising each of the initial preferred route and station options running northwards from Birmingham and having five stops at Manchester Manchester Airport Toton in the East Midlands Sheffield and Leeds It also includes more details on how high speed trains would be able to continue to destinations such as Liverpool Runcorn Wigan Durham Newcastle Glasgow and Edinburgh through connections with the existing rail network It then explains the government's position on Heathrow Part 3 covers the next steps for the project The government has an extensive programme of collaboration and partnership working with key stakeholders to take the initial options presented in this document forward **Rails Around Preston** Mike

Rhodes,2025-03-15 The author has recorded the railway scene in the locality for over sixty five years His lavishly illustrated collection is a celebration of Preston s railway history Trains ,1973 **Off The Rails** Sally Gimson,2025-08-28 The first major account of HS2 and how it went so wrong A jaunty account of a monumental cock up Makes the unbelievable readable Sir Michael Palin High Speed 2 was to be the crown jewel of British rail The first Intercity railway built north of London in over a century it would connect London with Birmingham Manchester and Leeds bridging the North South divide and propelling Britain s infrastructure into the twenty first century Dogged by mismanagement overspending and incompetence HS2 has collapsed What remains is a bleeding stump between Birmingham and the outskirts of London Euston the central London terminus still seemingly unreachable All of this has cost taxpayers tens of billions Sally Gimson meets with the politicians engineers and ordinary people affected by the failure of HS2 Travelling from demolished council estates in Camden to ghost towns along the now cancelled Northern branch Off the Rails provides a forensic examination of how a vital social project imploded *Bus Services Across the UK* Great Britain: Parliament: House of Commons: Transport Committee,2006-10-26 Buses are a key local service but usage has been in decline since the 1950s The Transport Act 1985 introduced deregulation but that has failed to reverse that decline The report examines the particular problems local authorities face in developing and implementing effective bus strategies It is clear to the Committee that for many areas including all major metropolitan areas outside London the current regime is not working The Committee recommends more flexibility and is particularly attracted by Quality Contracts These would replace open competition with a licensed regime Operators bid for exclusive rights to run bus services on a route or group of routes on the basis of a local authority service specification Independent Traffic Commissioners are another development that the Committee welcomes and would like to see them have a higher profile and more resources and powers especially to enforce Quality Contracts and penalise operators who do not meet their obligations Others areas covered in the report are securing socially necessary services outside the PTAs congestion and bus priority concessionary fares and the image of the bus Annual Report and Transactions North Staffordshire Field Club,1909 *High speed rail* Great Britain: Parliament: House of Commons: Transport Committee,2011-11-08 The main report is available ISBN 9780215038579 and additional written evidence is contained in Volume 3 available on the Committee website at www.parliament.uk/transcom *Urban Rail Transit* Waerawara Weerawat,Phumin Kirawanich,Anna Fraszczyk,Marin Marinov,2020-09-28 These proceedings gather a selection of peer reviewed papers presented at the 6th Thailand Rail Academic Symposium TRAS 2019 held at Mahidol University Bangkok Thailand on 21 22 November 2019 The focus is on presenting recent research on issues related to rail and metro with a specific focus on metro performance and system design undertaken in Thailand South East Asia and beyond Topics presented are divided into three themes and cover topics towards sustainable transportation related to Metro operations and system performance Rail engineering and vehicles Rail education and training Midwest Railroader and Locomotive Journal and

Bureau of Foreign and Domestic Commerce,1929 **Transport and the economy** Great Britain: Parliament: House of Commons: Transport Committee,Louise Ellman,2011-03-02 In this report the Transport Committee calls on the Government to publish a White Paper on its transport strategy explaining in particular how spending on transport will deliver economic growth and development Such a strategy must set objectives for all transport spending and explain the criteria Ministers will use to decide between different claims on limited financial resources The report welcomes the commitment to undertake transport investment that will deliver sustainable growth and enterprise including green industries balanced across all sectors and in a manner that will reduce regional disparities Ministers must however ensure that this vision for transport investment is backed up by a pro active and fully integrated economic development strategy This is so far absent The current Government has swept away the regional tier of planning and many institutions that played a key role in the development of strategic priorities for transport spending in support of economic development This has created a vacuum that has left regions without the institutions and arrangements they need to plan and prioritise sub national transport schemes and other significant transport infrastructure The Coalition also needs a much stronger strategy for developing the UK s major ports and airports The Government must also do more to correct regional disparities

in transport investment The Department for Transport's New Approach To Appraisal process which plays such a major role in deciding which transport schemes get Government funding is highly controversial Small schemes including sustainable transport projects may be cut disproportionately under new transport funding arrangements
