Hoffmann, 2015-07-11 Westerns may have had their heyday but they remain popular. The greatest films from 1914 when *The Squaw Man* and *The Virginian* were among the genre's best through 2001 when *American Outlaws* and *Texas Rangers* were tops are the subject of this work. For each year the author names the outstanding western films in the following categories: picture, screenplay, original and adaptation, direction, cinematography, music, male and female leading roles, and male and female supporting roles. Also for each year the author lists the westerns that received Academy Award nominations and those that won. Makes note of the births and deaths of notable actors, directors, producers, composers, cinematographers, authors, and other such personalities and describes the genre's significant achievements **Rainbow Bridge to Monument Valley**

Thomas J. Harvey, 2013-07-29 The Colorado River Plateau is home to two of the best known landscapes in the world: Rainbow Bridge in southern Utah and Monument Valley on the Utah-Arizona border. Twentieth-century popular culture made these places icons of the American West, and advertising continues to exploit their significance today. In *Rainbow Bridge to Monument Valley*, Thomas J. Harvey artfully tells how Navajos and Anglo-Americans created fabrics of meaning out of this stunning desert landscape space that western novelist Zane Grey called the storehouse of unlived years where a rugged, more authentic life beckoned. Harvey explores the different ways in which the two societies imbued the landscape with deep cultural significance. Navajos long ago incorporated Rainbow Bridge into the complex origin story that embodies their religion and worldview. In the early 1900s, archaeologists crossed paths with Grey in the Rainbow Bridge area. Grey, credited with making the modern western novel popular, sought freedom from the contemporary world and reimagined the landscape for his own purposes. In the process, Harvey shows, Grey erased most of the Navajo inhabitants. This view of the landscape culminated in filmmaker John Ford's use of Monument Valley as the setting for his epic mid-twentieth-century Westerns.

Harvey extends the story into the late twentieth century when environmentalists sought to set aside Rainbow Bridge as a symbolic remnant of nature untainted by modernization. Tourists continue to flock to Monument Valley and Rainbow Bridge as they have for a century but the landscapes are most familiar today because of their appearances in advertising. Monument Valley has been used to sell perfume, beer, and sport utility vehicles. Encompassing the history of the Navajo, archaeology, literature, film, environmentalism, and tourism, Rainbow Bridge to Monument Valley explores how these rock formations, Navajo sacred spaces, still have become embedded in the modern identity of the American West and of the nation itself.

The American Literary History Reader Gordon Hutner, 1995. American Literary History has emerged as the leading journal devoted to U.S. literary and cultural studies. In this anthology, 17 major scholars address subjects as diverse as Hawthorne's utopias, Indian pictographs, Emily Dickinson, and class and the Black Arts Movement.

Cold Warriors Suzanne Clark, 2000. Cold Warriors: Manliness on Trial in the Rhetoric of the West returns to familiar cultural forces: the West, anticommunism, and manliness to show how they combined to suppress dissent and dominate the unruliness of literature in the name of a national identity after World War II. Few realize how much the domination of a white male American literary canon was a product not of long history but of the Cold War. Suzanne Clark describes here how the Cold War excluded women writers on several levels together with others: African American, Native American, poor men, as well as women who were ignored in the struggle over white male identity. Clark first shows how defining national individual American identity in the Cold War involved a brand new configuration of cultural history. At the same time, it called upon the nostalgia for the old discourses of the West: the national manliness asserted by Theodore Roosevelt to claim that there was and always had been only one real American identity. By subverting the claims of a national identity, Clark finds many male writers risked falling outside the boundaries not only of public rhetoric but also of the literary world: men as different from one another as the determinedly masculine Ernest Hemingway and the antiheroic storyteller of the everyday, Bernard Malamud. Equally vocal and contentious Cold War women writers were unwilling to be silenced, as Clark demonstrates in her discussion of the work of Mari Sandoz and Ursula Le Guin. The book concludes with a discussion of how the silencing of gender, race, and class in Cold War writing maintained its discipline until the eruptions of the sixties. By questioning the identity politics of manliness in the Cold War context of persecution and trial, Clark finds that the involvement of men in identity politics set the stage for our subsequent cultural history.

American Indian Education, 2nd Edition Jon Reyhner, Jeanne Eder, 2017-11-02. Before Europeans arrived in North America, Indigenous peoples spoke more than three hundred languages and followed almost as many distinct belief systems and lifeways. But in childrearing, the different Indian societies had certain practices in common, including training for survival and teaching tribal traditions. The history of American Indian education from colonial times to the present is a story of how Euro-Americans disrupted and suppressed these common cultural practices and how Indians actively pursued and preserved them. American Indian Education recounts that history from the earliest missionary and

government attempts to Christianize and civilize Indian children to the most recent efforts to revitalize Native cultures and return control of schools to Indigenous peoples Extensive firsthand testimony from teachers and students offers unique insight into the varying experiences of Indian education Historians and educators Jon Reyhner and Jeanne Eder begin by discussing Indian childrearing practices and the work of colonial missionaries in New France Canada New England Mexico and California then conduct readers through the full array of government programs aimed at educating Indian children From the passage of the Civilization Act of 1819 to the formation of the Bureau of Indian Affairs in 1824 and the establishment of Indian reservations and vocation oriented boarding schools the authors frame Native education through federal policy eras treaties removal assimilation reorganization termination and self determination Thoroughly updated for this second edition American Indian Education is the most comprehensive single volume account useful for students educators historians activists and public servants interested in the history and efficacy of educational reforms past and present

