Impact of the Railway on Society in Britain A. K. B. Evans,J.V. Gough,2017-03-02 Jack Simmons perhaps more than any
other single scholar is responsible for the advancement of the academic study of transport history As well as being a co
founder of the Journal of Transport History he wrote extensively on a variety of transport related topics and was instrumental
in developing the London Transport and the National Railway museums Whilst his death in September 2000 at the age of 85
was a sad loss to the world of transport history the achievements of his life celebrated in this festschrift remain a lasting
legacy to succeeding generations of scholars in many fields Concentrating on the theme of the railways and how they
dramatically affected the development of Britain and her society this collection touches on numerous issues first highlighted
by Professor Simmons which are now central to academic study These include the men who built the railways those who
financed the enterprise how the railways affected such everyday issues as tourism the arts and politics as well as the lasting
legacy of the railways in a country now dominated by the private car This volume written by former friends students and
colleagues of Professor Simmons reflects these interests and provides a fitting tribute to one of the truly great British
historians of the twentieth century **Books in Print** ,1991 **Subject Guide to Books in Print** ,1983 **The**
Bookseller ,1982 **Steam Trains and Jigsaw Puzzles** David Platt,2007-07-18 Steam Trains and Jigsaw Puzzles strikes
most people as an intriguing title The origin is simple however my trainspotting youth has been synchronized with a later
interest in jigsaw puzzles The result is expensive I have a collection of over 250 jigsaws depicting British steam railways The

conclusion is impossible there are over 500 steam railway jigsaw puzzles to collect and they are being supplemented annually The Liverpool Manchester Railway marked the arrival of the true passenger railway service in 1830 and presented jigsaw manufacturers with another subject on which to focus Prior to this date the jigsaw experience started by John Spilsbury in c1760 was restricted to subjects such as religion geography history monarchs the alphabet and art Many characteristics combine to form the basis of nostalgic images buried indelibly in the minds of people who travelled in the steam railway age Manufacturers have not been slow to tap into this nostalgia and produce jigsaws aimed at stirring those memories and inviting people to reflect on past experiences good bad or indifferent Chad Valley Victory Good Companion Falcon Waddingtons and Arrow are just a few manufacturers who produced steam railway jigsaws in the past Most of these companies are now a distant memory while others are in foreign ownership Equally famous names such as Wentworth Ravensburger Germany House of Puzzles Gibsons JR Puzzles and King Puzzles Holland continue the manufacturing tradition Output is generally superb thanks to the efforts of fine railway artists such as Terence Cuneo George Heiron T E North Don Breckon John Austin Barry Freeman and Malcolm Root The book is aimed at anyone with an interest in jigsaw puzzles and at those enthusiasts and aficionados who refuse to allow those evocative memories of the Golden Age of Steam to die
