If as Wallace Stegner said the national park is the best idea we ever had the rail trail is certainly a close runner up Part transportation corridor part park the rail trail has revolutionized the way America creates high quality car free pathways for bicyclists runners walkers equestrians and more It was only a few decades after railroad barons had run roughshod over America s economy and politics that they began to shed nearly one hundred thousand miles of unneeded railroad corridor At the same time bicyclists were being so thoroughly pushed off ever more intimidating roadways they came close to extinction Through political organizing and lawyerly grit an unlikely formerly marginalized advocacy arose seized on seemingly worthless strips of land and created a resource that is treasured by millions of Americans today for recreation purposeful travel tourism conservation and historical interpretation From Rails to Trails is the fascinating tale of the rails to trails movement as well as a consideration of what the continued creation of rail trails means for the future of Americans health nonmotorized transportation networks and communities across the country      The Western Railroader, for the Western Railfan ,1960

**Household Chores and Household Choices** Kerri S. Barile,Jamie C. Brandon,2004-06-25 Discusses the concepts of home house and household in past societies Because archaeology seeks to understand past societies the concepts of home house and household are important Yet they can be the most elusive of ideas Are they the space occupied by a nuclear family or by an extended one Is it a built structure or the sum of its contents Is it a shelter against the elements a gendered space or an ephemeral place tied to emotion We somehow believe that the household is a basic unit of culture but have failed to develop a theory for understanding the diversity of households in the historic and prehistoric periods In an effort to clarify these questions this volume examines a broad range of households a Spanish colonial rancho along the Rio Grande Andrew Jackson s Hermitage in Tennessee plantations in South Carolina and the Bahamas a Colorado coal camp a frontier Arkansas farm a Freedman s Town eventually swallowed by Dallas and plantations across the South to define and theorize domestic space The essays devolve from many disciplines but all approach households from an archaeological perspective looking at landscape analysis excavations reanalyzed collections or archival records Together the essays present a body of knowledge that takes the identification analysis and interpretation of households far beyond current conceptions      **Railfan** ,1977