"A" Western Filmmakers Henryk Hoffmann, 2024-10-16 From High Noon to Unforgiven the A Western represents the pinnacle of Western filmmaking More intellectual ambitious and time consuming than the readily produced B or serial Westerns these films rely on hundreds of talented artists This comprehensive reference work provides biographies and Western filmographies for nearly 1 000 men and women who have contributed to at least three A Westerns These contributors are arranged by their role in film production Cinematographers composers actors actresses and directors receive complete biographical treatment writers whose work was used in at least two Westerns are also featured An appendix lists well known actors who have appeared in either one or two A Westerns as specified

American Indian Education Jon Reyhner, Jeanne Eder, 2015-01-07 In this comprehensive history of American Indian education in the United States from colonial times to the present historians and educators Jon Reyhner and Jeanne Eder explore the broad spectrum of Native experiences in missionary government and tribal boarding and day schools This up to date survey is the first one volume source for those interested in educational reform policies and missionary and government efforts to Christianize and civilize American Indian children Drawing on firsthand accounts from teachers and students American Indian Education considers and analyzes shifting educational policies and philosophies paying special attention to the passage of the Native American Languages Act and current efforts to revitalize Native American cultures

The Rise of Multicultural America Susan L. Mizruchi, 2009-06-01 Between the Civil War and World War I the United States underwent the most rapid economic expansion in history At the same time the country experienced unparalleled rates of immigration In The Rise of Multicultural America Susan Mizruchi examines the convergence of these two extraordinary developments No issue was more salient in postbellum American capitalist society she argues than the country's bewilderingly diverse population This era marked the emergence of Americans self consciousness about what we today call multiculturalism Mizruchi approaches this complex development from the perspective of print culture demonstrating how both popular and elite writers played pivotal roles in

articulating the stakes of this national metamorphosis In a period of widespread literacy writers assumed a remarkable cultural authority as best selling works of literature and periodicals reached vast readerships and immigrants could find newspapers and magazines in their native languages Mizruchi also looks at the work of journalists photographers social reformers intellectuals and advertisers Identifying the years between 1865 and 1915 as the founding era of American multiculturalism Mizruchi provides a historical context that has been overlooked in contemporary debates about race ethnicity immigration and the dynamics of modern capitalist society Her analysis recuperates a legacy with the potential to both invigorate current battle lines and highlight points of reconciliation **Our America** Walter Benn Michaels, 1995 Arguing that the contemporary commitment to the importance of cultural identity has renovated rather than replaced an earlier commitment to racial identity Walter Benn Michaels asserts that the idea of culture far from constituting a challenge to racism is actually a form of racism Our America offers both a provocative reinterpretation of the role of identity in modernism and a sustained critique of the role of identity in postmodernism We have a great desire to be supremely American Calvin Coolidge wrote in 1924 That desire Michaels tells us is at the very heart of American modernism giving form and substance to a cultural movement that would in turn redefine America's cultural and collective identity ultimately along racial lines A provocative reinterpretation of American modernism Our America also offers a new way of understanding current debates over the meaning of race identity multiculturalism and pluralism Michaels contends that the aesthetic movement of modernism and the social movement of nativism came together in the 1920s in their commitment to resolve the meaning of identity linguistic national cultural and racial Just as the Johnson Immigration Act of 1924 which excluded aliens and the Indian Citizenship Act of the same year which honored the truly native reconceptualized national identity so the major texts of American writers such as Cather Faulkner Hurston and Williams reinvented identity as an object of pathos something that can be lost or found defended or betrayed Our America is both a history and a critique of this invention tracing its development from the white supremacism of the Progressive period through the cultural pluralism of the Twenties Michaels's sustained rereading of the texts of the period the canonical the popular and the less familiar exposes recurring concerns such as the reconception of the image of the Indian as a symbol of racial purity and national origins the relation between World War I and race contradictory appeals to the family as a model for the nation and anxieties about reproduction that subliminally tie whiteness and national identity to incest sterility and impotence **Wilderness A to Z** Rachel Carley, 2001 The Whole Earth Catalog meets the Boy Scout Manual in this comprehensive and irresistible compendium of wilderness wisdom natural history and practical know how Illustrations maps photos throughout **Nevada** Zane Grey, 1928 Nevada breaks up gang of cattle rustlers on Arizona ranch **Forlorn River** Zane Grey, 1926 Ben Ide is a failure in the horse trade because he loves horses more than money A few bad deals have turned the world against him His greatest adversary is his father who thinks Ben good for nothing Determined to show what he is made of and what he can do Ben
