Romans: A Social Identity

Commentary William S. Campbell, 2023-01-26 William S Campbell provides a comprehensive commentary on Paul's most challenging letter In conversation with reception history and previous scholarship he emphasizes the contextuality of Romans as a letter to Rome using social identity theory combined with historical literary and theological perspectives to arrive at a coherent reading of the entire letter Because Paul has never visited Rome and is not the founder of the Christ movement there Campbell argues that his guidance and teaching are formulated more cautiously than in his other letters Yet the long list of people who had previous links with him and his mission to the gentiles demonstrates that Paul is well informed about the situation in Rome and addresses issues that have arisen With Christ the Messianic Time is beginning but there was some lack of clarity in Rome about the implications of this for Jews and gentiles Rather than ethne in Christ replacing Israel as some in Rome possibly concluded Campbell stresses that Paul affirms the irrevocable calling of Israel and that simultaneously the identity of ethne in Christ is also called alongside the people Israel thus the integrity of the identity of both is affirmed as indispensable for God's purpose now revealed in Christ Campbell fully demonstrates how Paul in Romans achieves this by the social and theological intertwining of the message of the gospel

1 Corinthians: A Social Identity

Commentary J. Brian Tucker, 2024-10-17 Paul's first letter to the Corinthians deals with key aspects of the formation of the Christian community at Corinth Paul uses his correspondence with the Corinthians to address issues of morality of community structure of ritual and of religious behaviour The letter is a key document for understanding the development of Christianity and for understanding Christianity in its earliest context In this Social Identity Commentary J Brian Tucker provides a comprehensive coverage of the issues and concerns related to 1 Corinthians from the perspective of social identity Tucker outlines his interpretation of the theoretical issues concerned and then applies this to provide a clear overview of historical and critical issues related to the study of 1 Corinthians This provides a clear engagement with the text that will serve as a useful resource for scholars students clergy and people interested in the formation and purpose of the letter

Empire of Images Alyson Roy,2024-04-01 Rome was an empire of images especially images that bolstered their imperial identity Visual and material items portraying battles myths captives trophies and triumphal parades were particularly important across the Roman empire But where did these images originate and what shaped them Empire of Images explores the development of the Roman visual language of power in the Republic in Iberian Peninsula the Gallic provinces and Greece and Macedonia centering the development of imperial imagery in overseas conquest Drawing on a range of material evidence this book argues that Roman imperial imagery developed through prolonged interaction with and adaptation by subjugated peoples Despite their starring role in Roman imagery the populations of Rome s provinces continuously reinterpreted and reimagined Roman images of power to navigate their membership in the new imperial community and in doing so contributed to the creation of a universal visual language that continues to shape how Rome is understood Designing for Luxury on the Bay of Naples Mantha Zarmakoupi,2014 This study explores Roman luxury villa lifestyle and architecture to shed light on the

supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late republican Rome, and the transhistorical import of Cicero's politics of verbal and physical violence.

Tertullian the African David E. Wilhite, 2011-06-24 Who was Tertullian and what can we know about him? This work explores his social identities, focusing on his North African milieu. Theories from the discipline of social cultural anthropology, including kinship, class, and ethnicity, are accommodated and applied to selections of Tertullian's writings. In light of postcolonial concerns, this study utilizes the categories of Roman colonizers, indigenous Africans, and new elites. The third category, new elites, is actually intended to destabilize the other two, denying any essential Roman or African identity. Thereafter, samples from Tertullian's writings serve to illustrate comparisons of his own identities and the identities of his rhetorical opponents. The overall study finds Tertullian's identities to be manifold, complex, and discursive. Additionally, his writings are understood to reflect antagonism toward Romans, including Christian Romans, which is significant for his so-called Montanism and Romanized Africans. While Tertullian accommodates much from Graeco-Roman literature, laws, and customs, he nevertheless retains a strongly stated non-Romanness and an Africanity which is highlighted in the present monograph.

Painting, Ethics, and Aesthetics in Rome Nathaniel B. Jones, 2019-01-24 In the first centuries BCE and CE, Roman wall painters frequently placed representations of works of art, especially panel paintings, within their own mural compositions. Nathaniel B. Jones argues that the depiction of panel painting within mural ensembles functioned as a meta-pictorial reflection on the practice and status of painting itself. This phenomenon provides crucial visual evidence for both the reception of Greek culture and the interconnected ethical and aesthetic values of art in the Roman world. Roman meta-pictures, this book reveals, not only navigated social debates on the production and consumption of art but also created space on the Roman wall for new modes of expression relating to pictorial genres, the role of medium in artistic practice, and the history of painting. Richly illustrated, the volume will be important for anyone interested in the social, ethical, and aesthetic dimensions of artworks in the ancient Mediterranean and beyond.
