hatred and its cyclical recurrence Benedict Beckeld explores oikophobia described by its coiner Sir Roger Scruton as the felt need to denigrate the customs culture and institutions that are identifiably ours in its political and philosophical applications Beckeld analyzes the theories behind oikophobia along with their historical sources revealing why oikophobia is best described as a cultural malaise that befalls civilizations during their declining days Beckeld gives a framework for why today's society is so fragmented and self critical He demonstrates that oikophobia is the antithesis of xenophobia By this definition the riots and civil unrest in the summer of 2020 were an expression of oikophobia Excessive political correctness that attacks tradition and history is an expression of oikophobia Beckeld argues that if we are to understand these behaviors and attitudes we must understand oikophobia as a sociohistorical phenomenon

Western Self Contempt is a systematic analysis of oikophobia combining political philosophy and history to examine how Western civilizations and cultures evolve from naive and self promoting beginnings to states of self loathing and decline Concluding with a philosophical portrait of an increasingly interconnected Western civilization Beckeld reveals how past events and ideologies both in the US and in Europe have led to a modern culture of self questioning and self rejection

Blank, 2013-08-26 Widely publicized in mass media worldwide high profile tragedies and celebrity scandals the untimely deaths of Michael Jackson and Princess Diana the embarrassing affairs of Tiger Woods and President Clinton the 9/11 attacks or the Challenger space shuttle explosion often provoke nervous laughter and black humor If in the past this snarky folklore may have been shared among friends and uttered behind closed doors today the Internet's ubiquity and instant interactivity propels such humor across a much more

extensive and digitally mediated discursive space New media not only let more people in on the joke but they have also become the go to formats for engaging in symbolic interaction especially in times of anxiety or emotional suppression by providing users an expansive forum for humorous combative or intellectual communication including jokes that cross the line of propriety and good taste Moving through engaging case studies of Internet derived humor about momentous disasters in recent American popular culture and history *The Last Laugh* chronicles how and why new media have become a predominant means of vernacular expression Trevor J Blank argues that computer mediated communication has helped to compensate for users sense of physical detachment in the real world while generating newly meaningful and dynamic opportunities for the creation and dissemination of folklore Drawing together recent developments in new media studies with the analytical tools of folklore studies he makes a strong case for the significance to contemporary folklore of technologically driven trends in folk and mass culture
